BUDGET VARIANCES

Schedules 1, 3 and 5 of this report reflect the trends for caseloads and costs and assumptions regarding collected revenues and federal funds included in HHSC's Legislative Appropriations Request (LAR) submitted September 12, 2016.

We have not included in this report a number of appropriation adjustments impacting budget variances in Schedules 1, 3 and 5 that were included in the agency's LAR. These adjustments

Mr. Drew DeBerry, Policy Director
Mr. Mr. Albright, Budget Director
Ms. Ursula Parks, Director

Page 4

will be included in future reports only as required notifications are submitted, approvals received, and/or revenues collected.

Note also that Schedule 3 indicates balances in the variance column for certain estimated appropriations that HHSC projects will not be fully realized and for others that HHSC anticipates will exceed the initial H.B.1 appropriation.

- Appropriations that are anticipated to result in lapsed budget authority because revenues will not be collected are expressed as a positive variance (705 Medicaid Program Income, 3643 Premium Co-payments, Low Income Children, 8054 CHIP Experience Rebates, 8070 Vendor Drug Rebates – CHIP, 666 Appropriated Receipts, and 777 Interagency Contracts).
- Appropriations for which revenues are projected to exceed the SB 1 estimate are reflected as a negative variance (706 Vendor Drug Rebates - Medicaid, 8081 Vendor Drug Rebates – Supplemental, and 8062 Appropriated Receipts - Match for Medicaid).

In an effort to focus on anticipated general revenue shortfalls and/or surpluses, HHSC has increased the Operating Budget column prior to actual revenue collection for those federal funds that it projects will exceed the H.B.1 estimate and has decreased the Operating Budget for those for which federal revenues are anticipated to be less than the H.B.1 estimate.

SIGNIFICANT CHANGES FROM PREVIOUS REPORT

This is the second report for appropriation year 2017. It is cumulative through November 30, 2016. The adjustments include the unexpended balance of appropriated receipts for TOPDD from AY2016 to AY2017 (P), the carry forward of unexpended capital budget balances from fiscal year 2016 (I1), and estimated federal funds (L,M). HHSC has included adjustments that have either occurred or have received approval through November 30, 2016.

OTHER KEY BUDGET ISSUES

The Method of Finance used throughout the report is based upon currently known federal cost allocation factors and methodologies and will be updated as required by the federal government, which could result in future Method of Finance adjustments.

¹ Perinatal caseload is included in the CHIP average recipient month count.

² This cost per is estimated since the contracts won't be settled up until mid-November.

³ The data report in "FY 2017 YTD Actual" is not final until the end of each quarter.

⁴ The data reported in "FY 2017 YTD Actual" is not due to MHSA until the 20th of each month, therefore the monthly data reported in this report may change.

⁵ Due to the seasonality of Substance Abuse Prevention Programs in schools, more youths are served in the months of Quarters 1 and 3 than in the months of Quarters 2 and 4. This seasonality will ultimately help to bring the average monthly number served closer to the target.
