Note on Unduplicated Counts:
Grand totals are unduplicated. Status amounts (Approved, Denied, Denied & May Request Fair Hearing, In Process, Pending) may have multiple SKSAI's submitted for an individual.
These individuals are counted once in the unduplicated total.

Definitions:
Approved: Individuals with assessments that were approved by TMHP or as a result of fair hearings.
Denied: Individuals with assessments that were finally denied as a result of fair hearings.
Denied & May Request Fair Hearing: Individuals with assessments that were initially denied by TMHP and may still request fair hearings.
In Process: Individuals with assessments still being reviewed by TMHP that have not received MN determination.
Pending: Individuals with assessments in the fair hearing process.

Eligibility not found: Individuals for whom eligibility was not yet established; at the time of the data run or Medicaid eligibility was later terminated for another reason retroactively.
MAO: (Medical Assistance Only) Individuals who qualify financially and functionally for Medicaid assistance but do not receive Supplemental Security Income (SSI) benefits.
SSI: Individuals who qualify for both Supplemental Security Income (SSI) benefits and medical services under Medicaid.

Other Notes:
An individual is counted in a given month if they had an MDCP SK-SAI submitted during that month.
SK-SAIs with an indication that both MN and RUG calculations are required are considered MDCP assessments.

Definitions:

The data reported herein responds to a request for utilization trends of private duty nursing (PDN) and personal care services (PCS) among Medicaid clients that eventually received services as a STAR Kids client, a managed care program that started November 2016. The data includes paid claims and encounters for services received at any time during November 2014-February 2018 by clients identified as having later received services as a STAR Kids client. A client was defined as having received services as a STAR Kids client if they had at least one encounter for services paid via STAR Kids during November 2016-February 2018. Only fee-for-service acute care claims were reviewed for utilization of services prior to November 2016 on the basis that STAR Kids clients, if they had received these services before November 2016, would have had the services paid via fee-for-service. Both fee-for-service claims and managed care encounters were reviewed for services provided on or after November 2016, assuming not all clients transitioned to STAR Kids at the same time or began services at the same time. The data do not include fee-for-service long-term services and supports; nor school health and related services provider types (SHARS).

Private duty nursing (PDN) was defined as procedure codes T1000, T1002, T1003.

Personal care services (PCS) was defined as procedure codes T1019.

Client counts were calculated as the distinct count of clients with valid detail paid units using the clients' identification number. Unduplicated subtotals may not sum to unduplicated total because a client may be present in multiple categories.

Paid hours were calculated as the sum of valid detail paid units indicated on the claim/encounter for the procedure translated into hours. Because both PDN and PCS codes are billed based on 15-minute segments in a day, a unit of service <=96 was considered valid as there is a maximum of 96, 15-minute segments in day. This restriction yielded a loss of 0.03% of records; the majority of records had valid paid units.

Data Sources:

Data include paid Medicaid claims and encounters (AHQP Claims Universe, TMHP; Enc_Best Picture Universe, TMHP).
Enrollment data provided by HHSC System Forecasting.
