Background

The Texas Health and Human Services Commission (HHSC) identified that certain households were not sent renewal packets. Since these households were not informed of their requirement to renew benefits, HHSC extended the certification periods of households who were not sent a renewal packet and did not:
- Have their renewal completed or initiated prior to being extended, or
- Return a renewal packet.

Note: Staff must continue to process renewals that were initiated prior to being extended.
Texas Works programs were extended on September 14, 2016, and MEPD extensions will run tonight (September 16, 2016). A special emergency notification (Form H1809) of this extension will also be generated on tonight (September 16, 2016).

Households that were extended will be mailed a renewal packet based on the new certification period.

Please note the following for **Medicaid**:

- For Texas Works Eligibility Determination Groups (EDGs), if a packet is received after September 14, 2016, do not process the renewal until the EDG is in Review Required (RR) status.
- For MEPD EDGs, the EDG will remain in RR status and the renewal can be processed at any time.

Please note the following for **SNAP and TANF**:

- SNAP and TANF EDGs were reopened. SNAP EDGs were provided September benefits.
- SNAP streamlined reporting (SR) households that are extended past their original six month certification period retain their SR designation (TWH B-621, What to Report).
