Introduction

Minimum Standards

These minimum standards tell you (the child care operation permit holder) what requirements you, your employees, and your caregivers must follow.

These minimum standards:

- were developed by the Texas Health and Human Services Commission (HHSC) with the assistance of child-care operations, parents, stakeholders, and other experts in a variety of fields;
- reflect what the citizens of Texas consider to be reasonable and minimum; and
- meet the guidelines set forth in Chapter 42 of the Texas Human Resources Code (law) for what must be included in the minimum standards.

The Administrative Procedure and Texas Register Act requires that proposed standards be published for public comment before they are adopted as rules. All members of the public, including providers, are encouraged to provide input when proposed minimum standards are published for comment. The commission considers recommendations from interested persons or groups in formulating the final draft, which is filed as rules with the Secretary of State.

Deficiencies

A deficiency is any failure to comply with a minimum standard, rule in Texas Administrative Code Chapter 745, law, specific term of the permit, or specific condition of probation or suspension.

Weights

The minimum standards are weighted based on a common understanding of the risk to children presented if the standard or rule is violated. The weights are: high, medium-high, medium, medium-low, and low. The assigned weights do not change based on the scope or severity of an actual deficiency. Scope and severity are assessed by Child Care Regulation (CCR) staff, documented, and considered in conjunction with the weight when making CCR decisions. You will see the *weight is noted at the end of each standard or subsection in green. Only those minimum standards which can be cited as a deficiency are weighted. For example, the minimum standard prohibiting physical discipline is weighted but minimum standards that are definitions are not weighted.*

Maintaining Compliance

It is essential that you, your employees, and your caregivers recognize four critical aspects of CCR's efforts to protect the children in care and to help operation employees and caregivers comply with the law, rules, and standards. The four aspects are:

- Inspection
- Technical assistance
- Investigations
- Caregiver's rights and entitlements

The Inspection

Various aspects of regulated operations are evaluated for compliance with the minimum standards, rules, and laws during regular inspections. The emphasis on these inspections is to prevent risk to children in care. The frequency of inspections will fluctuate depending on the type of permit and **the operation's history of compliance with the minimum standards, rules, and law.**

During any inspection, if we find that your operation does not meet minimum standard, rule, or law, the deficiencies are discussed with the person in charge at the time of the inspection. You will be given the opportunity to correct deficiencies within a specified period of time. If you have questions, concerns, or disagree with the citation, we encourage you to talk with us before we leave your operation. If your concerns are not resolved, you may request an administrative review.

Technical Assistance

We are available to offer consultation to potential applicants, applicants, and permit holders regarding how to comply with minimum standards, rules, and laws. While we most often provide technical assistance during inspections and investigations, technical assistance can be requested at any time.

The Child Care Regulation section of the HHSC web site has a Technical Assistance Library that allows you to view or download information about a variety of topics related to child care. You can view it by going to <https://hhs.texas.gov/doing-business-hhs/provider-portals/protective-services-providers/child-care-licensing> and selecting *Technical Assistance Library* from the Resources section.

A feature of the minimum standards publication are the Technical Assistance boxes that follow certain minimum standards to provide additional guidance, clarification, resources, and/or best practices related to the applicable rule.

Investigations

When a report alleges a violation of minimum standards, rule, or law, CCR staff must investigate the report, notify you of the investigation, and provide a written report to you of the investigation results within prescribed time frames.

Your Rights and Entitlements

Waivers and Variances

You may request a waiver if your operation is unable to comply with a standard for economic reasons. You may request a variance if your operation wishes to meet the intent of a standard in a way that is different from what the standard specifies. Waiver and variance requests are submitted through your online provider account or made in writing to your assigned CCR inspector.

Administrative Review

If you disagree with a CCR decision or action, you may request an administrative review, during which you are given an opportunity to show compliance with applicable minimum standard, rule, law, action, permit restriction(s) and/or permit conditions.

Appeal Hearing

You may request an appeal hearing on a CCR decision to deny an application, revoke, suspend, or refuse to renew a permit or a condition placed on the permit after initial issuance.

Appeal hearings are conducted by the State Office of Administrative Hearings (SOAH).

For Further Information

It is important that you, your employees, and your caregivers clearly understand the purpose of **minimum standards and the reasons for CCR's inspections and investigations**. Do not hesitate to ask us questions that will help you understand any aspect of our regulation. You may obtain information about minimum standards or procedures by calling your local CCR office or by visiting the HHSC web site at <https://hhs.texas.gov/doing-business-hhs/provider-portals/protective-services-providers/child-care-licensing>.

Subchapter A, Purpose and Scope

§749.1. What is the purpose of this chapter?

Subchapter A, Purpose and Scope

January 2007

The purpose of this chapter is to set forth the rules that apply to child-placing agencies.

§749.3. Who is responsible for complying with the rules of this chapter?

Subchapter A, Purpose and Scope

January 2007

The permit holder must ensure compliance with all rules of this chapter at all times, with the exception of those rules identified for specific types of services that your agency does not offer. For example, if we grant you a permit to offer adoption services only, you do not have to comply with rules that apply to foster care services; however, you must comply with all other rules of this chapter [High].

Technical Assistance

The distinguishing variable between a PRN (as needed) psychotropic medication and an emergency medication is the circumstances under which the medication is given. A medication given to help a child manage his/her behavior or to de-escalate a child who is having trouble managing his/her behavior is regulated only as a PRN psychotropic medication. However, if the medication is given in response to an emergency situation, it is an emergency medication.

- (25) Emergency situation – A situation in which attempted preventative de-escalatory or redirection techniques have not effectively reduced the potential for injury, so that intervention is immediately necessary to prevent:
- (D) Imminent probable death or substantial physical injury to the child because the child attempts or continually threatens to commit suicide or substantial physical injury; or
 - (E) **Imminent physical harm to another because of the child’s overt acts, including** attempting to harm others. These situations do not include verbal threats or verbal attacks.

For an EPA-registered sanitizing product or disinfecting solution that does not include labelling instructions for sanitizing (a bleach product, for example), you must conduct these steps in the following order:

(A) Washing with water and soap;

- (70) Service plan – **A plan that identifies a child’s basic and specific needs and how those needs will be met.**

Evidence that physical injury is serious may include the location or severity of the bodily harm or the age of the child. Substantial physical injury does not include minor bruising, the risk of minor bruising, or similar forms of minor bodily harm that will resolve healthily without professional medical attention.

(82) Unsupervised childhood activities – Childhood activities that a child in care participates in away from the foster home and the foster parents. Childhood activities that the foster parents conduct or supervise or the child-placing agency sponsors are not unsupervised childhood activities. Unsupervised childhood activities may include playing sports, going on field trips, spending the night with a friend, going to the mall, or dating. Unsupervised childhood activities may last one or more days.

Division 2, Services

§749.61. What types of services does Licensing regulate?

Subchapter B, Definitions and Services

Division 2, Services

January 2017

We regulate the following types of services:

- (1) Child-Care Services – **Services that meet a child’s basic need for shelter, nutrition, clothing, nurture, socialization and interpersonal skills, care for personal health and hygiene, supervision, education, and service planning;**
- (2) Treatment Services – In addition to child-care services, a specialized type of child-care services designed to treat and/or support children:
 - (A) With Emotional Disorders who have a current DSM-5 diagnosis, such as mood disorders, psychotic disorders, or dissociative disorders, and demonstrate two or more of the following:
 - (i) Major self-injurious actions, including a suicide attempt within the last 12 months;
 - (ii) Difficulties that present a significant risk of harm to others, including frequent or unpredictable physical aggression; or
 - (iii) An additional DSM-5 diagnosis of substance-related and/or addictive disorder with severe impairment;

Technical Assistance
Regarding subsection (2)(A), neither attending counseling nor taking a psychotropic medication factors into a child being eligible for treatment services for an emotional disorder. Only the indicators noted above are considered when determining eligibility for treatment services. However, you may offer treatment services to a child you assess as needing those services, regardless of the indicators above.

- (B) With a DSM-5 diagnosis of Intellectual Disability that is characterized by prominent, severe deficits and pervasive impairment in one or more of the following areas:
 - (i) Conceptual, social, and practical adaptive skills to include daily living and self care;
 - (ii) Communication, cognition, or expressions of affect;

- (iii) Self-care activities or participation in social activities;
- (iv) Responding appropriately to an emergency; or
- (v) Multiple physical disabilities, including sensory impairments;

Technical Assistance
Regarding subsection (2)(B), a DSM-5 diagnoses of Intellectual Disability also requires a severity level (mild, moderate, severe, or profound). If a severity level is provided, the severity information may be helpful in determining whether the child is characterized by prominent, severe deficits and pervasive impairment.

(C) With a DSM-5 diagnosis of Autism Spectrum Disorder that is characterized by prominent, severe deficits and pervasive impairment in one or more of the following areas of development:

- (i) Conceptual, social, and practical adaptive skills to include daily living and self care;
- (ii) Communication, cognition, or expressions of affect;
- (iii) Self-care activities or participation in social activities;
- (iv) Responding appropriately to an emergency; or
- (v) Multiple physical disabilities including sensory impairments;

Technical Assistance
Regarding subsection (2)(C), the Autism Spectrum Disorder includes previous DSM-IV diagnoses of autistic disorder, Asperger’s disorder, pervasive development disorder -not otherwise specified, and similar disorders associated with a known medical or genetic disorder (e.g. Rett’s Disorder) . This newly titled disorder is a single continuum of mild to severe (Levels 1 - 3) impairments in the two domains of social communication and restrictive repetitive behaviors/interests. A DSM-5 diagnosis does not mandate a severity level; however, if a severity level is provided, then the severity information may be helpful in determining whether the child is characterized by prominent, severe deficits and pervasive impairment.

(D) With Primary Medical Needs, who cannot live without mechanical supports or the services of others because of life-threatening conditions, including:

- (i) The inability to maintain an open airway without assistance. This does not include the use of inhalers for asthma;

- (ii) The inability to be fed except through a feeding tube, gastric tube, or a parenteral route;
 - (iii) The use of sterile techniques or specialized procedures to promote healing, prevent infection, prevent cross-infection or contamination, or prevent tissue breakdown; or
 - (iv) Multiple physical disabilities including sensory impairments; and
- (E) Determined to be a trafficking victim, including a child:
- (i) Determined to be a trafficking victim as the result of a criminal prosecution or who is currently alleged to be a trafficking victim in a pending criminal investigation or prosecution;
 - (ii) Identified by the parent or agency that placed the child with the child-placing agency as a trafficking victim; or
 - (iii) Determined by the child-placing agency to be a trafficking victim based on reasonably reliable criteria, including one or more of the following:
 - (I) The child's own disclosure as a trafficking victim;**
 - (II) The assessment of a counselor or other professional; or**
 - (III) Evidence that the child was recruited, harbored, transported, provided to another person, or obtained for the purpose of forced labor or commercial sexual activity; and**

(3) Additional Programmatic Services, which include:

- (A) Transitional Living Program – A residential services program designed to serve children 14 years old or older for whom the service or treatment goal is basic life skills development toward independent living. A transitional living program includes basic life skills training and the opportunity for children to practice those skills. A transitional living program is not an independent living program;
- (B) Assessment Services Program – Services to provide an initial evaluation of the appropriate placement for a child to ensure that appropriate information is obtained in order to facilitate service planning; and
- (C) Respite Child-Care Services – See §749.2621 of this title (relating to What are respite child-care services?).

(g) Postvention.

(1) Addressing Suicide Deaths.

(A) Create a Postvention Team and Written Action Plan and Protocols. To prevent suicide contagion and support employees, children, caregivers, and adoptive parents, you must create a postvention team. This team is responsible for developing a written action plan with protocols in the event of a death by suicide. The postvention team should consider [Medium]:

- (i) How a death would affect employees, caregivers, adoptive parents, and other children receiving services in the home where the death occurred; and
- (ii) How to provide psychological first-aid, crisis intervention, and other support to the employees, caregivers, adoptive parents, and other children receiving services in the home where the death occurred.

(B) While the action plan needs to be flexible for varying situations, the written action plan must include:

(i) A communication strategy that [Medium]:

- (I) Does not inadvertently glamorize or romanticize the child or the death;
- (II) Occurs in settings that allow the postvention team to monitor responses of individuals in the home;
- (III) Strives to treat all deaths in the same way (for example, having one approach for honoring a child who dies from cancer, a car accident, or suicide);
- (IV) Emphasizes the importance of seeking help for anyone with an underlying mental health diagnosis, such as a mood disorder;
- (V) Emphasizes the importance of employees, caregivers, adoptive parents, and children recognizing the signs of suicide; and

- (VI) Decreases the stigma associated with seeking help for mental health concerns;
 - (ii) Mental health resources for employees, caregivers, adoptive parents, and children who have a difficult time coping, including [Medium]:
 - (I) Opportunities to debrief to process thoughts and feelings related to the suicide death; and
 - (II) Referrals to grief counseling and suicide survivor support groups to the extent possible; and
 - (iii) A **review of lessons learned from the child's death by suicide**. All communications regarding lessons learned should be approached in a way that ensures a blame-free environment. [Medium-High]
- (2) Addressing Suicide Attempts. In the event of a suicide attempt according to §749.505 of this chapter (relating to What constitutes a suicide attempt by a child?):
- (A) The caregiver must, as needed, immediately call emergency services and render first aid until professional medical treatment can be provided [High];
 - (B) The caregiver must not leave the child alone until a mental health professional assesses the child [High];
 - (C) The caregiver must move all other children out of the immediate area as soon as possible [Medium];
 - (D) The agency must report and document the suicide attempt as a serious incident as required by:
 - (i) §749.503(a)(12) of this chapter (relating to When must I report and document a serious incident?);
 - (ii) §749.511 of this chapter (relating to How must I document a serious incident?); and
 - (iii) §749.513(1) of this chapter (relating to What additional documentation must I include with a written serious incident report?);
 - (E) The agency must offer mental health resources for employees, caregivers, and children who have a difficult time coping, including [Medium]:
 - (i) Opportunities to debrief to process thoughts and feelings related to the suicide attempt; and
 - (ii) Referrals to community services and other resources when a child has attempted suicide; and

(F) The agency must conduct a review of lessons learned from the child's suicide attempt. All communications regarding lessons learned should be approached in a way that ensures a blame-free environment. [Medium-High]

Technical Assistance

- Regarding subsection (c)(1)(C) for annual suicide prevention training:
 - More than likely training on suicide prevention will have to be tailored for each **operation because some of the training is based on an operation's own safety** planning and the specific screening tool an operation uses to screen for risk. However, related to training on risk factors, protective factors, and warning signs of suicide, one resource that might be helpful is the AS+K? Basic Gatekeeper Training.
 - An inspector should cite:
 - §749.939(a)(1) – **(4) if the training doesn't meet the instructor-led** requirements; and
 - §749.949 if the training documentation requirements are not met.
- Regarding subsection (c)(1) suicide prevention training for employees and foster parents and subsection (d)(3) training on the suicide risk screening tool, both types of training may be used to complete the annual training requirements at §749.930 and §749.931.
- Regarding subsection (c)(3):
 - Examples of non-employees that may be appropriate for suicide prevention training are non-employees that have routine contact with a child or perform a supervisory role for the child.
 - You do not have to promote suicide prevention training for foster parents verified to care for children five years of age or older because those foster parents are already required to receive routine suicide prevention training.
 - Examples of promoting suicide prevention training include sharing your suicide prevention policies and other relevant resources with the appropriate non-employees or encouraging appropriate non-employees to participate in other specific suicide prevention training.
- Regarding subsection (d)(2), you may use any evidenced-based screening tool that is appropriate for your program. Two screening tools that are free, evidence-based, and have ample research supporting their validity and reliability, are the:
 - Columbia-Suicide Severity Rating Scale (CSSRS); and
 - Ask Suicide Screening Questions (ASQ).

§749.138. What are the general requirements for an **agency's policies and procedures**?

Subchapter C, Organization and Administration

Division 1, Required Plans and Policies, Including During the Application Process

September 2022

- (a) The requirements for policies only apply to your policies that are required or governed by this chapter.
- (b) All employees and caregivers must be aware of and follow your policies and procedures [Medium].

§749.139. What requirements must I follow when adopting my child-**placing agency's plans, policies, and procedures**?

Subchapter C, Organization and Administration

Division 1, Required Plans and Policies, Including During the Application Process

January 2017

- (a) **Your agency's plans, policies, and procedures must indicate** the date on which you adopted them and their effective date [Medium-Low].
- (b) **You must formalize the adoption of your agency's plans, policies, and procedures as** appropriate for your type of ownership:
 - (1) If you are a sole proprietor, you must sign them date [Medium-Low];
 - (2) If you are a partnership, each partner must sign them date [Medium-Low]; or
 - (3) If you are a corporation or other type of business entity, the governing body must take a written action to adopt (sometimes this may be an order or the adoption may be included in the minutes of the governing body) date [Medium-Low].

§749.141. Can Licensing cite my agency for a deficiency if I fail to operate according to my approved plans, policies, and procedures?

Subchapter C, Organization and Administration

Division 1, Required Plans and Policies, Including During the Application Process

January 2017

Yes, if you violate plans, policies, or procedures, then we may cite the relevant standard in Division 1 of this Subchapter (relating to Plans and Policies Required During the Application Process) as a deficiency;

Technical Assistance
<ul style="list-style-type: none">• Licensing only enforces plans, policies, and procedures required by the minimum standards. For example, Licensing does not enforce your policies on purchase approvals. In addition, Licensing will not cite this standard if you meet a specific minimum standard but do not meet your policy that requires more than the minimum standard. For example, if your policy requires caregivers to complete 12 hours of general pre-service training and inspection results indicate an employee only completed ten hours of training, we will not cite you for failing to meet your policy.• If this Chapter contains another relevant minimum standard, then that standard would be cited for failure to comply with a policy. For example and using the same example as above, if an employee only completed six hours of general pre-service training, we will cite §749.863(a)(1) because the minimum standards require eight hours of general pre-service training. However, if there isn't another relevant minimum standard, then we would cite the relevant standard in Division 1. For example, if your professional staffing plan became outdated, then we would cite §749.105(3).

Division 2, Operational Responsibilities and Notifications

§749.151. What are my operational responsibilities?

Subchapter C, Organization and Administration

Division 2, Operational Responsibilities and Notifications

April 2021

While you are operating, you must:

- (1) Have a designated full-time child-placing agency administrator who meets the minimum qualifications of §749.631 of this title (relating to What qualifications must a child-placing agency administrator meet?) [High];
- (2) Operate according to your approved plans, policies, and procedures [Medium];
- (3) Maintain current, true, accurate, and complete records [Medium];
- (4) Allow us to inspect your child-placing agency during its hours of operation [Medium-High];
- (5) Allow us to inspect or monitor any of your foster homes at any time [Medium-High];
- (6) Not offer unrelated types of services that conflict or interfere with the best interests of a **child in care, a caregiver's responsibilities, or space in the homes. If you offer more than one type of service, you must determine and document that no conflict exists** [Medium-High];
- (7) Comply with the liability insurance requirements in this division [Medium]; and
- (8) Prepare the annual budget and control expenditures and ensure compliance with Division 3 of this Subchapter (relating to General Fiscal Requirements) [Medium].

Technical Assistance

Regarding subsection (2), Licensing only enforces this requirement for plans, policies, and procedures required by the minimum standards. For example, Licensing does not enforce your policies on purchase approvals. In addition, Licensing will not cite this standard if you meet a specific minimum standard but do not meet your policy that requires more than the minimum standard. For example, if your policy requires caregivers to complete 12 hours of general pre-service training and inspection results indicate an employee only completed ten hours of training, we will not cite you for failing to meet your policy. But if an employee only completed six hours of training, we will cite you for a deficiency because the minimum standards require eight hours of general pre-service training.

- (C) Open a branch office [Medium]; or
- (D) **Change your agency's or a branch office's hour of operation** [Medium-Low];

(2) As soon as possible, but at least 15 days before you:

- (A) Make changes to the plans required in §749.101(3) and (4) of this subchapter **(relating to What plans must I submit for Licensing's approval as part of the application process?)** [Medium-Low]; or

(b) You must report to the Texas Abuse and Neglect Hotline as soon as you become aware of any foster or adoptive placements that appear to have been made by someone other than **the child’s parents or a child-placing agency** [Medium-Low].

Technical Assistance

Licensing does not automatically approve an action when you provide the required notice to your Licensing Representative. Additional action may need to be taken by you or Licensing. For example, changing the legal structure of your agency may require a new license; and opening a new branch office requires you to also comply with §749.303 of this title (relating to What must I do before opening a branch office).

If you do not have a back-up child-placing agency administrator when your administrator position becomes vacant, to carry out the duties in §749.635 of this chapter (relating to What responsibilities must the child-placing agency administrator have?), you have 60 days from the date the position becomes vacant to obtain a licensed child-care administrator before we can cite you for not having an administrator.

§749.155. What are the liability insurance requirements?

- Using a form specific to liability insurance that requires a parent signature that you **maintain in the child's file;**
- Including a statement or addendum about liability insurance in your operational policies or parent handbook, and **maintain in the child's file a document with a parent signature or initials** specifically acknowledging the liability insurance information; or

Subchapter D, Reports and Record Keeping

Division 1, Reporting Serious Incidents and Other Occurrences

§749.501. What do certain terms mean in this subchapter?

Subchapter D, Reports and Record Keeping

Division 1, Reporting Serious Incidents and Other Occurrences

June 2020

These terms have the following meanings in this subchapter:

- (1) **Serious incident**--A non-routine occurrence that has or may have dangerous or significant consequences for the care, supervision, or treatment of a child. The different types of serious incidents are noted in §749.503 of this division (relating to When must I report and document a serious incident?).
- (2) **Triggered review of a child's unauthorized absences**--A review of a specific child's pattern of unauthorized absences when the child has had three unauthorized absences within a 60-day timeframe.
- (3) **Unauthorized absence**--A child is absent from a foster home without permission from the foster parent, or other temporary caregiver, and cannot be located. This includes when an unauthorized person has removed the child from the foster home.

Technical Assistance

Regarding paragraph (3): Child-placing agencies (CPA) should use their best judgment based on the totality of the circumstances on a case by case basis to determine if there is an unauthorized absence. Example 1: if a teenager is routinely late in returning to a foster home from an extracurricular activity, **the CPA would likely take the child's routine into account when assessing** the possibility of an unauthorized absence. Example 2: If a teenager is on an unsupervised activity and calls and informs the foster parent that he/she will be late in returning to the home, this situation is not likely to be an unauthorized absence.

Technical Assistance

Regarding subsection (a)(2), not every trip to a hospital or emergency clinic must be reported as a **serious incident**. Only those incidents involving a “substantial physical injury or critical illness” must be reported and documented as a serious incident. The definition of “substantial physical injury” contains some examples of reportable serious incidents. Visits to the emergency room or emergency clinic (that did not result in hospitalization) for a common illness such as the flu, for a chronic illness such as an asthma attack, or for a routine medical exam would not warrant reporting as a serious incident.

Also, it is the nature of the injury or illness that determines whether it is reportable as a serious incident, not the venue in which it is treated. Taking a child to the emergency clinic or doctor’s office for stitches is still reportable as a serious incident, even though the treatment did not occur at an emergency room or hospital.

Regarding children receiving treatment services for primary medical needs, planned admissions to the hospital are not reportable as serious incidents. If the child sustains a substantial physical injury or contracts a critical illness, a serious incident report is required. However, ongoing **treatment for the child’s chronic illnesses or conditions is not reportable as a serious incident**.

In addition, admission to a psychiatric hospital only warrants a serious incident report if the admission is precipitated by a reportable incident, such as a suicide attempt. The admission itself is not reportable as a serious incident.

Regarding paragraph (e)(3), a disaster may be declared by the governor or the presiding officer of the governing body of a political subdivision. The operation or foster home must be located in the area impacted by the declared disaster before paragraph (e)(3) applies.

Regarding subsection (e)(7), see the [Citizen’s Guide for the Texas Criminal Justice Process](#) for more information on criminal matters.

§749.505. What constitutes a suicide attempt by a child?

Subchapter D, Reports and Record Keeping

A suicide attempt is a child’s attempt to take his own life using means or methods for causing his death, including any act a child commits intending to cause his death, but excluding suicidal gestures where it is clear that the act was unlikely to cause death. Suicidal thoughts are not reportable as a suicide attempt.

Technical Assistance
<p>Regarding subsection (3), this requirement is not intended to conflict with confidentiality laws or rights. Identifying information for one child should not be placed in the record of another child. You may choose to 1) write one incident report that is filed centrally (not in each child's record) and de-identified when released as part of a child's record, 2) write one incident report that is filed in each child's record, with each copy de-identified to not show the full name of other children involved in the incident, or 3) write a separate incident report for each child, with only the first name or initials of each other child involved.</p> <p>Regarding subsection (5), witnesses to the incident are persons who were present when the incident occurred and can give a first-hand account of what they experienced during the incident. A person is not automatically a witness because he lives in the same unit or cottage as the child involved in the incident. Witnesses may also be persons unaffiliated with the operation, such as a visitor to the operation who was present at the time of the incident.</p>

§749.1137. What if I cannot obtain the required information for an admission assessment?

Subchapter H, Foster Care Services: Admission and Placement

Division 2, Admission Assessment

January 2007

- (a) You must make reasonable efforts to obtain all required information. [Medium]
- (b) **If you and the child's parent determine that attempting to get information at the time of placement would not be in the child's best interests, you may postpone attempting to acquire the information.** [Medium]
- (c) **In the child's admission** assessment, you must document why a:

- (1) Particular piece of information is unavailable [Medium]; or
- (2) Delay obtaining a piece of information is necessary, including efforts made to obtain the information. [Medium]

Technical Assistance

Regarding subsection (a), Licensing expects documentation of at least three attempts to **comply with a minimum standard requiring “reasonable effort” to obtain information.** Efforts should be reasonably spaced, allowing enough time for a person to respond yet not unreasonably delaying the acquisition of the requested information.

Example: Calling a CPS caseworker or parent three times in one day would not be considered **three separate “reasonable efforts” to obtain needed information, as this does not allow the person reasonable time to respond to each of the requests.**

Example: Calling a CPS caseworker or parent once every three months to obtain information needed for an admission assessment would not be considered reasonable effort to obtain the information, as the third attempt would be made at least six months after the child was placed.

Example: Calling a CPS caseworker or parent once a week for three weeks to obtain information needed for an admission assessment would be considered reasonable effort to obtain the information, as this gives ample time for the person to respond to each call, and also seeks to obtain the information within one month of admission. No further attempts would be expected if the information was not obtained after these three attempts.

Technical Assistance

You may combine admission and service plan documentation, as long as the documentation meets the content requirements and time frames required by the applicable minimum standards. For example, you may combine an admission assessment and initial service plan for a child admitted as an emergency admission, as long as the content of the document complies with both §749.1133 and §749.1309 and the document is complete within 40 days of admission. Documenting the time a medication is given:

For medications with regularly scheduled doses, you may use the regularly scheduled time to document giving the medication as long as it is given within thirty minutes of the scheduled time. Otherwise, you must document the actual time the medication is given.

Example: For a regularly scheduled 9:00 a.m. medication given at 9:20, you may document 9:00 a.m.; if the medication is given at 9:45, then you must document: 9:45 a.m.

If you document the time by initialing the regularly scheduled time (pre-printed on the form), there must be space on the form to document the time given when it is outside the 30-minute window.

For medications that are PRN or one-time only, you must document the exact time the medication is given.

Documenting the name and signature of the person who administered a medication:

The purpose of the signature is to be able to identify the person who administered a specific medication to a child, if a concern arises later about that medication. Licensing requires one full signature for each person who administers medication, but there is no need for the person to record a full signature for each dose of medication that he/she administers. Most medication records provide space for a signature and matching initials (usually at the bottom of the page or on the back), then only require a person to use his/her initials to record each time he/she actually gives a dose of medication. Using this system, the initials can be matched to the signature as needed. This complies with minimum standards.

Division 1, Additional Requirements for Infant Care

January 2007

- (a) A high chair, swing, stroller, infant carrier, rocker, bouncer seat, or a similar type of equipment that a foster home uses for an infant must be equipped with safety straps [Medium-High]; and
- (b) The safety straps must be fastened whenever the infant is using the equipment. [Medium-High]

§749.1813. What types of equipment may a foster home not use with infants?

Subchapter K, Foster Care Services: Daily Care, Problem Management

Division 1, Additional Requirements for Infant Care

January 2017

(a) A foster home may not use any of the following types of equipment with infants:

- (1) Baby walkers [Medium-High];
- (2) Baby bungee jumpers [Medium-High];
- (3) Accordion safety gates [Medium-High]; and
- (4) Toys that are not large enough to prevent swallowing or choking [High];
- (5) Bean bags, waterbeds, and foam pads for use as sleeping equipment. [High]

(b) Except for a tight fitting sheet and as provided in subsection (c), the crib must be bare for an infant younger than twelve months of age. [High]

(c) A crib mattress cover may also be used to protect against wetness, but the cover must:

- (1) Be designed specifically for the size and type of crib and crib mattress that it is being used with [Medium-High];
- (2) Be tight fitting and thin [Medium-High]; and
- (3) Not be designed to make the sleep surface softer. [Medium-High]

(d) An infant receiving treatment services for primary medical needs may have special items that assist with safe sleep at the written recommendation of a health-care professional. **You must keep the recommendation in the child's** record. [Medium-High]

Technical Assistance

- **The prohibited equipment is not safe or beneficial to an infant's development and is not recommended by either the American Academy of Pediatrics or the Consumer Product Safety Commission**
- Regarding paragraph (a)(1) baby walkers present a hazard due to risk of falling down stairs or steps, and tipping over thresholds or carpet edges. They provide infants accessibility to potentially hot surfaces, containers of hot liquids such as coffee, dangling appliance cords, poisonous plants or hazardous substances and buckets, toilets or other containers of water.

Technical Assistance

- Regarding paragraph (a)(2), baby bungee jumpers present a hazard due to increased risk of injury to the infant as a result of spinning, swinging, or bumping into walls while placed in the jumper.
- Regarding paragraph (a)(3), accordion gates with large V-shaped openings along the top edge and diamond shaped openings between the slats present entrapment and entanglement hazards resulting in strangulation, choking or pinching to infants who try to crawl through or over the gate.
- Regarding paragraph (a)(4), examples of items that present a choking hazard for infants and toddlers include coins, balloons, safety pins, marbles, Styrofoam © and similar products, and sponge, rubber or soft plastic toys.
- Regarding subsection (b), examples of items that can be used as alternatives to blankets and sheets are a one-piece footed sleeper, a body shirt or undershirt underneath a sleeper, sleep sack or wearable blanket that zips up the front and can be worn over a sleeper. Wearable blankets are sleeveless, so a baby can still move his arms around while the rest of his body stays covered.

§749.1815. What are the specific sleeping requirements for infants?

Subchapter K, Foster Care Services: Daily Care, Problem Management

Division 1, Additional Requirements for Infant Care

January 2017

- (a) Caregivers must place an infant not yet able to turn over on his own in a face-up sleeping position unless a health-care professional orders otherwise. You must keep any orders from a health-care professional in the child's record. [High]
- (b) **An infant's head, face, or crib must not be covered at any time by an item such as a blanket, linen, or clothing.** [High]
- (c) An infant may not sleep in a prone position with a sleeping adult at any time, **including in the adult's bed, on a couch,** etc. [High]

§749.1817. May I allow an infant to sleep in a restrictive device?

Subchapter K, Foster Care Services: Daily Care, Problem Management

Division 1, Additional Requirements for Infant Care

April 2021

You may not allow an infant to sleep in a restrictive device. If an infant falls asleep in a restrictive device, you must remove the infant from the device and place the infant in a crib as soon as possible. [High]

Technical Assistance
<ul style="list-style-type: none"> • A restrictive device is equipment that places the body of an infant in a position that may restrict air flow or cause strangulation; usually, the infant is placed in a semi-seated position. Examples include car seats, swings, bouncy seats, and high chairs. • Infants sleeping in restrictive devices are at risk for injury and positional asphyxiation. • Placing a car seat containing a sleeping infant in a crib is one example of prohibited use of a restrictive device. • Allowing a sleeping infant to remain in a car seat during transportation is not an example of prohibited use of a restrictive device.

§749.1819. What are the specific requirements for feeding an infant?

Subchapter K, Foster Care Services: Daily Care, Problem Management

Division 1, Additional Requirements for Infant Care

January 2017

- (a) **Caregivers must feed an infant based on the recommendations of the infant's** licensed health-care professional. [Medium]
- (b) Unless recommendations from the service team are contrary, caregivers must hold the infant while feeding an infant that is [Medium]:
 - (1) Birth through six months old [Medium-High]; or
 - (2) Unable to sit unassisted in a high chair or other seating equipment during feeding. [Medium]
- (c) Caregivers must never prop a bottle by supporting it with anything other than the **infant's or adult's** hand. [Medium]
- (d) A caregiver who cares for more than one infant must:
 - (1) Sterilize shared bottles or training cups between uses by different infants [Medium]; and
 - (2) Clean high chair trays before each use. [Medium]

Technical Assistance
<p>Best practice suggests:</p> <ul style="list-style-type: none"> • Feeding infants while infants are awake; • Providing regular snack and meal times for infants who eat table food; and • Ensuring infants no longer being held for feeding are fed in a safe manner.

§749.1821. May I swaddle an infant to help the infant sleep?

Subchapter K, Foster Care Services: Daily Care, Problem Management

Division 1, Additional Requirements for Infant Care

April 2021

You may not lay a swaddled infant down to sleep or to rest on any surface at any time, unless you have an order signed by a health-care professional. You must keep the order in the child's record.

[High]

Technical Assistance
<p>There is evidence that swaddling can increase the risk of serious health outcomes, including SIDS and hip disease, and research does not provide definitive data to support the use of swaddling. Even with newborns, research does not provide conclusive data about whether swaddling should be used. Swaddling blankets that become loose during sleep pose an additional risk for infants. For concerns with maintaining an infant's temperature, appropriate clothing and/or a sleeveless infant sleep sack that does not restrict the infant's movement can be utilized. For more information on safe sleep, see the American Academy of Pediatrics Health Initiatives for Safe Sleep and the National Institutes of Health Safe to Sleep Campaign.</p>

Division 2, Additional Requirements for Toddler Care

§749.1841. What are the basic care requirements for a toddler?

Subchapter K, Foster Care Services: Daily Care, Problem Management

Division 2, Additional Requirements for Toddler Care

September 2010

- (a) Each toddler must receive individual attention, including playing, talking, and cuddling. [Medium-High]
- (b) **A toddler's caregiver must ensure that the environment is safe.** For example, free the area of objects that may choke or harm the toddler, take measures to prevent electric shock, free the area of furniture that is in disrepair or unstable, and allow no unsupervised access to water to prevent the risk of drowning. [High]
- (c) **A toddler's caregiver must never leave the toddler unsupervised. A toddler is considered supervised if the caregiver is within eyesight or hearing range of the child and can intervene as needed, or if the caregiver uses a video camera or an audio monitoring device to monitor the child and is close enough to the child to intervene as needed.** [High]

Technical Assistance

Best practice for toddler care suggests:

- Care given by the same caregiver on a regular basis, when possible;
- Individual attention given to each toddler including playing, talking, and cuddling; and
- Holding and comforting a toddler who is upset.

Best practice suggests that furnishings and equipment for toddlers include the following:

- Age-appropriate seating, tables, and nap or sleep equipment;
- Enough popular items available so that toddlers are not forced to compete for them; and
- Make items accessible to toddlers by using containers or low shelving, so the items may be used safely and without direct supervision.

Best practices for nap or rest time include the following:

- Schedule a supervised sleep or rest period after the noon meal for toddlers according to **the child's individual physical** needs;
- Lighting should allow for visual supervision of the toddlers;
- Limit the sleep or rest period to no more than three hours;
- **Do not force toddlers to sleep and do not put anything in or on a toddler's head or body** to force the toddler to rest or sleep;
- Allow each toddler who is awake after resting or sleeping for one hour to participate in an alternative, quiet activity until the nap/rest time is over for other children who may be resting; and
- Take a toddler who sleeps or rests in a crib out of the crib for other activities when the toddler awakens.

Division 3, Additional Requirements for Pregnant Children

- (1) Ensure information, training, and counseling is available regarding health aspects of pregnancy, preparation for child birth, and recovery from child birth [Medium];

- (2) Ensure the pregnant child receives nutritional counseling and guidance that meets generally accepted standards, including nutrition during pregnancy, lactation, and foods to avoid [Medium]; and
- (3) Inform the child, within seven days of admission or upon learning of the pregnancy, of her right to be free from pressure to get an abortion, relinquish her child for adoption, or to parent her child. [Medium]

§749.1863. Is the use of emergency behavior intervention of a pregnant child permitted in a foster home?

Subchapter K, Foster Care Services: Daily Care, Problem Management

Division 3, Additional Requirements for Pregnant Children

January 2017

If your policies allow for the use of personal restraints and you have a pregnant child in care:

- (1) The health-care professional attending to the child's pregnancy must document whether any type of emergency behavior intervention that your policies allow is inadvisable [Medium-High]; and
- (2) You may not use any emergency behavior intervention that the child's health-care professional attending to her pregnancy finds inadvisable. [High]

§749.1865. If my policies permit the admission of adolescent parents with their child(ren), who is responsible for the care of an **adolescent's child**?

You must keep documentation of the planning team's justification and approval in the child's record [Medium-Low];
 - (2) Ensuring a school-age child receives education and training in the least restrictive setting necessary to meet the child's needs and abilities [Low];

- (9) **Know what is in the child's IEP and support the school's efforts to implement the** IEP, if applicable. [Medium-Low]

§749.1895. What are the specific requirements for the educational program of a child diagnosed with an autism spectrum disorder?

Subchapter K, Foster Care Services: Daily Care, Problem Management

Division 4, Educational Services

January 2017

You must ensure that the educational program for a child with an autism spectrum disorder:

- (1) Encourages normalization through appropriate stimulation and by encouraging self-help skills [Medium-Low]; and
- (2) **Is appropriate to the child's intellectual and social functioning.** [Medium-Low]

Division 5, Recreational Services

[Medium]</p>

Technical Assistance
Chapter 768 of the Texas Health and Safety Code outlines specific requirements for children who participate in rodeos, including wearing protective gear. Operations need to be aware of the requirements of this law if children in their care participate in rodeos.

§749.1923. What physical fitness activities must caregivers provide for a child receiving treatment services for primary medical needs or intellectual disability?

Subchapter K, Foster Care Services: Daily Care, Problem Management

Division 5, Recreational Services

A child receiving treatment services for primary medical needs or intellectual disability must have a schedule that is based on the normalization principle. In order to help the child obtain an existence as normal as possible, the daily schedule must [Medium-Low]:

- (1) Demonstrate an understanding of normal child development [Medium-Low]; and
- (2) **Enhance the child's** physical, emotional, and social development. [Medium]

§749.1927. To what extent must a child receiving treatment services for primary medical needs or intellectual disabilities have normal life experiences?

Subchapter K, Foster Care Services: Daily Care, Problem Management

Division 5, Recreational Services

December 2014

A child receiving treatment services for primary medical needs or intellectual disabilities should **experience normalcy as much as possible and as appropriate for the child's special needs**. This means that the child's foster parents must be routinely and personally involved with the child. This involvement must include [Medium]:

- (1) Daily one-on-one interaction between the child and the foster parent primarily responsible **for the child's** care [Medium];
- (2) Participation in everyday family activities to the extent the child is able, such as having meals together, participating in family time, and participating in family outings [Medium];
- (3) Sensory stimulation for the child, such as the child being held, being read to, being played with, and being talked to, and the foster family watching television and listening to music together [Medium];
- (4) **Actively participating in the child's medical care**, including appointments and hospitalizations [Medium]; and
- (5) **Actively participating in the child's educational** needs. [Medium]

Division 6, Discipline and Punishment

§749.1951. What are the requirements for disciplinary measures?

Subchapter K, Foster Care Services: Daily Care, Problem Management

Division 6, Discipline and Punishment

January 2007

- (a) Only a caregiver known to and knowledgeable of a child may discipline the child. [Medium]
- (b) Each disciplinary measure must:
 - (1) Be consistent with your policies and procedures [Medium];
 - (2) Not be physically or emotionally damaging to the child [High];
 - (3) **Be individualized to meet each child's** needs [Medium];
 - (4) **Be appropriate to the child's level of understanding, age, and developmental level** [Medium-High]; and
 - (5) Be appropriate to the incident and severity of the behavior demonstrated. [Medium]
- (c) The goal of each disciplinary measure must be to teach the child acceptable behavior and self-control. The caregiver must explain the reason for the disciplinary measure when the caregiver imposes the measure. [Medium]

Technical Assistance

It is a good idea for disciplinary measures to be consistent among caregivers. Using positive methods of discipline and guidance encourage self-esteem, self-control, and self-direction. Positive methods of discipline include the following:

- Using praise, positive reinforcement, and encouragement of good behavior instead of focusing only on unacceptable behavior;
- Reminding a child of behavior expectations daily by using clear, positive statements;
- Talking with the child about the situation;
- Focusing on the rule to learn and the reason for the rule;
- Focusing on solutions that are respectful, reasonable, and related to the problem behavior, rather than blaming or focusing on consequences;
- **Redirecting the child's attention or behavior using positive statements;**
- Providing prior notice of possible consequences for inappropriate behaviors;
- Giving the child acceptable choices or alternatives;
- Using brief supervised separation or time away from the group or situation, when **appropriate for the child's understanding, age, and development. Best practice suggests** that quiet time or time out from the group be limited to no more than one minute per **year of the child's chronological or developmental age.** However, this time frame may need to be adjusted for some children, such as a child who has attention-deficit disorder. Time out is not appropriate for infants and is not recommended for toddlers, since they are too young to understand this intervention;
- Arranging the environment to allow safe testing of limits;
- Using kind but firm action;
- Giving logical consequences that are appropriate to the situation and severity of the behavior; and
- Withholding privileges.

§749.1953. May I use corporal punishment for children in care?

Subchapter K, Foster Care Services: Daily Care, Problem Management

Division 6, Discipline and Punishment

January 2007

- (a) You may not use or threaten to use corporal punishment with any child in care. [High]
- (b) Corporal punishment is the **infliction of physical pain on any part of a child's body as means of controlling or managing the child's behavior. It** includes:
 - (1) Hitting or spanking a child with a hand or instrument; or
 - (2) Forcing or requiring the child to do any of the following as a method of managing or controlling behavior:
 - (A) Perform any form of physical exercise, such as running laps or doing sit ups or push ups;
 - (B) Hold a physical position, such as kneeling or squatting; or
 - (C) **Do any form of "unproductive work."**

§749.1955. What is **"unproductive work"**?

Subchapter K, Foster Care Services: Daily Care, Problem Management

Division 6, Discipline and Punishment

January 2007

- (a) **"Unproductive work"** is work that serves no purpose except to demean the child. Examples include moving rocks or logs from one pile to another or digging a hole and then filling it in. Unproductive work is never an appropriate behavior management tool.
- (b) **"Unproductive work"** does not include work that corrects damage that the child's behavior caused. For example, you may require a child who defaces a fence or wall to repaint it. This example includes a logical consequence and an acceptable behavior management tool.

§749.1957. What other methods of punishment are prohibited?

Subchapter K, Foster Care Services: Daily Care, Problem Management

Division 6, Discipline and Punishment

April 2022

In addition to corporal punishment, prohibited discipline techniques include, but are not limited to:

- (2) Denial of mail or visits with their families as discipline or punishment [Medium];
- (3) Threatening with the loss of placement as discipline or punishment [Medium];
- (4) Using sarcastic or cruel humor [Medium-High];
- (5) Maintaining an uncomfortable physical position, such as kneeling, or holding his arms out [Medium-High];
- (6) Pinching, pulling hair, biting, or shaking a child [High];
- (7) Putting anything in or on **a child's mouth** [High];
- (8) Humiliating, shaming, ridiculing, rejecting, or yelling at a child [Medium-High];
- (9) Subjecting a child to abusive or profane language [Medium-High];
- (10) Placing a child in a dark room, bathroom, or closet [High];
- (11) Requiring a child to remain silent or inactive for inappropriately long periods of time **for the child's age** [Medium-High];
- (12) Confining a child to a highchair, box, or other similar furniture or equipment as discipline or punishment [Medium-High];
- (13) Denying basic child rights as a form of discipline or punishment [High];
- (14) **Withholding food that meets the child's nutritional requirements** [High]; and
- (15) Using or threatening to use emergency behavior intervention as discipline or punishment. [High]

Technical Assistance

Regarding subsection (7), examples include, but are not limited to, soap, tape, hot peppers, and hot sauce.

Subchapter K, Foster Care Services: Daily Care, Problem Management

Division 6, Discipline and Punishment

January 2017

- (a) Within limits, a **foster parent may restrict a child's activities as a behavior management tool.**
- (b) Restrictions of activities that will be imposed on a child for more than 14 days, must be reviewed with and approved by the child placement management staff or treatment director prior to or within 24 hours of imposing the restriction. [Medium-Low]
- (c) Restrictions to a particular room or building that will be imposed on a child for more than 24 hours must have approval from the service planning team, a professional service provider, or treatment director prior to or within 24 hours of imposing the restriction. [Medium-Low]
- (d) You must inform the child and parent about any such restrictions you place on the child. [Medium-Low]
- (e) Documentation of all approvals, justification for the restriction, and informing **the child and parents must be in the child's** record. [Medium-Low]

§749.1961. May a person in care discipline or punish another person in care?

Subchapter K, Foster Care Services: Daily Care, Problem Management

Division 6, Discipline and Punishment

September 2010

- (a) Before using a permitted type of emergency behavior intervention, the caregiver must:
- (1) Attempt less restrictive behavior interventions that prove to be ineffective at defusing the situation [Medium-High]; and
 - (2) Determine that the basis for the emergency behavior intervention is [Medium-High]:
 - (A) An emergency situation; or
 - (B) A need for a personal restraint to administer intra-muscular medication or other medical treatments prescribed by a licensed physician, such as administering insulin to a child with diabetes.
- (b) **A child's active attempt to run away may be considered an emergency situation when the following is a factor:**

Generally, a short personal restraint is used in urgent situations, such as:

- (1) To protect the child from external danger that causes imminent significant risk to the child, such as preventing the child from running into the street or coming into contact with a hot stove. The restraint must end immediately after the danger is averted.
- (2) To intervene when a child under the age of five (chronological or developmental age) demonstrates disruptive behavior, if other efforts to de-**escalate the child's behavior** have failed;
- (3) When a child over five years old demonstrates behavior disruptive to the environment or milieu, such as disrobing in public, provoking others that creates a safety risk, or to intervene to prevent a child from physically fighting; or
- (4) When a child is significantly damaging property, such as breaking car windows or putting holes into walls.

§749.2061. What precautions must a caregiver take when implementing a short personal restraint?

Subchapter L, Foster Care Services: Emergency Behavior Intervention

Division 2, Types of Emergency Behavior Intervention That May Be Administered

January 2007

- (a) When a caregiver implements a short personal restraint, the caregiver must:
 - (1) Minimize the risk of physical discomfort, harm, or pain to the child
[Medium-High];
 - (2) Use the minimal amount of reasonable and necessary physical force.
[Medium-High]
- (b) A caregiver may not use any of the following techniques as a short personal restraint:
 - (1) A prone or supine restraint [High];
 - (2) **Restraints that impair the child's breathing by putting pressure on the child's torso,** including leaning a child forward during a seated restraint [High];

- (3) Restraints that obstruct the airways of the child or impair the breathing of the child, including procedures that place anything in, on, or over the child's mouth, nose, or neck, or impede the child's lungs from expanding [High];
- (4) Restraints that obstruct the caregiver's view of the child's face [High];

Division 9, Triggered Reviews

§749.2331. What circumstances trigger a review of the use of emergency behavior intervention for a specific child?

Subchapter L, Foster Care Services: Emergency Behavior Intervention

Division 9, Triggered Reviews

February 2017

(a) The following circumstances trigger a review for certain emergency behavior interventions:

Types of Emergency Behavior Intervention	Circumstances that trigger a review:
(1) Short personal restraint	Not applicable, because short personal restraints are not monitored.
(2) Personal restraint	Except as provided by subsection (b) of this section: (A) The same child is personally restrained [Medium-High]: (i) four times within a seven-day period; or (ii) more than 12 times in a single 30-day period; or (B) The same child is personally restrained more often than the written order or service planning team recommendation allows. [Medium-High]
(3) Emergency medication	Emergency medication is used on the same child three times in a 30-day period. [Medium-High]

(b) You may exceed the number of restraints otherwise allowed in (2) Personal restraint of Figure: 40 TAC §749.2331(a) for a child if a licensed psychiatrist or psychologist issues a written order or if a service planning team makes a recommendation allowing you to do so and you ensure the following:

- (1) If applicable, the recommendation from the service planning team includes the same written information as an order, as specified in §749.2105 of this title (relating to What information must a written order include?); and
- (2) At least one triggered review is conducted in accordance with §749.2337 of this title (relating to What must the triggered review include and what must be documented in the child’s record?) every 30 days that personal restraints in excess of the threshold are authorized.

§749.2333. When must a triggered review occur?

Subchapter L, Foster Care Services: Emergency Behavior Intervention

Division 9, Triggered Reviews

January 2007

- (a) A triggered review must occur as soon as possible, but no later than 30 days after the review is triggered. [Medium-High]
- (b) **The regularly scheduled review of the child's service plan can serve as the triggered review if it meets the requirements in §749.2337 of this title (relating to What must the triggered review include and what must be documented in the child's record?) and takes place no later than 30 days after the review is triggered.** [Medium-High]

§749.2335. Who must participate in the triggered review?

Subchapter L, Foster Care Services: Emergency Behavior Intervention

Division 9, Triggered Reviews

February 2017

- (a) The service planning team must participate in the triggered review. [Medium-High]
- (b) You must invite the child, as appropriate, and the parents to the review, so they may have the opportunity to participate and provide input into the content of the review. However, you are not required to delay a review because a parent or child is unable to participate in the review at its scheduled time. [Medium-High]

§749.2337. What must the triggered review include and what must be documented in the child's record?

Subchapter L, Foster Care Services: Emergency Behavior Intervention

Division 9, Triggered Reviews

- (a) Except in cases in which the regularly scheduled review of the child's service plan also addresses the requirements of a triggered review in accordance with §749.2333(b) of this title (relating to When must a triggered review occur?), a triggered review is not a full review of the child's service plan and is focused on the requirements identified in subsection (c) of this section.

(b) Other than the requirements in this section and in §749.2335 of this title (relating to Who must participate in the triggered review?), the notification, participation, implementation, and documentation requirements in Division 4 of Subchapter I (relating to Admission, Service Planning, And Discharge) do not apply to a triggered review.

(c) **The following must be included in a triggered review and documented in the child's record:**

- (1) A review of the records and orders of the emergency behavior interventions [Medium-High];
- (2) A review and documentation of any potential medical or psychiatric reason for not using emergency behavior interventions on the child, including the prescribing **professional's consideration of any potential medical and/or psychiatric** contraindications for the specific child, such as a history of physical or sexual abuse or victimization involving the type of intervention [Medium-High];
- (3) An examination of identified behaviors and patterns, any significant events leading up to the use of emergency behavior intervention, and all attempted de-escalation methods, whether successful or unsuccessful [Medium-High];
- (4) **Identification of alternatives to manage the child's behavior** and more effectively prevent the use of emergency behavior intervention in the future [Medium-High]; and
- (5) A written plan for reducing the need for emergency behavior intervention. [Medium-High]

§749.2339. What if there are four triggered reviews within a 90-day period?

Subchapter L, Foster Care Services: Emergency Behavior Intervention

Division 9, Triggered Reviews

January 2007

If there are four triggered reviews within a 90-day period:

- (1) A licensed psychiatrist, psychologist, clinical social worker, professional counselor, or marriage and family therapist must examine the child [Medium-High]; and
- (2) The licensed professional must make service plan recommendations regarding the use of emergency behavior interventions. You must document these recommendations in the **child's record**. [Medium-High]

Division 10, Overall Agency Evaluation

§749.2381. What is an overall agency evaluation?

Subchapter L, Foster Care Services: Emergency Behavior Intervention

Division 10, Overall Agency Evaluation

January 2007

- (a) The overall agency evaluation is an annual review regarding:
 - (1) The use and effectiveness of emergency behavior interventions at your agency [Medium]; and
 - (2) Your emergency behavior intervention policies and procedures, including the training policy and curriculum. [Medium]
- (b) The objectives of the evaluation are to:
 - (1) Develop and maintain an environment that supports positive and constructive behaviors of children in care [Medium];
 - (2) Use any type of emergency behavior intervention safely, appropriately, and effectively [Medium]; and
 - (3) **Eliminate or reduce physical injuries and any other negative side effects on the child's** behavior or emotional development resulting from the emergency behavior interventions. [Medium]
- (c) One focus of the evaluation must be on:
 - (1) The frequency, patterns, and effectiveness of the types of emergency behavior intervention techniques that are used for all children in your foster homes [Medium];
 - (2) Strategies to reduce the need for emergency behavior interventions for all children in your foster homes [Medium]; and
 - (3) Specific strategies to reduce the need for use of specific types of emergency behavior intervention techniques for all children in your foster homes. [Medium]
- (d) The results of each overall agency evaluation must be made available to us for review. [Medium]

§749.2383. What data must be collected?

Subchapter L, Foster Care Services: Emergency Behavior Intervention

Division 10, Overall Agency Evaluation

April 2022

- (a) Quarterly, you must collect, document, and review aggregate numbers of emergency behavior interventions by type of intervention except for short personal restraints. [Medium]
- (b) This information must be reported to us no later than 15 days after the end of each quarter. [Medium]
- (c) You must maintain the data for five years. [Medium]

Technical Assistance

You must use the provider login section of the HHSC Child Care Regulation web site to report quarterly emergency behavior intervention statistics to Licensing. Please note that you are expected to submit a report even if no emergency behavior interventions were used within your operation during the quarter.

The quarterly data on emergency behavior interventions is due to CCR at the end of each quarter. Since the current minimum standards went into effect on January 2007, this is when the data collection was expected to begin. The quarterly reports are based on this start date. Therefore, quarterly reports should represent the following time frames each calendar year:

- Quarter 1 – January through March
- Quarter 2 – April through June
- Quarter 3 – July through September
- Quarter 4 – October through December

Subchapter M, Foster Homes: Screenings and Verifications

Subchapter M, Foster Homes: Screenings and Verifications

Division 1, General Requirements

June 2021

(a) You may verify only one spouse if:

- (1) The spouse whom you verify will be the only one involved in the care of any foster child in the home;
- (2) The spouses have been living apart for at least two years; and
- (3) After interviewing the spouse living outside of the foster home as part of the screening process, you determine that the spouse will not:

(A) **Have unsupervised access to foster children, as “unsupervised access” is defined in §745.601 of this title (relating to What words must I know to understand this subchapter); or**

(B) Regularly or frequently be present at the foster home, as defined in §745.601 of this title.

(b) If the requirements in subsection (a) of this section are not met, you must verify both spouses to provide foster care [Medium-High].

(c) If at any time the requirements in subsection (a) are no longer being met, the change in circumstances:

- (1) **Is considered a “major life change in the foster family”;**
- (2) Requires an update to the foster home screening, as required by §749.2453 of this chapter (relating to When must I update the foster home screening?); and
- (3) Requires closure of the foster home or adding the spouse to the verification certificate [Medium-High].

Technical Assistance

- For subsection (a), if these requirements are met, it is unlikely that the spouse who lives outside of the home will require a background check in relation to the foster home. However, you are responsible for submitting a background check request for the spouse if the spouse requires one under §745.605.

November 2022

- (a) A one-parent foster family home with one additional full-time, live-in caregiver or a two-parent foster family home may care for up to six children, except as noted in the chart below [Medium-High]:

If the home cares for:	Then the maximum number of children the home may care for is:
Infants	Six, with a maximum of two infants and two more children less than six years old, unless the placement is necessary to maintain a sibling group of children. [Medium-High]
One child or more receiving treatment services for primary medical needs	<ul style="list-style-type: none">• Six, with a maximum of three children with primary medical needs requiring total care, unless the placement is necessary to maintain a sibling group of children [Medium-High]; or• Four, if all placements are children with primary medical needs requiring total care, unless the placement is necessary to maintain a sibling group of children. [Medium-High]• Foster family homes verified to provide treatment services to children with primary medical needs before January 1, 2015, may continue to care for up to six children with no limitation. [Medium-High]

(b) A one-parent foster family home with one additional full-time, live-in caregiver or a two-parent foster family home may care for seven or eight children if all of the following criteria are met [Medium-High]:

- (1) Each foster or adoptive child that you place in the home that expands the home's capacity to more than six children is placed in the home for the purpose of allowing:
 - (A) Siblings to remain together;
 - (B) A child with an established meaningful relationship with the foster family (including a relative or close family friend) to remain with the family;
 - (C) A parenting youth in care to remain with the child of the parenting youth; or
 - (D) A family with special training or skills to provide care to a child who has a severe disability;
- (2) The foster family home cares for a maximum of two infants and two more children less than six years old, unless the placement is necessary to maintain a sibling group of children;
- (3) The foster family home cares for a maximum of three children with primary medical needs requiring total care, unless the placement is necessary to maintain a sibling group of children;
- (4) You complete a Foster Family Home Capacity Exception Form with the appropriate signatures and place the form in the foster family home record; and
- (5) **After you complete the exception form, you lower the home's capacity each time a child listed on the form leaves the home until the home's capacity does not exceed six.** This applies to both a foster child that leaves and a child who was placed in the home to be adopted leaves without the adoption being consummated.

(c) A one-parent foster family home or two-parent foster family home with one foster parent absent for extended periods of time (such as military service or out-of-town job assignments) may care for up to six children, except as noted in the chart below [Medium-High]:

If the home cares for:	Then the maximum number of children the home may care for is:
Any child less than five years old	Five [Medium-High]
Infants	Five, with a maximum of two infants and two more children less than six years old, unless the placement is necessary to maintain a sibling group of children. [Medium-High]
Three or more children receiving treatment services	Four [Medium-High]
One child or more receiving treatment services for primary medical needs	<ul style="list-style-type: none"> • Four, with a maximum of one child with primary medical needs requiring total care, unless the placement is necessary to maintain a sibling group of children [Medium-High]; or • Two, if all placements are children with primary medical needs requiring total care, unless the placement is necessary to maintain a sibling group of children. [Medium-High] • Foster family homes verified to provide treatment services to children with primary medical needs before January 1, 2015, may continue to care for up to four children with no limitation. [Medium-High]

(d) Notwithstanding subsections (a), (b), and (c) of this section, a child-placing agency may request an exception for a foster family home to care for seven or eight children by using the process for requesting a variance that is in 26 TAC Chapter 745, Subchapter J of this title (relating to Waivers and Variances for Minimum Standards) and meeting the requirements of that subchapter. When processing a request for a **variance related to a foster home's capacity, we will** consider any limitations in state or federal law.

(e) The maximum number of children that a foster family home may care for includes any biological and adopted children of the caregivers who live in the foster home, any children receiving foster or respite child-care, and any children for whom the family provides day care. All adults in care must also be counted in the capacity of the home as required by §749.2651(b) of this title (relating to May a foster home accept adults into the home for care?). [Medium-High]

- In addition to the requirements in 749.2551(b), foster homes with a capacity of more than six children must continue to meet the other minimum standards that relate to foster homes, or a variance must be requested and approved, as appropriate, including:
 - The capacity must be consistent with the requirements for determining capacity at §749.2555 (How do I determine capacity?);
 - The foster home screening must be updated as required by §749.2453 (When must I update the foster home screening?);
 - **The foster home's verification certificate must be amended with the increased capacity as required by §749.2481 (What type of certificate must a foster home have in order to prove verification?); and**
 - **The foster home's capacity must be updated on Licensing's public website as required by §749.2489 (What information must I submit to Licensing about a foster home's verification status?).**
- Here is an example to clarify paragraph 749.2551(b)(5): A foster family home is currently licensed for a total capacity of six children. Currently, the home has no biological children and four foster children. A CPA then determines it is appropriate to increase the **foster family home's capacity to eight to take in a sibling group of four. If one of the current foster children leaves the home's care, then the CPA must reduce the capacity of the foster family home down to seven children. If another one of the current foster children leaves the home's care, then the CPA must reduce the capacity of the foster family home down to six children.**

[Medium-High]
- (b) Children visiting the home or in the home for infrequent babysitting are not counted in the capacity of the home. After documenting all deficiencies, the child placement staff must review the deficiencies with the foster home, give the foster parent(s) a deadline for correcting each deficiency, and set any conditions or restrictions necessary to ensure child safety until deficiencies have been corrected. These expectations are consistent with §749.2807 through §749.2811.</p>

Likewise, school-age children should not go more than six hours without a meal or snack being offered, unless the child is sleeping or unless otherwise justified in writing by the child’s health-care professional .

Technical Assistance

Children's Nutrition

Research suggests the following:

- Milk and milk products served to children 12 months old or older should be Grade A pasteurized or from sources approved by the Department of State Health Services.

The following milks do not contain the right amounts of all the nutrients infants need and can **harm an infant's health.** Iron-fortified infant formula is the best substitute for breast milk. Infants should not be given the following unless recommended by the infant's health-care professional:

- Cow's milk;
- Evaporated cow's milk or home-prepared evaporated cow's milk formula;
- Sweetened condensed milk;
- Goat's milk;
- Soy milk; or
- Imitation milks, including those made from rice or nuts (such as almonds) or nondairy creamer.

(http://www.fns.usda.gov/tn/Resources/feeding_infants.html Feeding Infants: A Guide for Use in the Child Nutrition Programs p.24)

- Milk should be fluid milk.
- Breads and grains should be made from whole-grain or enriched meal or flour.
- Cereal should be whole grain or enriched or fortified.
- Vegetable or fruit juices should be 100% vegetable or fruit juice when used to meet a serving from the vegetable or fruit group.
- Children under one year old should not be offered unpasteurized or raw honey because it may contain spores that pose a health risk.

Food Allergies

A food allergy is caused by the body's immune system reacting inappropriately to a food or food additive. Symptoms may include wheezing, difficulty breathing, diarrhea, rashes, itching, hives, and headaches. Food allergies are most common in infants, due to their immature digestive systems. Food allergies are usually outgrown during the preschool years. Although any food may cause an allergic reaction, six foods are responsible for most of these reactions in children. These foods are:

- Peanuts;
- Eggs;
- Milk;
- Tree nuts;
- Soy; and
- Wheat.

A child who is pregnant or breastfeeding should avoid consuming peanuts and peanut products due to its association with the development of peanut allergies in infants. It is best not to offer children under two to three years old peanuts or peanut products, such as peanut butter and foods containing or cooked in peanut oil, because of the potential of developing this life-threatening and often life-long allergy. Foods that cause allergic reactions should be eliminated from the diet. However, it is important that the diet still contain a variety of foods for healthy growth and development. A child should receive a medical evaluation if food allergies are **suspected. If the child's licensed physician determines that the child has a food allergy, a** determination should be made of whether **the child's allergic condition meets USDA's definition** of disability.

Food Intolerance

A food intolerance is an adverse food-**induced reaction that does not involve the body's** immune system. Lactose intolerance is one example of food intolerance. A person with lactose intolerance lacks an enzyme needed to digest milk sugar. When that person eats milk products, gas, bloating, and abdominal pain may occur. It is best to provide food substitutions for children with food intolerances who cannot consume the regular meal.

Below is a chart from the web site of the Texas Department of Public Safety regarding child passenger safety seat system.

2013 Child Passenger Safety National Best Practice Recommendations

Phase	Type of Restrictive Device	Best Practice Recommendation
Phase 1	Rear-Facing Seats	Infants: Birth – 35+ pounds, 2+ years old. Rear-facing infant or rear-facing convertible safety seat as long as possible, up to the rear-facing height or weight limit of the seat. Properly install according to instructions in owner’s manual, rear- facing in the back seat.
Phase 2	Forward-facing Seats	When children outgrow the rear-facing safety seat (2+ years), they should ride in a forward-facing safety seat as long as possible, up to the upper height or weight limit (40 – 80+ pounds) of the harnesses. Usually 4+ years old. Properly installed forward-facing in the back seat. NEVER turn forward-facing before child meets all: AGE/HEIGHT/WEIGHT requirements set by safety seat manufacturer for forward-facing.
Phase 3	Booster Seats	After age 4 and 40+ pounds, children can ride in a booster seat with the adult lap and shoulder belt until the adult safety belt will fit them properly (usually when the child is 4’9” tall, 10 – 12 years old). MUST have a lap/shoulder belt to use a booster seat.
Phase 4	Adult Safety Belt	Once children outgrow their booster seat (usually at 4’9”, 10 – 12 years) they can use the adult lap/shoulder safety belt if it fits them properly. Lap portion low over the hips/tops of thighs and shoulder belt crosses the center of the shoulder and center of the chest.

Children are better protected the longer they can stay in each phase. Keep children in each seat up to the MAXIMUM age/weight/height limits before moving to the next phase. ALL children younger than age 13 years should ride properly restrained in the back seat.

§749.3131. Who is responsible for complying with the requirements in this subchapter?

Subchapter O, Foster Homes: Health and Safety Requirements, Environment, Space and Equipment

Division 7, Swimming Pools, Bodies of Water, Safety

§749.3133. What are the requirements for a swimming pool at a foster home?

Subchapter O, Foster Homes: Health and Safety Requirements, Environment, Space and Equipment

Division 7, Swimming Pools, Bodies of Water, Safety

April 2022

- (a) The caregivers must inform children about house rules for use of the swimming pool and appropriate safety precautions. Adult supervision and monitoring of safety features must be adequate to protect children younger than 12 years of age and children of any age who are not competent swimmers from unsupervised access to the swimming pool. [High]
- (b) The swimming pool must be built and maintained according to the standards of the Texas Department of State Health Services and any other applicable state or local regulations. [Medium-High]
- (c) The swimming pool must have a barrier, including a fence or wall, that prevents a **child's unauthorized access to the swimming pool. A swimming pool cover does not meet this requirement unless it is a power safety cover that meets the specifications of the American Society for Testing Materials, which specifies safety performance requirements for pool covers.** [High]
- (d) A fence or wall that is at least four feet high must enclose the pool area. The fence must be well constructed and be installed completely around the pool area.

The back wall of a house may serve as one side of the fence or wall as long as the requirements in subsection (f) of this section are met. [High]

- (e) Fence gates leading to the outdoor pool area must be self-closing and self-latching. Gates must be locked when the pool is not in use. Keys or locks to open the gate must not be accessible to children under the age of 12 years old, children of any age who are not competent swimmers, or any children receiving treatment services. [High]
- (f) If the home serves as one side of the fence or wall, any door that leads from the home to the swimming pool area must have:
 - (1) A door alarm [High]; and
 - (2) A lock that only adults or children over 12 years old can reach. The lock must be completely out of the reach of children younger than 12 years old [High], unless:
 - (A) The state or local fire authority determines that the height of the lock violates or would violate the fire code; and
 - (B) **The fire authority's determination is kept in the foster home record.**
- (g) Furniture, equipment, or large materials must not be close enough to the swimming pool area for a child to use them to gain unauthorized access to the swimming pool. [High]
- (h) At least two life-saving devices must be available, such as a reach pole, backboard, buoy, or a safety throw bag with a brightly colored buoyant rope or throw line. One additional life-saving device must be available for each 2,000 square feet of water surface, so a swimming pool of 2,000 square feet would require three life saving devices. [High]
- (i) Drain grates must be in place, in good repair, and capable of being removed only with tools. [High]
- (j) Caregivers must be able to clearly see all parts of the swimming pool when supervising activity in the area. [High]
- (k) The bottom of the swimming pool must be visible at all times. [High]
- (l) Swimming pool covers must be completely removed prior to pool use. [High]
- (m) An adult must be present who is able to immediately turn off the pump and filtering system when any child is in the swimming pool. [High]

(n) Swimming pool chemicals and pumps must be inaccessible to all children.

[Medium-High]

(o) Machinery rooms must be locked to keep children out. [Medium-High]

(p) An above ground swimming pool must:

(1) Be inaccessible to children under the age of 12 years old, children of any age who are not competent swimmers, or any children receiving treatment services when it is not in use [High]; and

(2) Meet all other requirements in this division. [High]

Technical Assistance

Regarding subsection (c), you may review the specifications for pool covers noted by the American Society for Testing Materials at <http://www.astm.org/>.

Regarding subsection (d), a backyard fence combined with the back wall of a house will meet the intention of the rule; therefore, no additional fence or wall is needed also long as it meets all fence/wall and gate criteria in §749.3133(d) and (f). Subsection (a) requires that children may not have unsupervised access to the pool area. Therefore, if the backyard fence serves as the pool fence/wall, then children may not have unsupervised access to the back yard and doors leading to the back yard must comply with §749.3133(f). If the entire backyard is serving as the pool area, children may not be in the backyard without direct caregiver supervision.

Regarding subsection (p), you must ensure the stairs to an aboveground swimming pool are inaccessible to children.

§749.3135. What general requirements must caregivers meet for children regarding a body of water?

Subchapter O, Foster Homes: Health and Safety Requirements, Environment, Space and Equipment

Division 7, Swimming Pools, Bodies of Water, Safety

January 2017

(a) Caregivers must use prudent judgment and ensure children in your care who are younger than 12 years old, children of any age who are not competent swimmers, and children receiving treatment services are protected from unsupervised access to water such as a swimming pool, hot tub, fountain, pond, lake, creek, or other body of water. [High]

- (b) If children are allowed to swim in a body of water such as a river, creek, pond, or lake, the supervising adult must clearly designate swimming areas. [High]
- (c) Rules governing the activity and the dangers of the body of water must be explained to participants in a manner that is clearly understood prior to their participation. [Medium-High]

§749.3137. What are the child/adult ratios for swimming activities?

Subchapter O, Foster Homes: Health and Safety Requirements, Environment, Space and Equipment

Division 7, Swimming Pools, Bodies of Water, Safety

April 2022

- (a) The maximum number of children one adult can supervise during swimming activities is based on the age of the youngest child in the group and is specified in the following chart [Medium-High]:

If the age of the youngest child is...	Swimming Child/Adult Ratio
(1) 0 to 23 months old	1:1
(2) 2 years old	2:1
(3) 3 years old	3:1
(4) 4 years old	4:1
(5) 5 years old or older in a foster family home; and either: (A) One child is receiving treatment services for primary medical needs; or (B) Three or more children are receiving treatment services	4:1
(6) 5 years old or older in a foster family home, no children are receiving treatment services for primary medical needs, and no more than two children are receiving treatment services	6:1

- (b) When all of the children in the group are at least four years of age or older, in addition to meeting the required swimming child/adult ratio listed in subsection (a) of this section, at least two adults must supervise four or more children who are actually in the water. [High]
- (c) When a child who is non-ambulatory or who is subject to seizures is engaged in swimming activities, you must assign one adult to that one child. This adult must be in addition to any lifeguard on duty in the swimming area. You do not have to

meet this requirement if a licensed physician writes orders in which the physician determines that the child [High]:

(1) Is at low risk of seizures and that special precautions are not needed; or

(2) Only needs to wear a Coast Guard approved life jacket while swimming and additional special precautions are not needed.

(d) A lifeguard who is supervising the area where the children are swimming may be counted in the child/adult ratio; however, one caregiver must always be present and the lifeguard may not be the only person counted in the child/adult ratio.

(e) A child must wear a Coast Guard approved life jacket while participating in swimming activities in other bodies of water, such as ponds, rivers, lakes, and oceans, if the child is:

(1) Under the age of 12 [High]; or

(2) Unable to swim, regardless of the child's age. [High]

(f) The ratios in subsection (a) of this section:

(1) do not include children over the age of 12 years old who are competent swimmers.

(2) Are not required when children are participating in water activities such as sprinkler play or splash/wading pool, as long as the standing water is less than two feet.

Technical Assistance

Regarding subsection (b), if a foster parent takes four 4-year-olds swimming, subsection (a) only requires one person to supervise the four children. However, if all four 4-year-olds are in the water at the same time, then subsection (b) requires there to be at least two adults to supervise the children.
