About this report

To further assist with quality improvement efforts, Texas Health and Human Services (HHS) is providing a mid-state fiscal year report on potentially preventable readmissions (PPRs) and potentially preventable complications (PPCs). This mid-state fiscal year hospital-level report is for INFORMATIONAL PURPOSES only. No reimbursement adjustments are associated with this report. The annual hospital-level report associated with reimbursement adjustments will be available in summer 2018. Important note: the actual-to-expected ratio is rounded to two decimal places.

HHS can provide underlying detailed data for this report to each hospital, following their request (please include full name, email, phone number, NPI, TPI, and hospital name) emailed to
