    Texas Disability Services Survey 2019

The Texas Health and Human Services Commission (HHSC) wants to learn what people think about the way services and supports are provided to people with disabilities in Texas. HHSC is seeking input from people with disabilities, their families/caregivers, providers, and service agencies and organizations. For the purpose of this survey, disabilities include those defined as physical, medical, intellectual, and developmental. You can take the survey online and encourage other people to participate from September 3 to September 30. Your answers will be anonymous and will help HHSC plan for the future and improve services.

Instructions:
• Tell other people about the survey in the following ways:
  o Share this message with providers and staff.
  o Discuss the survey with clients and their families or caregivers.
  o Post the attached flyers in your facilities to promote the survey. Flyers are available for provider/staff and client/family audiences.
