Background

- The 83rd Texas Legislature directed HHSC to move remaining Medicaid fee-for-service clients to Medicaid managed care.
- Currently, women in the Medicaid Breast and Cervical Cancer (MBCC) program get Medicaid services through Medicaid fee-for-service.
- Most MBCC clients will move to STAR+PLUS managed care Sept. 1, 2017
What is MBCC?

• MBCC provides Medicaid services to women diagnosed with breast or cervical cancer, or certain pre-cancer conditions.

• A woman can get MBCC services if she is:
  • Uninsured
  • Between age 18 until the month she turns 65.
  • A US citizen or qualified immigrant
  • A Texas resident
  • Meets income guidelines
What is MBCC? (cont.)

  • Submit of proof of active treatment for breast or cervical cancer from the treating doctor (Form H1551, Treatment Verification) and
  • Complete and submit MBCC Renewal (Form H2340).
What is Managed Care?

• Managed care is healthcare provided through a network of doctors, hospitals, and other providers responsible for managing and delivering quality, cost-effective care.

• The state pays a health plan a set rate for each member enrolled, rather than paying for each unit of service provided.
What Are The Goals Of Managed Care?

• Emphasize preventive care
• Establish a medical home through a primary care provider, such as a doctor, nurse or clinic
• Improve access to care
• Make sure people get the right amount of services.
• Improve client and provider satisfaction
• Promote care in least restrictive, most appropriate setting
• Improve health outcomes, quality of care, and cost-effectiveness

What Is A Health Plan?

• Health plans provide a medical home through a primary care provider and referrals for specialty services as needed.
  • Exception: Clients who get Medicare and Medicaid (dual eligible) get acute care services through Medicare.

• Health plans may offer extra services, also called “value-added services”
  • Respite
  • Extra vision services
  • Health and wellness services
What is STAR+PLUS?

• STAR+PLUS is a Texas Medicaid managed care program for certain populations.
• STAR+PLUS delivers basic care and long-term services and supports.
• As of Sept. 1, 2017, most women in MBCC will get Medicaid services through STAR+PLUS.
Who is in STAR+PLUS?

• Adults who:
  • Are in a waiver program
  • Qualify for Supplemental Security Income (SSI) or SSI-related Medicaid
  • Live in a facility
    • Most adults who live in nursing facility
    • Most adults who live in an intermediate care facility
  • Qualify for Medicaid because they meet a nursing facility level of care and need STAR+PLUS Home and Community Based Services.
  • Are in the MBCC program.

Managed Care Service Areas
How Will My Doctor Know What Health Plan I’m In?

• All STAR+PLUS members get a health plan ID card, in addition to a Your Texas Benefits Medicaid card from the state

• The health plan ID card includes:
  • Member’s name and Medicaid ID number
  • Medicaid program (STAR+PLUS)
  • Health plan name
  • PCP name and phone number
  • Toll-free phone numbers for member services, service coordination, and behavioral health services hotline
  • Other information may be provided (e.g. date of birth, service area, PCP address)
Continuity of Care

• The state requires STAR+PLUS health plans provide continuity of care”

  • Authorizations for basic care, like specialist visits and medical supplies, are honored for 90 days, until the authorization expires, or until the health plan issues a new one.

  • Authorizations for long-term services and supports are honored for six months, until the authorization expires, or until the health plan issues a new one.

  • During the transition period, you can continue to see your current providers, even if they are out of the health plan’s network.
Will My Current Services Be Covered In Managed Care?

• Approved and active authorizations for covered services will be given to the STAR+PLUS health plan you pick before Sept. 1, 2017.

• These authorizations are subject to the continuity of care requirements discussed before.

• Providers don’t need to resubmit authorization requests to the health plans if an authorization is already in place.
Provider Networks

• Providers must contract and be credentialed with a health plan to be “in network” and provide Medicaid managed care services.

• You can talk to your health plan or your service coordinator if you think you need to see a provider who is not in network.

• Referral, authorization and claims payment requirements might be different between health plans.

• Rates are negotiated between the provider and the health plan.
Significant Traditional Providers

• A significant traditional provider is a provider who has served Medicaid fee-for-service clients.

• Health plans must offer significant traditional providers the chance to be part of the contracted health plan network.

• Health plans will reach out to significant traditional providers.
  • The providers may initiate the contact.

• Significant traditional providers and health plans must agree on the conditions for contracting and credentialing.
What if The Provider is Out-of-Area?

• Health plan networks must have enough doctors and providers to meet clients’ needs.
• Health plans can also pay providers outside their service area in certain situations
  • Emergency services
  • To maintain ongoing care with an existing provider
  • A particular specialist isn’t available in your area
What If My Provider Doesn’t Join The Health Plan?

• If providers choose not to contract with health plans in their service area, the providers won’t be part of the health plans’ network.

• Sometimes, the health plans might be willing to sign a single-case agreement or enter into a limited contractual relationship. This allows the provider to treat a single Medicaid patient.
Appeals and Fair Hearings

• You have the right to appeal to the health plans and file a fair hearing request with the state if services are denied, reduced, or terminated.

• Services may continue during the review of the appeal or fair hearing when requested on time and the member asks for continued services pending the appeal.
Complaints and Appeals

- Health plans must use appropriately trained providers when reviewing all medically-based member appeals, such as:
  - Member appeals regarding a benefit denial or limitation
- Common complaints:
  - Quality of care or services
  - Accessibility or availability of services
  - Claims processing
