What is Managed Care?

• Healthcare provided through a network of doctors, hospitals and other healthcare providers responsible for managing and delivering quality, cost-effective care

• The State pays a managed care organization (MCO) a capitated rate for each member enrolled, rather than paying for each unit of service provided
Goals of Managed Care

• Emphasize preventive care
• Improve access to care
• Ensure appropriate utilization of services
• Improve client and provider satisfaction
• Establish a medical home for Medicaid clients through a primary care provider (PCP)
• Improve health outcomes, quality of care, and cost-effectiveness
Managed Care Programs in Texas

- STAR (State of Texas Access Reform)
- STAR+PLUS
- STAR Health
- CHIP (Children’s Health Insurance Program)
- CHIP and Children’s Medicaid Dental
Medicaid Managed Care Enrollment

• As of November 2013:
  • About 3.6 million clients enrolled in Texas Medicaid
  • About 2.9 million members are enrolled managed care
    • STAR – 2.5 million
    • STAR+PLUS – 412,000
    • STAR Health – 31,000
MCO Plan Identification Cards

- All members receive an MCO plan ID card, in addition to a Your Texas Benefits Medicaid card from the State.
- The plan ID card contains the following information:
  - Member’s name and Medicaid ID number
  - Healthcare program (e.g. STAR, STAR+PLUS)
  - MCO name
  - PCP name and phone number
  - Toll-free phone numbers for member services and behavioral health services hotline
  - Additional information may be provided (e.g. date of birth, service area, PCP address)
Managed Care Organizations

- MCOs provide a medical home through a PCP and referrals for specialty providers, when needed
  - Exception: Clients who receive both Medicare and Medicaid (dual eligibles) get acute care services and a PCP through Medicare
- MCOs may offer value-added services (e.g. extra dental services, extra vision services, health and wellness services)
Managed Care Organizations

• Providers must contract and be credentialed with an MCO to provide STAR or STAR+PLUS services
• Rates are negotiated between the provider and the MCO
• Processes such as authorization requirements and claims processing may be different between MCOs
Provider Claims

• Providers must file claims within 95 days of the date of service (DOS)
• MCOs are required to adjudicate most claims within 30 days
  • 18 days for electronic pharmacy claims
STAR

• Provides acute care services (like doctor visits, hospital visits, and prescriptions) mostly for children and pregnant women
• About 2.5 million members currently served
• Each member is enrolled in an MCO
  • Primary care provider (PCP) serves as the medical home and coordinates care
• Statewide service areas:
  • Bexar, Dallas, El Paso, Harris, Hidalgo, Jefferson, Lubbock, Medicaid Rural Service Areas (MRSA) Central, Northeast, and West, Nueces, Tarrant, and Travis
