NOTES:

The below is a definition for each column

Actual Sept 1, 2015 Client Count - The figure is the projected waiting list total at the beginning of the biennium - September 1, 2015.

Total Number of Slots at the end of the FY - This figure is the number of projected waiting list clients at the end of August 2018.

Current Month Count - This figure is the number of unique clients served this month, who were removed from the waiting list and eligible to receive program services during the biennium.

Difference - This figure is the difference between the Total number of slots at the end of the FY and the Current Month Count. If the number is negative, more clients were removed from the waiting list during the biennium and received a service than slots appropriated.

FY 2018 Budgeted (average for the Fiscal Year) - This figure is consistent with the *FY18-19 Slots Appropriated* column.

Projected FY 2018 Average - Average of clients per each program for September 2017 through August of 2018 based on HHSC Forecasts.

• Note: Due to grace periods in the submission of encounter data the values listed in this report should not be expected to finalize until thirty-seven (37) days after the last day of each month for Mental Health, and one hundred twenty (120) days for CSHCN due to a ninety-five (95) day allowable billing delay.

Behavioral Health Services (BHS):

1. The Interest/Waiting List for BHS-funded community mental health services is not cumulative; it is a "point in time" measure taken on either the last day of the month, or the last day of the month in a state fiscal quarter. The number of persons waiting on the last day of one month cannot be added to the number waiting on the last day of the following months in a state fiscal year, as these may be the same persons, and in which case, duplicative. The numbers provided are clients waiting for all services.

2. Total number of slots at end of FY 2018 and FY 2018 Budgeted (average for the Fiscal Year) were projected based on additional clients that could be served with additional annual MH funding for waiting list and capacity expansion based on projected average annual cost per client, with adjustments made to ensure a minimum level of funding per service target.

3. Current Month Count is the year-to-date additional average monthly number served.

4. Projected FY 2018 Average for adults is estimated using the number waiting at the end of FY 2017 plus the SPMI <200% poverty projections for FY 2018. Linear projections based on actual numbers will be made in future quarters as data become available.

5. Due to grace periods in the submission of encounter data by funded community mental health centers to BHS, the data for the current month do not freeze until 37 days following the end of the month. Data extracted prior to the 37 day cutoff are subject to change until the freeze date.
