

Operating Budget Fiscal Year 2020

Submitted to the Governor's Office Budget Division and the Legislative Budget Board by the Health and Human Services Commission December 1, 2019

CERTIFICATE

Agency Name The Health and Human Services Commission

This is to certify that the information contained in the agency operating budget filed with the Legislative Budget Board (LBB) and the Office of the Governor, Budget Division, is accurate to the best of my knowledge and that the electronic submission to the LBB via the Automated Budget and Evaluation System of Texas (ABEST) and the PDF file submitted via the LBB Document Submission application are identical.

Additionally, should it become likely at any time that unexpended balances will accrue for any account, the LBB and the Office of the Governor will be notified in writing in accordance with House Bill 1, Article IX, Section 7.01, Eighty-sixth Legislature, Regular Session, 2019.

| Code Desci | iption | EXP 20 | 018 EXP 2019 | BUD 2020 |

Strategy Descriptions and Justification:

Medicaid children represent the majority of the Medicaid caseload. This sub-strategy includes the newborns under age 1 up to 185% of the federal poverty level (FPL) group of children eligible for Medicaid based on age and income. This sub-strategy also includes newborns of Medicaid-eligible mothers who are deemed eligible for 12 months. It does not include children who are eligible for Medicaid based on Supplemental Security Income disability. This sub-strategy contributes to the statewide goal of promoting the health of the people of Texas by improving the quality of health care services. In January 2014, the Medicaid program income eligibility increased to 133% of FPL pursuant to the Affordable Care Act which moves certain children in CHIP to Medicaid. These former CHIP children retain the higher federal match rate while in the Medicaid program

| Code Desci | iption | EXP 2018 | EXP 2019 | BUD 2020 |

Strategy Descriptions and Justification:

Medicaid children represent the majority of the Medicaid caseload. This sub-strategy includes the federally mandated children ages 6-14 up to 133% (formerly 100%) of the federal poverty level (FPL) group of children eligible for Medicaid based on age and income. It does not include children who are eligible for Medicaid based on Supplemental Security Income disability. In January 2014, the Medicaid program income eligibility increased to 133% of FPL pursuant to the Affordable Care Act which moves certain children in CHIP to Medicaid. These former CHIP children retain the higher federal match rate while in the Medicaid program. This sub-strategy contributes to the statewide goal of promoting the health of the people of Texas by improving the quality of health care services.

EXP 2019

BUD 2020

Agency Code: 529

Agency Name: Health and Human Services Commission

EXP 2018

| GOAL: | 1 | Medicaid Client Services |
|----------------|---|-------------------------------------|
| OBJECTIVE: | 1 | Acute Care Svcs (Incl STARPLUS LTC) |
| STRATEGY: | 5 | Children |
| SUB- STRATEGY: | 6 | Foster Care Children |

Code Description

Strategy Descriptions and Justification:

The Texas Legislature directed HHSC to create a comprehensive, cost effective health care delivery model to meet the needs of children in foster care receiving Medicaid. The managed care delivery model, called STAR Health, began providing services to children on April 1, 2008. Previously, children in foster care received fee-for-service Medicaid. STAR Health is a statewide managed care program that provides health services to children in foster care and kinship care.

STAR Health eligible populations are:

- children in DFPS conservatorship (under age 18),

- youth in DFPS extended foster care (ages 18 to 22),

- youth (Former Foster Care Children/FFCC) who were previously under DFPS conservatorship and have returned to foster care (ages 18 to 22) through voluntary foster care agreements,

- youth ages 18-21 who were previously in foster care and are living independently and receive Medicaid for Transitioning Youth (MTFCY), and

- former foster care youth (ages 21 to 23) enrolled in an institution of higher education located in Texas enrolled in the Former Foster Care in Higher Education (FFCHE) program.

Many children move in and out of foster care state conservatorship and many come into foster care with unique physical and behavioral health care needs. These children are a high-risk population with a greater need for comprehensive services and better coordinated care. STAR Health features include: immediate enrollment into the program as soon as the child enters foster care; access to a statewide provider network, including dental; increased focus on behavioral health services; service management and service coordination; and access to an electronic Health Passport, a web-based summary of each child's medical information which can be accessed by health care providers and caregivers.

Beginning November 1, 2016, the STAR Health managed care organization began providing 1915(c) Medically Dependent Children's Program services to enrolled and eligible members. Dual eligibles, individuals receiving hospice services, individuals receiving other 1915(c) waiver services (e.g., CLASS, DBMD, HCS, TxHmL, and YES), and individuals in an intermediate care facility who meet the above eligibility criteria also are enrolled into STAR Health. Hospice and other 1915(c) waiver services are reimbursed through FFS Medicaid.

Strategy Descriptions and Justification:

NEMT services on a regional basis are coordinated through two types of managed transportation capitated models: Full Risk Brokers and Managed Transportation Organization (MTO). This sub-strategy includes payments made to MTOs and FRBs who manage NEMT services. Government Code, Section 533.00257 requires HHSC to provide medical transportation program (MTP) services on a regional basis through MTOs. FRBs provide services in the Houston/Beaumont and Dallas/Fort Worth service delivery areas. MTOs provide services in the rest of the state. Both the FRBs and MTOs arrange NEMT services on a full-risk basis. HHSC pays each vendor a set per-member-per-month rate each month. The vendor arranges NEMT services for program eligible clients.

| GOAL: | 1 Medicaid Client Services | | | |
| OBJECTIVE: | 1 Acute Care Svcs (Incl STARPLUS LTC) | | | |
| STRATEGY: | 8 Medical Transportation | | | |
| SUB- STRATEGY: | 1 Capitated Models | | | |
| Code Descr | iption | EXP 2018 | EXP 2019 | BUD 2020 |

Strategy Descriptions and Justification:

FRBs and MTOs provide for: demand response transportation; mass transit tickets; mileage reimbursement for Individual Transportation Participants (ITP); meals and lodging; advanced funds; out-of-state travel; commercial airline transportation services; attendant services; and call center operations. Client ages birth to 20 years old and their attendant may be eligible for meals and lodging, when an overnight stay at a facility beyond the client's county of residence is medically necessary. Children who are 14 and younger can never travel without an adult. Children who are 15 to 17 years old can travel without an adult if their parent or guardian has filled out a consent form before setting up the trip or the covered health care services in cases where law requires complete confidentiality.

Services in the Dallas/Fort Worth & Houston/Beaumont areas are delivered through a FRB. Services for the rest of the state are delivered through a MTO. MTP services under the capitated model are eligible for federal reimbursement at the FMAP rate. CSHCN and TICP are not eligible for FMAP unless they are dual eligible as these programs are not Medicaid programs.

Projected expenditures for maintaining current cost trends are requested as an exceptional item as base funding for FY 2020-21 holds costs at FY 2019 levels.

Strategy Descriptions and Justification:

This MTP sub-strategy includes Fee-For-Service costs for cost-effective non-emergency medical transportation (NEMT) services for categorically eligible Medicaid clients. Only clients who have no other means of transportation available to access Medicaid-covered-healthcare services and meet all eligibility criteria are eligible for NEMT services. States are federally required to provide NEMT services for clients to and from their Medicaid covered healthcare visits provided by a Medicaid-enrolled qualified service provider. NEMT services are also available to people who are identified by either the Children with Special Health Care Needs program or people in the Transportation of Indigent Cancer Patients program.

This sub-strategy provides services for Preadmission Screening and Resident Review (PASRR). PASRR is a federal requirement to help ensure that individuals are not inappropriately placed in nursing homes for long term care. PASRR requires that 1) all applicants to a Medicaid-certified nursing facility be evaluated for serious mental illness (SMI) and/or intellectual disability; 2) be offered the most appropriate setting for their needs (in the community, a nursing facility, or acute care settings); and 3) receive the services they need in those settings.

This sub-strategy, which contributes to the statewide goal of promoting the health of the people of Texas by improving the quality of health care services, includes the following Medicaid services that are provided to eligible Medicaid recipients by independent contractors on a cost reimbursed basis: School Health and Related Services (SHARS). SHARS reimburses Medicaid-enrolled independent school districts and public charter schools the federal share of state plan services that are determined to be medically necessary and reasonable for children who have been deemed eligible for special education services.

This sub-strategy provides services in accordance with the Omnibus Reconciliation Act of 1986, which mandates Medicaid coverage for non-citizens residing illegally in the U.S. who have an emergency condition. An applicant must meet all Medicaid eligibility criteria, except citizenship, and have an emergency medical condition. Medicaid coverage is limited to services related to the emergency condition.

This sub-strategy includes payments made to hospitals for the Medicaid Graduate Medical Education program.

The Graduate Medical Education (GME) sub-strategy includes payments that cover the costs of residents' and teaching physicians' salaries and fringe benefits, program administrative staff, and allocated facility overhead costs for hospitals that operate medical residency training programs. In recent years the share of state match has been provided by public state teaching hospitals as an intergovernmental transfer.

This sub-strategy includes payments that cover the costs of the Department of State Health Services laboratory to perform newborn screening services for HHSC's clients participating in Medicaid, including Medicaid managed care programs.

In accordance with 25 T.A.C. §37.53, all newborns born in Texas shall receive at least two screens. The initial newborn screen (the ""Initial Screen"") is generally conducted at a hospital within 72 hours of birth, and a follow-up newborn screen (the ""Follow-up Screen"") is generally conducted one to two weeks later during a ""well-child"" visit in a medical service provider's office or clinic.

Strategy Descriptions and Justification:

This sub-strategy includes the payment of Medicare Part A premiums to the Social Security Administration for certain Medicaid qualified aged and disabled clients who are eligible for Title XVIII Medicare coverage. Part A is hospital insurance which generally covers inpatient hospital services (excluding physician services provided in the hospital), skilled nursing facility costs when a nursing facility is required after a hospital visit, and hospice care. Dual eligible Medicare/Medicaid clients utilize covered Medicare services before utilizing Medicaid services, making this a cost effective sub-strategy. This sub-strategy contributes to the statewide goal of promoting the health of the people of Texas by improving the quality of health care services.

Strategy Descriptions and Justification:

This sub-strategy includes the payment of Medicare Part B premiums to the Social Security Administration for certain Medicaid qualified aged and disabled clients who are eligible for Title XVIII Medicare coverage. The federal government sets the rate for Part B premiums. Part B is supplementary medical insurance, which covers services such as physician services (both inpatient and outpatient), clinical laboratory tests, durable medical equipment, diagnostic tests, and ambulance services. Dual eligible Medicare/Medicaid clients utilize covered Medicare services before utilizing Medicaid services, making this a cost effective sub-strategy. This sub-strategy contributes to the statewide goal of promoting the health of the people of Texas by improving the quality of health care services.

This sub-strategy represents payments for a group of Medicare beneficiaries known as Qualified Individuals (QI-1s). QI-1s are Medicare beneficiaries with income less than 135 percent of the federal poverty level (FPL) who do not qualify for full Medicaid benefits. Medicaid pays a portion of the Medicare Part B premium. This population is funded with an annual allotment of 100 percent federal funding, subject to federal appropriations.

This sub-strategy includes the payment of deductible and co-insurance payments for medical services provided to certain Medicaid qualified aged and disabled clients who are eligible for Title XVIII Medicare coverage. For dual eligible Medicare/Medicaid clients who are in fee-for-service Medicare, services are provided through the payment of Medicare co-insurance and deductibles by an independent contractor. For dual eligible Medicare/Medicaid clients enrolled in a Medicare managed care plan, HHSC has been coordinating with the Medicare plans to pay a fixed monthly rate to the plans for deductible and co-insurance payments. Dual eligible Medicare/Medicaid services, making this a cost effective sub-strategy. This sub-strategy contributes to the statewide goal of promoting the health of the people of Texas by improving the quality of health care services.

Strategy Descriptions and Justification:

The Medicare Part D (Clawback) sub-strategy includes the payments to the federal government for federally-mandated pharmacy costs for dual eligible recipients.

Federal law requires the Medicaid program to assume responsibility for drug coverage for certain Medicare-eligible Medicaid recipients who previously received their drug coverage through the Medicaid program. The Medicare Part D program assumed financial responsibility for this drug coverage in January 2006 but state Medicaid programs are required to provide part of the funding for this Medicare benefit in the form of payments to the federal government based upon a federal formula. This formula is based upon 2003 Medicaid drug costs and an inflation factor, resulting in a state per capita cost. The State's monthly payment to the federal government multiplies the monthly per capita cost by the number of monthly dual eligibles caseload or those Medicaid clients enrolled in Medicare Part D. The State's payment percentage phases down over time, from 90 percent in 2006 to 75 percent in 2015.

Although the Medicaid Part D payments are 100 percent state funds, they are federally mandated and are included in the maintenance of effort requirements for the state Medicaid program.

Strategy Descriptions and Justification:

The Texas Healthcare Transformation and Quality Improvement Program 1115 Waiver, known as the 1115 Transformation Waiver, allows the state to expand Medicaid managed care, including pharmacy and dental services, while preserving federal hospital funding historically received as UPL payments. UPL payments were supplemental payments to offset the difference between what Medicaid pays for a service and what Medicare would pay for the same service. The 1115 Transformation Waiver provides new means, through regional collaboration and coordination, for local entities to access additional federal match funds.

The 1115 Transformation Waiver contains two funding pools: the Uncompensated Care (UC) and the Delivery System Reform Incentive Payment (DSRIP) pools. DSRIP funding provides financial incentives that encourage hospitals and other providers to focus on achieving quality health outcomes. This sub-strategy represents DSRIP expenditures associated with state agency appropriated funds used as the state funding for the federal match.

| Full Time Equivalent Positions: | 0.0 | 0.0 | 0.0 |

The Texas Healthcare Transformation and Quality Improvement Program 1115 Waiver, known as the 1115 Transformation Waiver, is a five-year demonstration waiver running through September 2016 that allows the state to expand Medicaid managed care, including pharmacy and dental services, while preserving federal hospital funding historically received as UPL payments. UPL payments were supplemental payments to offset the difference between what Medicaid pays for a service and what Medicare would pay for the same service. The 1115 Transformation Waiver provides new means, through regional collaboration and coordination, for local entities to access additional federal match funds. In December 2017, the Centers for Medicare and Medicaid Services (CMS) approved an extension of the waiver through September 30, 2022.

The 1115 Transformation Waiver contains two funding pools: the Uncompensated Care (UC) and the Delivery System Reform Incentive Payment (DSRIP) pools. UC pool payments are cost-based and help offset the costs of uncompensated care provided by hospitals and other providers. UC payments will be based on each provider's UC costs as reported on a UC application. This sub-strategy represents UC expenditures associated with state agency appropriated funds used as the state funding for the federal match. The non-federal share of funding for UC and DSRIP is provided by local governmental entities through intergovernmental transfers to the State.

Strategy Descriptions and Justification:

This strategy represents the funding of directly administering the Texas Medicaid program. Federal regulations mandate that the Medicaid program must be administered by a single state agency that has final policy making authority for the program. Under Texas law, HHSC is the designated single state agency. HHSC directs the program, administers and supervises the Medicaid State Plan, and is the final approval on Medicaid rules. Policy changes in the Medicaid program often require state plan amendments or waiver of federal requirements which are subject to an extensive review and approval process by the Federal Centers for Medicaid and Medicare.

Expenditures include staffing costs as well as contracted costs for the claims administrator and fiscal agent, managed care quality monitoring support, prior authorization services, enrollment broker services, the assessment of client and provider satisfaction, and an informal dispute resolution process for long-term care facilities and administration of pharmacy rebates. The claims administrator maintains the State's Medicaid Management Information System; processes and

Strategy Descriptions and Justification:

This sub-strategy includes the federal dollars that are reimbursed to local providers such as independent school districts, local health departments, local authorities for mental health and for individuals with intellectual disabilities, and early childhood intervention providers participating in the Medicaid Administrative Claiming project. These federal dollars represent the federal share of Medicaid outreach and allowable administrative activities performed by providers under contract with HHSC.

Strategy Descriptions and Justification:

The Enrollment Broker sub-strategy represents the costs associated with the enrollment of Medicaid and CHIP clients into managed care arrangements (medical and dental). The contracted enrollment broker serves as an intermediary between the Managed Care Organizations, the clients, and HHSC. Enrollment broker functions include maintaining updated enrollment files for the Medicaid and Medicare recipients participating in the STAR, STAR Health, STAR+PLUS, STAR Kids, Children's Medicaid Dental Services and CHIP programs; issuing enrollment packets through its mail subcontractor in order educate and enroll the recipients; and maintaining an operations center dedicated to completing the enrollments whether by mail phone, or portal. Outreach efforts educate and assist recipients on a one-on-one basis with the completion of their enrollment. Additionally, the contracted enrollment broker provides specialized outreach and informing services for the Texas Health Steps (THSteps) program. In addition to the contracted vendor costs, funding includes the related postage expense.

Strategy Descriptions and Justification:

House Bill 1218, 81st Legislature, Regular Session, 2009, directed HHSC to develop a Medicaid electronic health information system to support improved quality of care by giving providers access to more information about their Medicaid patients via claims-based health histories. At the federal level, significant new Health Information Technology (HIT) policy was established through the American Recovery and Reinvestment Act (ARRA) of 2009 that includes the disbursement of incentive funds to eligible hospitals and providers for adopting, implementing, and upgrading certified electronic health record (EHR) technology and for achievement of meaningful use of those systems. Additionally, funds supported an e-prescribing project that enables providers and hospitals to access Medicaid client prescription

Strategy Descriptions and Justification:

Launched on July 1, 2016, the Healthy Texas Women Program (HTW) is a consolidation of the Texas Women's Health Program (TWHP) and the Expanded Primary Health Care Program (EPHC).

HTW serves women 15 through 44 years of age that are a U.S. citizen or eligible immigrant, a resident of Texas and have household income at or below 200% of the Federal Poverty Level. HTW services include pregnancy testing, pelvic examinations, sexually transmitted infection services, breast and cervical cancer screenings, screening and treatment for cholesterol, diabetes, and high blood pressure, contraceptive services, and screening and treatment for postpartum depression.

HTW is paid either as fee-for-service or cost reimbursement. Direct client health care services are billed to the Texas Medicaid & Healthcare Partnership (TMHP) on a fee-for-service basis. A provider does not have to contract with HHSC to provide HTW direct services on a fee-for-service basis. Under cost reimbursement, providers may choose to contract with the state to provide additional services that support the overall outcome of clients provided services through the program (e.g. assisting with program enrollment, client outreach, provider training). These payments are processed and reimbursed through a voucher process.

HTW is funded through State GR and does not provide funding for abortion related services or emergency contraception.

The Family Planning Program (FPP) provides family planning services to women and men at little to no cost. The program is dedicated to helping clients determine the number and spacing of their children, reducing unintended pregnancies, improving future pregnancy and birth outcomes, and improving general health. The program is funded through State General Revenue.

The program serves women and men who are age 64 and younger, live in Texas and have a family income at or below 250% of the Federal Poverty Level. The TANF to XX funds are used for clients with eligibility of 200% FPL and the Title XX funds are used for clients with eligibility at 250% FPL. FPP services include pregnancy testing, pelvic examinations, sexually transmitted infection services, breast and cervical cancer screenings, screening for cholesterol, diabetes, and high blood pressure, contraceptive services, and limited prenatal benefits.

FPP includes a fee-for-service component as well as a cost reimbursement component, if desired by the provider. FPP funds are allocated through an open enrollment process where selected applicants negotiate contracts to provide FPP services. HHSC contracts with a variety of organizations to provide FPP services including local health departments, medical schools, hospitals, private non-profit agencies, community-based clinics, federally qualified health centers, and rural health clinics.

Strategy Descriptions and Justification:

The Breast and Cervical Cancer Services (BCCS) program helps fund clinic sites across the state to provide quality, low-cost, and accessible breast and cervical cancer screening and diagnostic services to women. BCCS contractors are the point of access for the Medicaid for Breast and Cervical Cancer (MBCC) program, regardless of how the client was diagnosed with cancer.

BCCS provides clinical breast examinations, mammograms, pelvic examinations and Pap tests, diagnostic services, cervical dysplasia management and treatment, and assistance applying for MBCC.

Strategy Descriptions and Justification:

The 84th Texas Legislature increased funding for the HHSC Autism Program and required changes to the services provided in the program. The Comprehensive ABA treatment services were phased out during the 2016-2017 biennium. As of September 1, 2015 the program began only enrolling new children in Focused ABA treatment services.

The Children's Autism Program provides applied behavior analysis (ABA) treatment services to children with an autism spectrum disorder (ASD). ABA is a treatment that uses behavioral principles to evaluate and teach socially relevant behavior and new skills and increase desirable behaviors through positive reinforcement. To be eligible for focused services, a child must be 3 through 15 years of age, have an ASD diagnosed by a physician or psychologist, and be a Texas resident. Services are provided through contracts with local community agencies and organizations.

Under the authority of Chapter 35, Health and Safety Code, the Children with Special Health Care Needs Services Program is required to provide eligible children with early identification, diagnosis and evaluation, and rehabilitation services. Medical services include, but are not limited to, inpatient and outpatient care, physician services, therapies, durable medical equipment and supplies, drugs, home health, skilled nursing, lab, radiology, and dental services. This sub-strategy supports the statewide goal for promoting the overall physical and mental health of Texans.

Contract funds are used for the gathering and retention of umbilical cord blood from live births for the primary purpose of making umbilical cord blood available for recipients of transplants who are unrelated to the donors of the blood.

Previously through rider authority, HHSC has funded an umbilical cord blood contract that was initially based on H.B. 3572, 77th Legislature. During the 2018-19 biennium, \$1,000,000 in General Revenue funding was provided in each year of the biennium.

The Office of e-Health Coordination provides leadership to and acts as a single point of coordination for health information technology initiatives in the State of Texas. The office ensures that health information technology projects and programs are coordinated across the State's health and human svcs agencies, facilitates coordination between Texas and federal or multi-state projects, and to provide assistance to local and regional health IT projects. This includes (1) creating a collaboration and coordination infrastructure on related health information policy and technology, (2) identifying and prioritizing health information technology initiatives that can help improve health outcomes, (3) supporting the state-level infrastructure efforts of the Texas Health svcs Authority, and (4) collaborating with the Electronic Health Information Exchange System Advisory Committee and other state-level health information technology leadership bodies.

The Outpatient svcs sub-strategy includes several activities provided by the local mental health authorities as resources allow. Texas Resilience and Recovery offers Levels of Care for children's mental health (CMH) svcs which focus on a wraparound planning approach which stresses the importance of building on strengths, addressing needs as defined by the family and child, use of flexible svcs and supports, family support svcs, and the use of natural and informal community supports. Additional svcs to appropriately address CMH behavioral health needs include counseling and psychotherapy, skills training (training activities within a natural setting whenever possible that promote community inclusion and maintains the consumer's quality of life by addressing the illness or symptom-related problems and behaviors that mental illness creates), crisis resolution, and medication related svcs.

Based on guidance by the 80th Legislature and in response to Rider 69, HHSC was empowered to improve the crisis response capacity across the state using new crisis funding. Residential svcs for crisis are part of an array of crisis svcs will improve crisis response in communities, and divert individuals with mental illness from unnecessary incarceration or state hospitalization. Each residential service has a defined set of standards and defined acuity level.

Crisis outpatient svcs are immediately accessible svcs for adults, children, and adolescents that serve two purposes: ready access to psychiatric assessment and treatment for new individuals with urgent needs, and access to same-day psychiatric assessment and treatment for existing clients within the system. For persons whose crisis screening and/or assessment indicate that they are an extreme risk of harm to themselves or others in their immediate environment, rapid transfer to a higher level of care is facilitated. If extreme risk of harm is ruled out, brief crisis intervention svcs are provided on-site and crisis follow-up is provided. Crisis outpatient svcs are designed to be intensive and time-limited, and are provided until the crisis is resolved or the person is referred to another level of care.

Strategy Descriptions and Justification:

Based on guidance by the 80th Legislature, HHSC has implemented an outpatient competency restoration program to extend the ability to provide competency restoration svcs beyond State Mental Health Hospital (SMHH) based programs. The outpatient competency restoration program enhances the ability of communities to provide effective community-based treatments to individuals with mental illness involved in the legal system while reducing unnecessary burdens on jails and State psychiatric hospitals. Competency restoration svcs provide psychiatric stabilization in conjunction with legal education and skills training.

Prevention programs are aimed at reducing the use of alcohol, tobacco, and other drugs among youth and adults. Youth prevention programs conduct prevention education and skills training as a core strategy. Universal and Selective programs provide a proactive process to promote health and wellness for individuals, families, and communities by enhancing protecting factors and averting and precluding negative factors which place individuals at risk for substance abuse. Universal programs are provided to an entire

population and include substance abuse education using school-based curricula for all children within a school district, media and public awareness campaigns within inner city neighborhoods, and social policy changes. Selective programs target subgroups of the general population identified on the basis of the nature and number of risk factors for substance use to which they may have been exposed. Selective programs include prevention svcs for children of substance abusing parents, and mentoring programs aimed at children with school performance or behavioral problems. Indicated programs offer constructive methods designed to interrupt the onset or progression of substance abuse in the early stages and target individuals exhibiting problem behavior in school, failing grades and truancy but have not reached the point where a clinical diagnosis can be made. Youth are screened for participation and risk factors, and strategies prioritized for the youth and their families.

Intervention is defined as a process that utilizes multiple strategies to interrupt the use of alcohol, tobacco and other drugs by youths who are showing early warning signs of substance use or abuse and/or exhibiting other high-risk problem behaviors. Intervention also seeks to break the cycle of harmful use of legal substances and all use of illegal substances by adults in order to halt the progression and escalation of use, abuse, and related problems. Intervention programs include: HIV Outreach and Early Intervention programs that provide relevant information and education about the relationship between drug use, HIV and other communicable diseases; Pregnant -Postpartum svcs to identify, intervene with and coordinate treatment for substance use and/or abuse needs of pregnant and postpartum women; and Regional "Care Coordination" entities that provide referral, coordination of substance abuse svcs, and screening when appropriate.

Substance Abuse Treatment is defined as a planned, structured, and organized program designed to initiate, promote or maintain a person's drug-free status. The treatment svcs continuum includes a range of svcs to fit individual needs, including medically supervised and ambulatory detoxification programs, residential treatment, outpatient treatment, and maintenance programs. Priority populations include the following populations: identified substance abusers infected with HIV and persons at risk for HIV,; persons who use intravenous drugs, women with substance use disorders who are pregnant and/or parenting or have had their children removed from the home because of a substance use disorder; youth who are currently at risk of using or abusing, who currently abuse or have abused, substances including youth in or referred by the juvenile justice system; substance abusers who are at risk of institutionalization or who currently are served in mental health facilities; substance abusers who have had children placed under conservatorship of the Department of Family and Protective svcs; youth who are at risk of selling controlled substances; women with children or women of child-bearing years; and indigent veterans having received an honorable discharge. Recovery support svcs

Supports; Community Living Supports; Employment Services; Family Supports; Minor Home Modifications; Non-Medical Transportation; Paraprofessional Services; Respite; Specialized Therapies; Supportive Family-Based Alternatives; and Transitional Services.

Eligible individuals must be 3-18, have an SED (excluding a single diagnosis of substance abuse, mental retardation, autism or pervasive development disorder), and be enrolled in Medicaid. Individuals who otherwise meet eligibility may waive parental income for financial eligibility determination.

Medicaid services are fee-for-service (FFS). Participants have an Individual Plan of Care that does not exceed 200 percent of the reimbursement rate that would have been paid for that same person to receive services in an institutional setting.

The TANF Basic Assistance program provides financial assistance to needy families with children who are deprived of parental support because of unemployment, under-employment, absence, or disability of one or both parents. TANF is an employment focused, time limited assistance program that provides families with monthly cash assistance for ongoing needs such as food, shelter, and clothing. The 2018-19 General Appropriations Act (Article II, HHSC, Rider 126, H.B. 1, 85th Legislature, 2017) establishes the maximum monthly payment amount at 17% of the Federal Poverty Level. The purpose of the program is to provide temporary financial assistance to needy dependent children and the parents or relatives with whom they are living. The program meets TANF Purpose 1 by providing assistance to needy families so children may be cared for in their own homes or in the homes of relatives. TANF is a block grant program to help move recipients into work by providing temporary assistance.

The TANF State Program provides financial assistance to low-income families with children in which there are two work-eligible adults on the case. During the 80th Texas legislative session (2007), the two-parent separate state program was funded with state general revenue instead of TANF maintenance of effort (MOE) funds. The TANF two-parent population represents approximately 4 percent of the total TANF caseload.

The TANF one-time grant benefit payment provides assistance to families in certain crises who are eligible for TANF cash assistance benefits and choose to receive a one-time cash grant of \$1,000 in lieu of regular ongoing TANF cash assistance benefits. The family is eligible for a TANF one-time payment only once in a 12-month period. Once a family receives a TANF one-time payment they are ineligible to receive regular ongoing TANF cash assistance or another TANF one-time payment for 12 months. The supplemental payment is not to exceed \$1,000 and is to help solve a short-term crisis and divert households from receiving ongoing TANF benefits.

A qualifying grandparent who is the primary caretaker for one or more grandchildren may receive a one-time, lifetime grandparent supplement payment to help cover the cost of caring for a grandchild. Once a grandparent receives a one-time grandparent supplement payment, the grandparent is not eligible to receive the payment for other grandchildren who may move into the home at a later time. Additionally, another grandparent cannot receive the grandparent payment for a grandchild who has already received the payment. Grandparents may receive both the one-time grandparent payment and regular ongoing TANF cash assistance during the same month.

The supplemental payment is not to exceed \$1,000 and is intended to help the grandparents with initial costs.

Strategy Descriptions and Justification:

The Independent Living Services program (ILSP) helps individuals with disabilities achieve greater independence in their homes and communities. The program places special emphasis on helping consumers accomplish daily tasks more independently; participate in their favorite activities; improve communication and transportation access and mobility; gain a better understanding of their disability; and increase their self-confidence, access to the community and participation in society. Eligible consumers may receive the following core services from the CILs: information and referral, independent living skills training, counseling, advocacy and transition services. Independent Living Services for Older Individuals Who Are Blind (IL-OIB) supports individuals ages 55 and older with significant visual impairments in their efforts to live independently in the home and community. This program is administered collaboratively between HHSC and the Texas Workforce Commission.

Legal authority: Federal Workforce Investment Act, of 1998, Title IV Rehabilitation Act Amendments of 1998; Texas Human Resources Code, Chapter 117, Section 117.071.

Strategy Descriptions and Justification:

Centers for Independent Living (CILs) are private, community-based, cross-disability, nonresidential and nonprofit agencies that provide an array of independent living services. Services are designed to reduce the need for long-term care, are time-limited and are based on individual needs and goals. Funding is provided to 16 CILs that provide five core services: information and referral, independent living skills training, peer counseling, advocacy and transition. CILs are operated by staff, the majority of whom have disabilities and may have been former consumers. CILs help people with disabilities achieve and maintain their optimal level of self-reliance and independence. They further the mission of the independent living network to promote the leadership, empowerment, independence and productivity of persons with disabilities and their integration and full inclusion into the mainstream of community life.

Strategy Descriptions and Justification:

Programs and services in this strategy: The Board for Evaluation of Interpreters program is responsible for testing and certifying the skill level of individuals seeking to become sign language interpreters, both in-state and nationwide. The Consumer Education and Interpreter Training program provides opportunities for interpreters to enhance their skills and raises public awareness and sensitivity on deaf and hard of hearing communication needs through training and educational presentations. Camp Sign is a week-long summer youth enrichment program that provides a communication barrier-free environment for children between the ages

Strategy Descriptions and Justification:

The Specialized Telecommunications Assistance Program (STAP) is a voucher program that provides financial assistance for assistive technology to individuals who have a disability that interferes with access to the telephone. Equipment includes amplified telephones, two-way texting devices, big button telephones and voice dialers. This program is administered collaboratively between HHSC and the Public Utility Commission of Texas (PUC). Funding is provided through the Universal Service Fund, administered by PUC.

Strategy Descriptions and Justification:

Programs and services in this strategy: The Communication Services for State Agencies program provides ASL interpreter services to state agencies through a network of contracts with local interpreter referral agencies. The Resource Specialist program consists of contracted providers across the state who serve as resources for consumers who are deaf or hard of hearing. These specialists provide education and training to local governments, service providers and businesses on the specific needs of individuals who are deaf or hard of hearing. DHHS resource specialists played a pivotal role in Hurricane Harvey relief efforts in the Houston and Beaumont regions, bridging communication barriers for members of the Deaf community and serving as a lifeline to survivors of the storm who were forced to evacuate their homes. The Senior Citizens program assists persons ages 60 and older who are deaf or hard of hearing and life enrichment activities to help reduce their social isolation. The Last Resort Communication Services program provides sign language, oral interpreter and computer assisted real-time transcription (CART) services to individuals who are deaf or hard of hearing when there are no other resources available. The Special Needs Fund is designed to provide communication services such as American Sign Language (ASL) interpreting or CART for one-time events to persons who are deaf and hard of hearing.

Strategy Descriptions and Justification:

The CASA program provides support for the protection of abused and neglected children through court-appointed volunteer advocates. An individual does not enroll in or apply for the program. Instead, abused and neglected children who are in the care of the Department of Family and Protective Services (DFPS) Child Protective Services (CPS) or who have had a report of abuse or neglect submitted to law enforcement utilize the services provided by TXCASA.

Strategy Descriptions and Justification:

The Twogether in Texas Healthy Marriage Program provides a website that helps couples connect with training providers focused on courses related to pre-marital and marital relationship skills. Courses focus on communication and conflict resolution skills and other key elements to develop and maintain healthy relationships. Upon the completion of the premarital education class, the training provider will issue a Twogether in Texas completion certificate. The couple can present this certificate to a county clerk to receive a discount on the purchase of a marriage license and waive the three day waiting period.

Strategy Descriptions and Justification:

Community Resource Coordination Groups (CRCGs) are comprised of public and private agencies that develop comprehensive and coordinated multi-agency svcs responsive to children, youth, and families with complex needs. Local CRCGs serve individual or multi-county areas and work collaboratively to respond to the needs of the residents in their service areas. Currently, Texas has an estimated 176 local CRCGs for children, youth and adults. HHSC's Community Access and svcs provides training, technical assistance, and coordination for the state-wide network of local CRCGs. Additionally, HHSC convenes quarterly meetings of the state work group member agencies to provide guidance to the program.

Strategy Descriptions and Justification:

The Office of Acquired Brain Injury (OABI) was established to address the growing need for a resource on brain injury in Texas. The public health goal is to reduce the burden of brain injury at the population level by reducing risk factors, preventing injuries and assuring care and rehabilitation that maximizes the health and quality of life of brain injury survivors. The OABI addresses these through the implementation of education and awareness activities, and the encouragement of early identification and intervention strategies, as well as effective treatment and disease management protocols. Program staff also assist brain injury survivors and their families in identifying and accessing ongoing services that support healing and recovery.

Strategy Descriptions and Justification:

The Office of Disability Prevention for Children (ODPC) works to prevent developmental disabilities and seeks to minimize the losses that preventable disabilities cause, especially in infants and young children. With its partners, ODPC develops outreach campaigns focusing on awareness and education.

OPDC is governed by Texas Human Resource Code §112.041-112.051 and is the successor to the former Texas Office for the Prevention of Developmental Disabilities.

The stated vision of the SSLCs is that individuals will experience the highest quality of life, supported through a comprehensive array of services designed to maximize well-being, dignity and respect. The mission of the SSLCs is to lead the effective design and delivery of quality, outcome-based, person-centered services and supports appropriate to the talents, strengths and needs of individuals through an integrated team approach. To accomplish this, the SSLCs strive to empower and support residents in realizing personal goals and to offer them a variety of quality and cost-effective services, including a comprehensive review of the living options available to them. SSLCs provide campus-based, 24-hour residential services and comprehensive behavioral health and healthcare services, including medical, psychiatry, nursing, pharmacy, and dental services. Other services include occupational, physical, and speech therapies; nutritional management; and emergency services. Additional on-campus services include: 24/7 one-to-one supervision as needed; 24/7 video monitoring of living, dining and day program areas; vocational and employment services, skills training and habilitation services; customized adaptive aids, including seating and positioning devices; religious services for different faiths. SSLCs also provide services such as transportation and supports for residents to maintain connections with their families and natural support systems. Planned activities, such as shopping, dining out, going to movies and other leisure activities provide opportunities for residents to engage in their local communities.

Duplicated

While an individual resident receives services in an intermediate care facility, a component of their total service array is physical healthcare. This includes prescribing and dispensing pharmaceuticals for physical medical conditions and psychiatric disorders. These medications are prescribed under the supervision and care of a licensed physician. The cost of medications is reflected in this sub-strategy.

While substantial primary care, psychiatric and behavioral health services are available at SSLCs, residents may require specialty care that can only be fulfilled by a provider in the community. In those cases, SSLC staff arrange for off-campus medical care and treatment as necessary. If a resident needs a specific test, such as an MRI, or has a condition requiring specialized treatment, such as cancer, treatment will likely be arranged in an off-campus environment.

This sub-strategy funds the specialized psychiatric inpatient treatment services provided by state hospitals. These services focus on psychiatric care, recovery, competency restoration, and psychosocial rehabilitation. Individuals receive services based on their needs, including therapeutic programming and interpersonal skills training. Hospital-based programming for patients focuses on establishing a recovery and discharge plan that leverages community resources to ensure a successful transition back to the community. Additionally, programming for forensically committed patients includes developing the skills necessary to participate in forthcoming judicial proceedings.

State law requires the state hospitals to cover all medical needs of individuals who are in our care. In some cases, this requires seeking off-campus care by medical professionals. Because state hospitals cannot discharge individuals committed by a court without a judicial order, the cost of off-campus medical care can be substantial.

Strategy Descriptions and Justification:

This sub-strategy funds operations of the state mental health facilities, other than the direct costs of caring for persons receiving treatment. Leadership and support functions in this sub-strategy include general administration, reimbursement, accounting, contracting, human resources, quality management, risk management, physical plant maintenance, and motor pool

This strategy provides funding for inpatient psychiatric facilities (this includes both hospitals or Crisis Stabilization Units that are not operated by HHSC) in communities throughout the state. The svcs provided at these facilities vary from site to site in response to contract specifications and local needs. This strategy provides inpatient svcs such as assessment, crisis stabilization, skills training, and medication management. svcs may be provided to individuals who are on civil or forensic commitments. Some facilities provide inpatient competency restoration. Community hospitals are included in the Health and Safety Code, Chapter 532. Funding for these hospitals is allocated through contracts with local mental health authorities or through other state/local governmental or private entities.

| Code Description | EXP 2018 | EXP 2019 | BUD 2020 |

HHSC operates two small intermediate care facilities for individuals with an intellectual disability , under the auspices of the Corpus Christi State Supported Living Center. The homes promote normalization and age-appropriate activities in a least-restrictive environment. Community participation and integration are also highly encouraged. Each home houses individuals who have severe physical disabilities that require custom-made, over-sized wheelchairs for mobility. Given that a typical home restricts the movement for even a standard wheelchair, these large custom chairs would be unusable in other homes. These residents also have complex medical needs that require nursing 16 hours per day. Most of the individuals cannot communicate verbally, use alternative means of communication, and require speech therapy services.

Strategy Descriptions and Justification:

C. I. 500

The Rio Grande State Center outpatient clinic concentrates on outpatient care and serves primarily indigent patients in the state's largest metropolitan area without county and hospital-based healthcare services. The Clinic's scope of services includes: primary care, women's health, diabetes and endocrinology, diagnostic and social services. This is accomplished by direct care, coordination, cooperation and collaboration with other state and regional healthcare facilities that are accredited by The Joint Commission, Medicare, the Mammography Quality Standards Act (MQSA), American College of Radiology (ACR), and Clinical Laboratory Improvement Amendments (CLIA) - Certificate of provider-performed microscopy procedures. The outpatient clinic services are provided to four counties: Cameron, Hidalgo, Willacy, and Starr

Strategy Descriptions and Justification:

This sub-strategy provides oversight and coordinated services for state supported living centers including program leadership and oversight, quality management, and DOJ settlement agreement monitoring. FPS also coordinates referrals for transfer of individuals in state supported living centers between Texas and other states in accordance with the Interstate Compact on Mental Health. FPS also coordinates community relations functions related to facilities' volunteer programs, which includes fundraising and coordination of special events and also supports employee relations.

Strategy Descriptions and Justification:

This sub-strategy provides oversight and coordinated services for state hospitals including program leadership and oversight. State hospital administration coordinates referrals for transfer of individuals in state hospital between Texas and other states in accordance with the Interstate Compact on Mental Health. FPS also coordinates community relations functions related to facilities' volunteer programs, which includes fundraising and coordination of special events and also supports employee relations.

Strategy Descriptions and Justification:

This sub-strategy funds the necessary repair, renovation and construction projects required to maintain the state's supported living centers at required and acceptable levels of effectiveness and safety. The 13 facilities contain 800(+) buildings and a significant number of associated structures in campus-style settings. The buildings are old, with the oldest in excess of 118 years, and have suffered deterioration due to continuous use and exposure to the harsh climate.. Historically limited capital funding means many campuses need costly repairs and significant maintenance. The state supported living centers must maintain CMS certification in order to receive federal reimbursement. To maintain this certification, they must comply with various requirements related to the residents housing, training, daily living and environment of care, including a safe and home-like environment. Additionally, state supported living centers must comply with the minimum requirements of NFPA 101 Life Safety Code and associated codes and standards, which include fire sprinkler systems, fire alarm systems, firewalls, smoke barriers, emergency power and lighting, and other such requirements. Repair and renovation projects fall into the following categories: Health, Safety, Welfare and Daily Life needs

Strategy Descriptions and Justification:

This sub-strategy funds the necessary repair, renovation and construction projects required to maintain the state hospitals at required and acceptable levels of effectiveness and safety. The ten facilities contain 500(+) buildings and a significant number of associated structures. The buildings are old, with the oldest in excess of 161 years, and have suffered deterioration due to continuous use and climate. The State's psychiatric facilities must maintain accreditation by the Joint Commission in order to receive federal reimbursement. To maintain Joint Commission accreditation, the hospitals must comply with the environment of care standards in the Accreditation Manual, which requires that buildings be maintained in a safe and therapeutic environment conducive to the clients' recovery. Additionally, they must comply with the minimum requirements of NFPA 101 Life Safety Code and associated codes and standards, which include fire sprinkler systems, fire alarm systems, firewalls, smoke barriers, emergency power and lighting, and other requirements such as ligature remediation, which has become an increasing concern and requirement of Joint Commission and CMS. Repair and renovation projects fall into the following categories: health, safety, welfare and daily life needs (includes Life Safety Code); roofing; air conditioning and heating (HVAC); electrical; plumbing; general renovation including structural, foundations,

Strategy Descriptions and Justification:

The Nursing Facilities Sub-strategy covers the licensing and regulation of all long-term care facilities that meet the definition of nursing homes. Licensed facilities/agencies wishing to participate in Medicare and/or Medicaid programs must be certified and maintain compliance with certification regulations according to Titles XVIII and/or XIX of the Social Security Act.

In addition to licensing these long-term facilities, HHSC is responsible for investigating complaints and self-reported incidents, monitoring facilities for compliance with state and/or federal regulations and taking appropriate state enforcement action and recommending federal sanctions to the Centers for Medicare and Medicaid Services (CMS).

Strategy Descriptions and Justification:

The ICF-IID Facilities Sub-strategy covers the licensing and regulation of long-term care facilities that meet the definition of an ICF-IID facility. Licensed facilities wishing to participate in the Medicaid program must be certified and maintain compliance with certification regulations according to Title XIX of the Social Security Act. In addition to licensing these facilities, HHSC is responsible for investigating complaints and self-reported incidents, monitoring facilities for compliance with state and/or federal regulations including follow-up on HHSC Provider Investigations findings related to abuse, neglect or exploitation investigations, and taking appropriate state and federal enforcement actions.

Strategy Descriptions and Justification:

HHSC licenses, certifies and surveys home and community support services agencies (HCSSAs) for compliance with state and federal laws and regulations. Through these regulatory activities, HHSC protects Texas citizens receiving home health, hospice and personal assistance services. In addition to licensing these entities, HHSC is responsible for including investigating complaints and self-reported incidents, monitoring entities for compliance with state and/or federal regulations including follow-up on HHSC Provider Investigations findings related to abuse, neglect or exploitation investigations, and taking appropriate state enforcement actions, and recommending federal sanctions to the Centers for Medicare and Medicaid Services (CMS).

| Code Description | EXP 2018 | EXP 2019 | BUD 2020 |

Strategy Descriptions and Justification:

The primary function of this area is to assure quality health care delivery by regulating health facilities/entities and organizations that provide care and services to the Texas consumers including hospitals, substance abuse treatment facilities, ambulatory surgical centers, renal dialysis facilities, private psych hospitals, birthing centers, crisis stabilization units, special care facilities, abortion clinics, narcotic treatment facilities, neonatal and maternal care, and the Medical Advisory Board. HHSC processes license applications and fees; issues initial, renewal and change of ownership licenses; develops licensing rules; provides training, education and consultative services; conducts inspections and investigations; conducts plan reviews; and coordinates enforcement actions against non-compliant health care facilities. The compliance area also completes survey and investigation activities to determine compliance with federal regulations and makes recommendations for federal adverse action to the Centers for Medicare and Medicaid Services. In addition, the Health Care Quality department houses the CLIA (Certified Laboratory Improvement Amendment) program, which ensures that medical laboratories provide competent qualitative and quantitative analysis of human lab specimens to assist physicians in making clinical and treatment decisions for their patients.

Strategy Descriptions and Justification:

This sub-strategy includes the licensing, registration, and listing of operations that care for children ages birth through 13 years for a portion of the day. Licensed and registered operations are required to meet minimum standards that are enforced by the day care licensing staff. Operations are inspected prior to the issuance of a license or registration and monitored periodically thereafter. Complaints and reports of substandard care are investigated, and appropriate action is taken as a result of fact-finding by agency staff. Licensing staff provide training and technical assistance to licensees and registrants on meeting minimum standards. Licensing staff provide educational materials to assist parents in choosing safe and healthy care. Quality assurance activities promote consistency in the interpretation and

Strategy Descriptions and Justification:

This sub-strategy includes the licensing of operations that serve as 24-hour residences for children. Staff in this sub-strategy license and monitor operations and investigate complaints involving substandard care. The various categories of care include foster family homes, foster group homes, general residential childcare operations (including residential treatment centers), and child-placing agencies. Minimum standards for care have been developed for each type of operation. In addition, this sub-strategy includes the licensing of administrators of 24-hour childcare operations. This sub-strategy provides protection for some of Texas' most

Strategy Descriptions and Justification:

This sub-strategy provides essential functions to support and direct field staff, ensuring a system for the protection of children at risk of abuse/neglect or serious injuries. These functions include developing policy direction and operating procedures, rule development and review, minimum standards development, administrative monitoring and oversight, legal, budget analysis, program regional administration, and training. This sub-strategy does not contain the allocated costs for staff who are charged to agency staff cost pools.

Statutory provisions are found in the Human Resources Code, Chapters 40, 42, and 43, the Texas Family Code Title 5, Chapter 261; and the Texas Health and Safety Code, Chapter 249. Federal statutory provisions are found in the Social Security Act, Section 471; and the Child Care and Development Block Grant Act of 1990, as amended, 42 U.S.C 9858.

| Code Desc | rip | tion | | EXP 2018 | EXP 2019 | BUD 2020 |

Strategy Descriptions and Justification:

The 2-1-1 sub-strategy consists of the Texas Information and Referral Network (TIRN). TIRN is a collaboration effort in which HHSC contracts with Area Information Centers (AIC) to provide professional human svcs information and referral with calls answered by certified call specialists and the development and sharing of statewide resource databases. The statewide database is utilized as a resource by state and community planners in identifying trends and unmet needs across the state. The local AICs augment state contracted funding with local resources.

The 2-1-1 TIRN also serves as the primary communication channel for people affected by disasters who are seeking information about available svcs. The 2-1-1TIRN receives funding from the Texas Department of Emergency Management to support callers seeking information about available resources prior, during and after a disaster and for the ongoing State of Texas Emergency Assistance Registration for people requesting assistance with evacuation a disaster. The 2-1-1TIRN also receives funding from the Texas Workforce Commission to provide child care information and referral.

Strategy Descriptions and Justification:

Eligibility Determination takes applications, processes renewals, and determines eligibility and benefits for Temporary Assistance for Needy Families (TANF) cash assistance, Supplemental Nutrition Assistance Program (SNAP), Medicaid, and Children's Health Insurance Program (CHIP). Eligibility Determination is comprised of HHSC local benefit office staff, HHSC and contractor call center operations, document processing svcs, HHSC centralized eligibility and benefit staff, and vendor and state operations management.

Eligibility determination svcs continue to be modernized to maximize the use of self-service options for clients, web and mobile-based automation, document imaging and electronic case files, shared work flow between local benefit offices and eligibility units, and contracted support of eligibility and enrollment functions.

Strategy Descriptions and Justification:

The Policy, Training, and State Support sub-strategy consists of staff who develop, implement and support policy for Temporary Assistance for Needy Families (TANF) cash assistance, Supplemental Nutrition Assistance Program (SNAP), Medicaid and Children's Health Insurance Program (CHIP) eligibility; training staff who develop and deliver curriculum for state eligibility determination staff and community partners; state support staff who provide quality control and quality assurance activities related to eligibility determination and benefit issuance accuracy; HHSC's contribution to the Texas Workforce Investment Council; special initiatives including nutrition education, application assistance and education and informing for HHSC benefit programs by community-based organizations; and the state level oversight of these functions.

Strategy Descriptions and Justification:

The EBT sub-strategy includes state oversight staff and the contracts for the operation of the Lone Star card system (EBT). The EBT system issues Temporary Assistance for Needy Families (TANF) cash assistance, and Supplemental Nutrition Assistance Program (SNAP) benefits to eligible recipients. The current EBT contract includes variable costs. Costs are largely driven by the TANF and SNAP caseloads. Contract costs for the EBT system are based upon a cost per case month (CPCM) variable cost model.

Strategy Descriptions and Justification:

The Other strategy consists of the IEE strategy's share of the costs in the centralized agency cost pool, the regional space cost pool, and capital (seat and telecom management svcs). The centralized cost pool includes such costs as central office space, supplies, utilities, building security, janitorial svcs and SORM. The regional cost pool includes supplies, utilities, building security, janitorial svcs and leases for HHS local offices. Cost pools are allocated across strategies based on an FTE allocation.

Strategy Descriptions and Justification:

This sub-strategy includes access and assistance svcs through local intellectual with developmental and disability authorities (LIDDAs). LIDDAs determine eligibility and assist consumers in accessing appropriate svcs and supports. svcs included are eligibility determination, which is an assessment to determine if an individual has mental retardation or is a member of the priority population; and service coordination, which is assistance in accessing medical, social, educational, and other appropriate svcs and supports to help an individual achieve quality of life and community participation. Statutory Authority: Health & Safety Code, §§533.035(a) and 534.054

Strategy Descriptions and Justification:

This sub-strategy includes access and assistance svcs through Area Agencies on aging (AAAs). AAAs assist older persons, their family members or other caregivers by helping them access community supports; providing information, Referral and Assistance, Benefits Counseling/Legal assistance, Legal Awareness, Care Coordination, Caregiver Supports and Ombudsman svcs. Individual must be 60 or over for area agency on aging services, a Medicare beneficiary of any age for benefits counseling, certain caregivers under age 60 as described in the National Family Caregiver Support Program of the Older Americans Act. There is no age limitation for Ombudsman svcs.

Statutory Authority: Human Resource Code, Chapters 101A and 161 and Title 42 U.S.C. Chapter 35, Older Americans Act of 1965, as amended.

| Code Desci | iption | EXP 2018 | EXP 2019 | BUD 2020 |

Strategy Descriptions and Justification:

Community Care for the Aged and Disabled (CCAD) programs determine functional eligibility for certain people living in the community who would be eligible for Medicaid-funded (Title XIX) nursing facility care, but who wish to remain in the community. CCAD programs are funded via Title XIX Medicaid, State GR, and or Title XX Special svcs Block Grant. CCAD programs covered under this strategy include Residential Care, Respite care (unfunded with no clients), Home Delivered Meals, Emergency Response, Adult Foster Care, Family Care, Day Activity and Health Svcs Title XX, Title XIX Primary Home Care, Special svcs, Consumer Managed Personal Assistance svcs, Day Activity and Health svcs Title XIX.

Some CCAD programs require a functional eligibility score determined via assessment by regional staff.

Other CCAD programs determine functional eligibility via assessment of non-financial criteria.

Statutory Authority: Social Security Act, §1915(c); 42 USC §1396n(c); Human Resources Code, Chapters 32 and 161; Government Code, Chapter 531.

Strategy Descriptions and Justification:

Full Time Equivalent Positions:

The Investigations Division provides for and protects the integrity of the Texas Medicaid and other health and human svcs or assistance programs (SNAP, TANF, WIC, etc.) through investigation of allegations of provider and recipient fraud, waste, and abuse; and referral for sanctions, prosecution, or appropriate state and local regulatory and law enforcement authorities. Additionally, the Investigations Division conducts personnel type investigations at the State Supported Living Centers and State Hospitals as well as at HHSC system. Within the Investigations Division there are four separate directorates, as follows: 1); General Investigations Directorate; (2) Medicaid Provider Integrity Directorate (3) Law Enforcement Directorate; and (4) Internal Affairs Directorate.

Strategy Descriptions and Justification:

Full Time Equivalent Positions:

The Audit Division conducts risk-based performance, compliance, and financial audits of contractors, providers, and HHS system administrative svcs and programs to reduce fraud, waste, abuse, and mismanagement throughout the HHS system. Audits are conducted to (a) assess the efficiency and effectiveness of programs and operations,(b) evaluate whether federal and state funds were used as intended, (c) identify overpayments and disallowed costs, and (d) identify and make recommendations to mitigate performance gaps and risks that could prevent HHS agency programs from achieving their goals and objectives. The Audit Division also serves as the Texas point of contact with the Centers for Medicare & Medicaid svcs (CMS) for the Payment Error Rate Measurement (PERM) program and the CMS-contracted Medicaid Integrity Program audits, and manages the Recovery Audit Contractor program.

Strategy Descriptions and Justification:

The Inspections Division performs inspections and reviews of Health and Human svcs (HHS) programs, systems, and functions to focus on detecting systemic issues that may allow or cause fraud, waste, and abuse to occur. Through inspections, the division also provides practical recommendations to improve the effectiveness and efficiency of HHS System programs. In addition, the division oversees the Women, Infant, and Children (WIC) Vendor Monitoring Unit, which focuses on identifying fraud, waste, and abuse by WIC vendors. The WIC Vendor Monitoring Unit conducts three types of oversight: compliance buys, on-site evaluations, and invoice audits. These compliance activities are conducted at vendor locations to determine whether vendors are properly accepting WIC benefits, following WIC vendor procedures, and have controls in place to prevent the unauthorized purchase of prohibited items.

Strategy Descriptions and Justification:

IG Operations is responsible for coordinating, implementing, and maintaining the internal infrastructure that allows the Investigations, Inspections, and Audit divisions to function effectively and efficiently in the identification and elimination of fraud, waste, and abuse throughout the state.

The Operations sub-strategy within the IG's office includes: legal svcs; strategic planning; policy development and coordination with the federal Centers for Medicare and Medicaid svcs (CMS), HHSC Medicaid/CHIP and other HHS programs; and all other federal and state stakeholders; government relations, public affairs, and communications; professional development and training; data analytics and technology; development and maintenance of the IG budget, Legislative Appropriations Requests, and Agency Cost Estimates to promote fiscal responsibility; management of business operations functions, including the implementation of process improvements, facilities coordination, disaster response and business continuity, contract management, HR support, leadership development, and morale and retention; establishment and reporting of LBB performance measures; coordination and execution of integrity checks for providers enrolling in HHS programs; and responding to reports of fraud, waste, and abuse.

The Chief Counsel Division within Operations provides the following legal svcs: (1) general legal advice and guidance to the Inspector General, render advice and opinions on health and human svcs programs and operations, and provide legal support for all IG internal operations; and (2) impose administrative sanctions and penalties against Medicaid providers and litigate those actions in contested case hearings.

The Medical svcs Division within the Operations Sub-Strategy includes: coordinating and implementing surveillance utilization review of hospitals, nursing facilities and acute care svcs to effectively and efficiently identify and eliminate fraud, waste, and abuse throughout the state. Medical and dental record reviews are performed for support and coordination of cases in Investigations, Inspections, and Audit divisions. The division is responsible for surveillance utilization review as required by the federal Centers for Medicare and Medicaid svcs (CMS); coordination with other entities such as the OAG, MCO's, DMO's; other HHS programs; and all other federal and state stakeholders. Medicaid providers education; trend analysis, data mining, developing and implementing process improvements, oversight of SUR contract, ongoing staff training and leadership development, establishment and reporting of LBB performance measures and responding to legislative inquiries .

IG Medical svcs establishes medical and dental support, continuous collaboration, and through the use of medical and dental staff expertise and in coordination with HHSC, enable the IG to meet its mission.

Strategy Descriptions and Justification:

In 2003, HHSC consolidated human resources svcs and staff of the twelve HHS legacy enterprise agencies and in October 2004 outsourced many transactional human resources functions to an HR contractor. The vendor contract facilitated a web-based employee/manager self-service human resources and payroll system. Employees and managers use this system to manage employee leave, personal data, pay, performance management, job postings, application screening, interviewing and administrative training. Many routine transactions which previously required the use of paper forms and the involvement of state human resources staff are now completed through the Centralized Accounting and Payroll and Personnel System (CAPPS). This shared svcs human resources and payroll model has facilitated efficiencies at many administrative levels and enabled the HHS Enterprise to respond effectively to program and svcs changes and staffing adjustments. HHS Human Resources and Training, is now operated by a staff of approximately 75 state employees providing employee relations, training, records management, reporting, contract management, workforce planning, policy and payroll oversight.

Strategy Descriptions and Justification:

L-1-1-1 Human Resources: In 2003, HHSC consolidated human resources services and staff of the twelve HHS legacy agencies and in October 2004 outsourced many transactional human resources functions to an HR contractor. The vendor contract facilitated a web-based employee/manager self-service human resources and payroll system. Employees and managers use this system to manage employee leave, personal data, pay, performance management, job postings, application screening, interviewing and administrative training. Many routine transactions which previously required the use of paper forms and the involvement of state human resources staff are now completed through the Centralized Accounting and Payroll and Personnel System (CAPPS). This shared services human resources and payroll model has facilitated efficiencies at many administrative levels and enabled the HHS System to respond effectively to program and services changes and staffing adjustments.

The HHS System was further consolidated in FY 2016 and FY 2017 and now consists of HHSC and DSHS. DARS and DADS were abolished by SB 200, 84th Legislature, and DFPS was removed from the HHS System umbrella and now exists as a stand-alone agency as a result of HB 5, 85th Legislature. HHS Human Resources is now operated by a staff of approximately 132 state employees providing employee relations, training, compliance and records management, employee programs, Veteran advocacy, reporting, , workforce planning, random drug testing administration, human resources policy, workforce operations, job requisition coordination and hiring support for Regulatory Services, Access and Eligibility Services, state supported living centers, and state hospitals.

| Full Time Equivalent Positions: | 42.1 | 42.1 | 42.1 |

Strategy Descriptions and Justification:

L-1-1-4 Ombudsman: Originally established by House Bill 2292 in 2003, authority for the HHS Office of the Ombudsman was clarified by Senate Bill 200, 84th Legislature, Regular Session, 2015, to include providing dispute resolution services for the Texas HHS system, performing consumer protection and advocacy functions, and collecting inquiry and complaint data from across the system.

Ombudsman staff assist consumers when an HHS program's complaint resolution process has not resolved concerns. Ombudsman staff work with inquiries and complaints from all programs, including eligibility for programs such as Medicaid and SNAP food benefits. Through agreement with HHS Government Relations staff, Ombudsman staff also work cases referred from legislative offices.

EXTERNAL/INTERNAL FACTORS IMPACTING SUB-STRATEGY:

External and Internal factors affecting the Ombudsman sub-strategy include: 1) changes and implementation of state and federal policies, rules, and regulations impacting client eligibility 2) potential for increased eligibility depending upon economic stability in Texas; 3) staffing levels and staff turnover rate; 5) implementation of program and policy changes from state legislation; 6) disasters; and 7) state and federal external oversight and review.

Strategy Descriptions and Justification:

Centralized Financial Policy provides executive management, oversight, coordination, and leadership to and across all five HHS agencies in financial matters to maximize efficiencies and assure all five agencies prepare financial communications and reports consistently.

Staff provides enterprise-wide budget and fiscal policy direction and develops cross-functional models for identifying potential efficiencies; and analyzing financial, cost and utilization to identify underlying efficiencies. Oversight functions include planning and development of enterprise financial and statistical reports, development of the HHS consolidated budget and appropriation request for the enterprise and monitoring and issue resolution in financial and performance areas. Other items include cost allocation oversight and management and revenue research and maximization.

| Code Description | | EXP | 2018 | EXP 2019 | BUD 2020 |

Strategy Descriptions and Justification:

Staff also produces caseload and cost forecasts monthly for the HHS System (Medicaid [Acute Care, FFS, Managed Care, Cost-Reimbursed, Texas Health Steps, Medical Transportation, Long-term Care, Vendor Drug, STAR+PLUS and STAR Health], Children's Health Insurance Program (CHIP), CHIP Perinatal, CHIP Dental, Protective svcs [Foster Care, Adoption Subsidy, and Adult], Healthy Texas Women, TANF, Food Stamps, ECI, and Kidney Health); develops actuarial methodology and forecasting models; and reviews design and changes in the claims data file (STAT file) maintained by the claims administrator contractor. Staff also performs actuarial analysis for the rate setting process.

Strategy Descriptions and Justification:

This sub-strategy provides a central location for IT related capital projects. Demands on information resources are numerous and varied; internal and external entities desired enhanced information systems to provide actionable information about effective client care programs, workforce data, finances, and physical facilities. Rapid pace technology changes are a challenge requiring resources to ensure information technology system remain viable.

Strategy Descriptions and Justification:

The IT Program Support sub-strategy provides information resource management services to support the agency and HHS enterprise. Demands on information resources are numerous and varied; internal and external entities desired enhanced information systems to provide actionable information about effective client care programs, workforce data, finances, and physical facilities. Rapid pace technology changes are a challenge requiring resources to ensure information technology system remain viable. Information Technology is responsible for enhancing and managing the technology infrastructure, developing and supporting applications systems, and establishing architecture standards. Information Technology provides many services including project management, application development and support, network management and operation support, help desk services, internet security, quality assurances, and information resource procurement review.

TRACKING NOTES

Federal TANF funds are appropriated to several state agencies. Only HHSC information is provided. This schedule reflects the combination of TANF (93.558.000) and TANF to Title XX (93.558.667).

The expended levels only include HHSC.

TRACKING NOTES

The Children's Health Insurance Program (CHIP) expenditures include the basic CHIP program, Perinatal, Dental and administrative costs. On January 22, 2018, CHIP funding was reauthorized until 2023. On February 8, 2018, Congress approved an additional four years of funding through FFY 2027. The reauthorization legislation modified the Affordable Care Act Maintenance of Effort (MOE) requirement, as well as the match rate for federal CHIP funds. The super-enhanced "23 percent bump" will decrease to 11.5 percent in FFY 2020. In FFYs 2021 through 2027, CHIP will receive the regular enhanced Title XXI matching rate, which is approximately equal to the Medicaid match plus 15 percentage points.

Award and expended amounts exclude CFDA 93.767.778 CHIP for Medicaid (eligibility for children under the State Medicaid program).

REVENUE ASSUMPTIONS:

Estimated Revenue for fund 0543 is based on existing contracts for gas royalties, rental of lands, building rental and land easements. Types of revenue varies each year due to market fluctuations in the petroleum industry. The beginning balance for 2018 is \$0. The Comptroller's Office periodically transfers unencumbered fund balances to Fund 0001, and the unencumbered 0543 balance was transferred to Fund 0001 at the close of 2017.

REVENUE ASSUMPTIONS:

Collections for Medicaid Program Income do not necessarily relate to the total expenditures or caseload projections as the majority of this revenue source is experience rebates from Medicaid managed care organizations (MCOs).

Experienced rebates are received when the negotiated managed care premium rates exceed the actual incurred cost. MCOs return a portion of those dollars as experience rebates. The state retains the state share and the federal share is returned to the federal government.

REVENUE ASSUMPTIONS:

Vendor Drug Rebate revenue represents the state share of rebates provided by drug manufacturers to the State as part of the federal Medicaid Drug Rebate Program (OBRA 90). The revenue is calculated using Medicaid projected caseload and cost information. The FMAP also dictates the amount of state share retained and the amount returned to the federal government.

As the majority of Medicaid prescription drugs are provided through managed care, it is assumed that the share of generic drugs will be increasing. Since generic drugs are cheaper, there should eventually be a decline in drug rebate revenue.

| Interest Swept by Comptroller | (22,535) | (30,079) | (30,079) |

REVENUE ASSUMPTIONS:

Article IX Section 13.11(b) sets a minimum required collection of Earned Federal Funds for which GR is appropriated to HHSC in the GAA. If HHSC collects less than that minimum, Appropriated GR must be removed by the comptroller in the amount of the shortfall. If more than the minimums collected in AY2018, it can be carried forward into AY2019: is appropriated to the agency contingent upon prior notification requirements in Article IX Section 13.11(c)(1). Remaining balances of EFF above the AY2018 minimum may be carried forward

into AY2019; but balances remaining at the end of AY2019 will be lapsed.

GR appropriated contingent upon EFF collections for HHSC is \$16.007,017 per year in AY2018-2019 and \$14,189,780 per year in AY2020-2021.

REVENUE ASSUMPTIONS:

CHIP enrollment fees are \$50 or less per family for each 12-month term of eligibility and vary based on the family's income. The state retains the state share and the federal share is returned to the federal government. The FMAP also dictates the amount of state share retained and the amount returned to the federal government.

In response to Hurricane Harvey, HHSC with the approval of CMS waived co-payments and enrollment fees from August 25 through November 30, 2017 for CHIP clients who lived in a county declared a disaster area by the federal government.

REVENUE ASSUMPTIONS:

Experience Rebates are received when the negotiated managed care premium rates exceed the actual incurred cost. Managed care organizations (MCOs) return a portion of those dollars as experience rebates. The state retains the state share and the federal share is returned to the federal government. The FMAP dictates the amount of state share retained and the amount returned to the federal government.

USE OF HOMELAND SECURITY FUNDS

HHSC utilizes Homeland Security FEMA funds to assist people located in areas that are declared a disaster by the Governor and President. Programs in this strategy include: Public Assistance (PA), Other Needs Assistance (ONA), and Disaster Case Management (DCM).

The HHSC Emergency Services Program (ESP) provides water and ice to people affected by state and federal disasters through the PA program. In addition, FEMA provides PA funds to HHSC for damages and unusual expenses incurred by HHSC to its facilities and programs.

The ONA Program, administered jointly by ESP and FEMA, provides housing assistance and grants to meet the other needs of people who live in a Presidentially Declared Disaster Area. Eligible people must be underinsured, not qualify for loan assistance from the Small Business Administration, and have significant demonstrated financial need and expense directly resulting from the disaster.

The DCM Program, also administered jointly by ESP and FEMA, helps victims of major disasters by assessing needs based on the verified disaster-related causes, developing a goal-oriented plan that outlines all of the steps necessary to achieve recovery, organizing and coordinating the information on available resources that match the disaster-caused needs, monitoring progress towards reaching the stated goals and, when necessary, providing advocacy for the client.

The Federal share of assistance is not less than 75 percent of the eligible cost for emergency measures and permanent restoration. However, in the absence of a federal declaration, the State fully funds the services provided.
