Healthy Teeth, Healthy Smiles – Evaluation

PB-000-08

Oral Health refers to the health of your mouth, teeth, and gums. Oral Health is important because people need strong healthy teeth for chewing and eating, speaking clearly, and smiling. This lesson will cover ways to prevent tooth decay and keep your family’s smiles healthy.

To receive credit for this class:

- Read the Bulletin Board *Healthy Teeth, Healthy Smiles*.
- Answer the questions below.
- When you are finished, review your answers with a WIC staff member.

1. Tooth decay happens when a tooth breaks down, loses strength, and may become discolored. What factors can lead to tooth decay?
   - a) Germs
   - b) Sugary foods and drinks
   - c) Poor tooth care
   - d) All of the above

2. **True or False**
   
   Tooth decay is preventable.
   
   ___ True
   ___ False

3. Children should visit the dentist for the first time by what age?
   - a) 6 months
   - b) 12 months
   - c) 2 years old
   - d) 3 years old

4. Describe a good daily oral health routine for your family.
5. Label the foods below A or B:
   A) Healthy snack that will help strengthen teeth.
   B) Sugary or chewy snack that may stick to teeth and can lead to tooth decay.
   _____ Fruits  
   _____ Yogurt  
   _____ Hard Candy  
   _____ Cheese  
   _____ Vegetables  
   _____ Gummy Bears

6. What is one healthy dental habit that you would like to begin this month with your family?
