1. About This Guide

The purpose of this guide is to educate public partners of the Health and Human Services Commission (HHSC) to better understand mental health care in Texas. This guide provides basic information regarding the services available across the state and the organizations that can help connect individuals to those resources.

Local Mental Health Authorities/Local Behavioral Health Authorities:

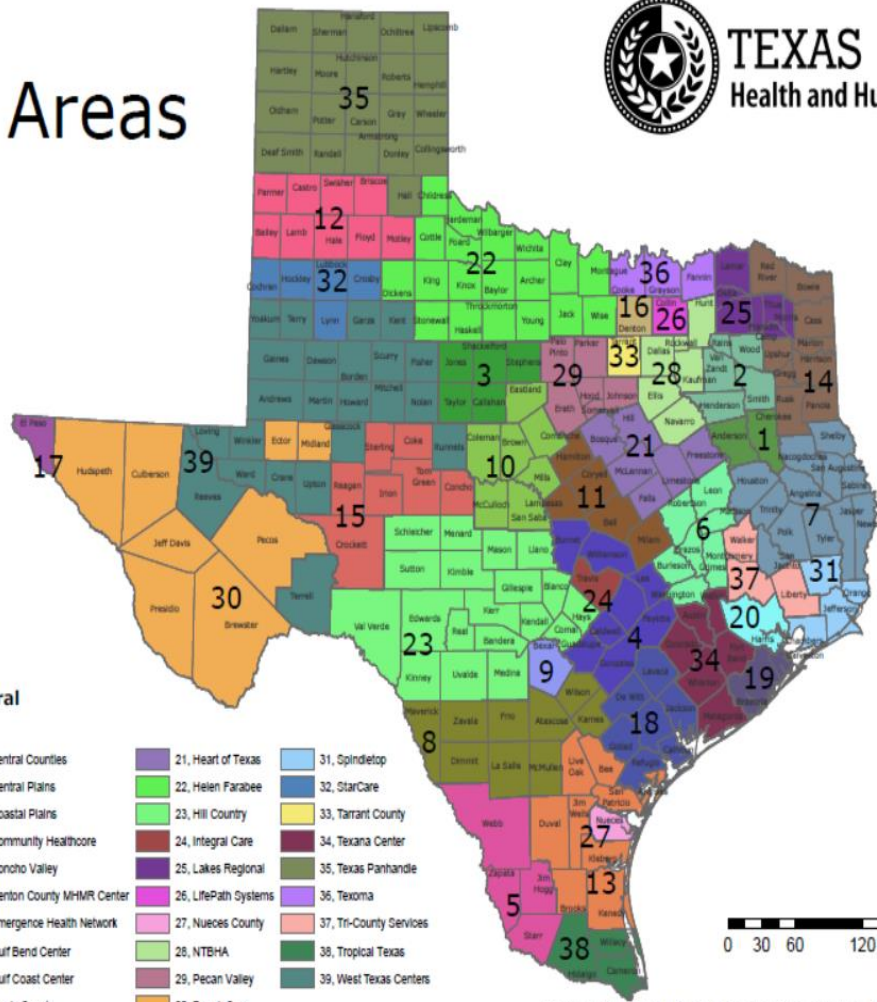

Every community in Texas is served by a designated Local Mental Health Authority (LMHA) or Local Behavioral Health Authority (LBHA). LMHAs/LBHAs help inform individuals about available treatment options that can address the challenges associated with their mental illness and ultimately achieve recovery. LMHAs/LBHAs provide a wide array of treatment services and supports, and seek to connect individuals with resources unique to their communities.

The following map shows LMHA/LBHAs' service areas. To identify the LMHA/LBHA serving a specific community, please visit <https://hhs.texas.gov/services/mental-health-substance-use/mental-health-substance-use-resources/find-your-local-mental-health-or-behavioral-health-authority>. A complete list is available at the end of this report in [Appendix A: Local Mental Health Authorities and Local Behavioral Health Authorities](#).

Available Services

LMHAs/LBHAs offer a range of services to help meet the unique needs of each individual, including services that help prevent issues from escalating into a crisis. Services are available to assist individuals in accessing treatment, finding competitive employment, finding or keeping safe housing, and getting access to medications when needed. LMHAs/LBHAs serve individuals of all ages.

Services are available on an ongoing basis and not tied to a specific event. Support can be accessed at any time. LMHAs/LBHAs have a variety of services to assist individuals in crisis, including individuals not already connected with the LMHA/LBHA. For many individuals, a crisis event may be the first time someone receives help from an LMHA/LBHA. Some services are available in every community, while others have been developed by communities to meet a local need.

What happens after an individual or family member contacts the LMHA/LBHA?

After an individual contacts an LMHA/LBHA for mental health services, the LMHA/LBHA conducts an intake assessment, the Adult Needs and Strengths Assessment (ANSA) for adults or the Child and Adolescent Needs and Strengths Assessment (CANS) for children and youth. The LMHA/LBHA relies on assessment results to determine a level of care and identify available services.

Is there a wait list for crisis services?

For individuals experiencing a crisis, LMHAs/LBHAs have mental health professionals available 24/7 to help individuals understand what types of care are available to meet their needs and how they can receive services. LMHAs/LBHAs can explain available resources and help ensure individuals receive help when needed. HHSC encourages people in need to contact their LMHA/LBHA for assistance directly.

When should 9-1-1 be called?

If an individual has a physical injury that requires medical attention, calling 9-1-1 for an ambulance or going directly to a medical hospital or similar acute-care facility for immediate care is most appropriate. In a crisis situation, the LMHA/LBHA may also recommend an individual call 9-1-1 or go directly to a medical hospital.

How much do LMHA/LBHA services cost?

LMHAs/LBHAs charge for services based on a “sliding scale,” meaning payment for services may be free or greatly reduced, based on an individual’s income. LMHAs/LBHAs also accept most forms of private insurance.

Are there options for individuals who have been arrested?

A number of services are available to individuals in the criminal justice system. “Forensic services” are community-based services for individuals unable to stand trial due to mental illness. LMHAs/LBHAs also collaborate with the Texas Correctional Office on Offenders with Medical or Mental Impairments (TCOOMMI).

2. Types of Services Available

LMHA/LBHA Core Services

Across the state of Texas, the following core services are available at every LMHA/LBHA to help an individual achieve and maintain recovery.

Access to Benefits: When an individual is enrolled in services at the LMHA/LBHA the benefits specialist may assist the individual in applying for Supplemental Security Income or Supplemental Security Disability Income.

Assertive Community Treatment (ACT): ACT is an evidence-based practice specifically designed for adults with repeated admissions or long stays in inpatient psychiatric facilities. ACT provides a full array of intensive, in-home services and utilizes person-centered recovery planning to help individuals achieve stability and facilitate community living.

Case Management: Case managers help adults, children, or caregivers obtain needed services, such as counseling, employment, medication, and substance use disorder intervention and treatment services.

Community Resource Coordination Group (CRCG): CRCGs are county-based groups of local partner agencies and community members working with parents, caregivers, children, youth, and adults with complex needs that cannot be met by a single agency, and who would benefit from interagency coordination. CRCG members help identify and coordinate local services and supports. CRCGs are located across Texas, available in almost every county. To find the CRCG in your county visit <https://crcg.hhs.texas.gov/>.

Counseling: Individual, family, and group therapy can reduce or eliminate an individual's symptoms of mental illness and increase the individual's ability to perform normal daily activities.

Co-Occurring Psychiatric and Substance Use Disorders: LMHAs/LBHAs offer evidence-based outpatient services designed specifically for individuals with both a mental health and substance use disorder diagnosis. Both adults and children age 13 and older may benefit.

Crisis Hotline: Hotlines provide information, support, referrals, screening, and intervention services 24/7.

Crisis Intervention, Relapse Prevention, and Follow-Up: This is appropriate for individuals who are not in imminent danger of harm to self or others, but who require additional assistance to avoid reoccurrence of the crisis event. Mental health professionals respond to crises to reduce symptoms and prevent admission of an individual to a more restrictive environment.

Family Partner Support Services: This is comprised of peer mentoring and support provided by Certified Family Partners, or Family Partners awaiting certification within the first year of hire, to the primary caregivers of a child receiving community-based mental health services. The service may include introducing the family to the treatment process; modeling self-advocacy skills; providing information; making referrals; providing non-clinical skills training; and assisting in the identification of natural/informal and formal community supports. A Family Partner/Certified Family Partner: 1) is the parent or legally authorized representative (LAR) of a child or youth with a serious emotional disturbance; and 2) has at least one year of experience navigating a child-serving system (e.g., mental health, juvenile justice, social security, special education) as the LAR to that child or youth.

Medication and Medication Training: Physicians (and people who assist physicians, such as nurse practitioners and physician assistants) assess whether medications would help the individual (both adults and children/youth) address symptoms, achieve stability, and ultimately recover. Physicians also work with treatment teams to provide education and guidance to children/youth and their LARs about these medications and possible side effects.

Mobile Crisis Outreach Teams (MCOT): An MCOT provides immediate response at the location where a psychiatric crisis is occurring. MCOT is available 24/7 and mental health professionals respond to calls from the home, school, street, or clinic.

Peer Services and Supports: Peer providers share their experience related to recovery; act as a model of hope and resilience to others; provide education, training, and interventions within the recovery process; and promote integration with community resources. Peer providers have lived experience with mental health challenges, which makes them uniquely able to promote wellness, recovery, and an independent life in the community. Peer support is available to individuals enrolled in the HCBS-AMH program.

Screening Brief Intervention and Referral to Treatment (SBIRT): SBIRT is a comprehensive, public health approach to the delivery of early intervention and treatment services for individuals who have, or are at risk of developing, a substance use disorder. SBIRT is provided by licensed practitioners of the healing arts or certified nurse midwives. Services are delivered in a variety of locations,

including an outpatient hospital, federally qualified health center, rural health clinic, office, home, or other setting. SBIRT is intended to be used as an individualized (not group) intervention.

Supported Employment: This evidence-based practice builds upon rehabilitation services and works to help individuals choose, obtain, and maintain employment in regular community jobs.

Supportive Housing: This evidence-based practice builds upon case management and rehabilitation services to help individuals choose, obtain, and maintain regular, long-term integrated housing. This service is available to those with demonstrated housing needs.

Skills Training and Development: This training provides evidence-based intervention services as part of the overall treatment planning process to facilitate recovery.

Youth Empowerment Services (YES) Waiver Program: The YES waiver program serves children and youth ages 3 through 18 by providing services in a child's home and local community. The YES Waiver program serves children who would otherwise need an institutional level of care, or whose parents would otherwise turn to out-of-home placement due to the child/youth's serious emotional disturbance. Individuals must be eligible for Medicaid along with other criteria. Parental income is not a determinant of the child/youth's eligibility for Medicaid. Services are available statewide. The process for enrollment begins when the child/youth's LAR calls the Inquiry Line at the LMHA/LBHA. For more information and phone numbers by county, please visit <https://hhs.texas.gov/services/mental-health-substance-use/childrens-mental-health/yes-waiver>

Other Community-Based Services

LMHAs/LBHAs provide additional services and programs unique to their service area. Additionally, some services and programs may be provided by other service providers, to which the LMHA/LBHA may then refer individuals.

Coordinated Specialty Care for First Episode of Psychosis (CSC): CSC is a team-based model designed to meet the needs of individuals between ages 15 and 30 who have experienced their first episode of psychosis within the past two years. CSC emphasizes shared decision-making and a recovery-focused approach. To learn more, visit <https://hhs.texas.gov/services/mental-health-substance-use/adult-mental-health/adult-mental-health-coordinated-specialty-care-first-episode-psychosis>.

Critical Time Intervention Program: This program assists homeless individuals with mental illness in their transition from the street, shelter, psychiatric hospital, or criminal justice system into the community.

Home and Community Based-Adult Mental Health Program (HCBS-AMH):

The HCBS-AMH program is designed to serve adults age 18 and older who have a diagnosis of a serious mental illness and require a very intense level of support to be successful in the community. An individual meets this criteria if the individual: (a) resided in an inpatient psychiatric hospital for 3 or more years (cumulative or consecutive) during the 5 years prior to enrollment (including days of forensic inpatient commitments); (b) was arrested 4 or more times and experienced 2 severe psychiatric crisis during the 3 years prior to enrollment; or had 15 or more emergency department visits and experienced 2 severe psychiatric crisis during the 3 years prior to enrollment. Additionally, an individual must be eligible for Medicaid and meet specific functional criteria to receive HCBS-AMH services. The HCBS-AMH program provides an array of services, appropriate to each individual's needs, to enable individuals to live and experience recovery in their community. Individuals can be referred to the program through their LMHA/LBHA or by a state hospital. For more information on the services available through HCBS-AMH and where the program is available, visit <https://hhs.texas.gov/services/mental-health-substance-use>.

Projects for Assistance in Transitions from Homelessness (PATH): The PATH program provides services for individuals with serious mental illness experiencing homelessness and individuals with co-occurring mental health and substance use disorders who are experiencing, or at risk of, homelessness. Supported activities include screening and diagnostic treatment, community-based mental health services, substance use treatment, case management services, supportive and supervisory services in residential settings, referrals for primary healthcare, job training, educational services, and housing. The primary objective is to provide outreach to these individuals and connect them with mainstream services. There are currently 16 PATH providers in the State of Texas, covering 15 geographic locations. PATH also serves individuals involved in the criminal justice system who meet eligibility criteria.

Substance Use Services: LMHAs and LBHAs work closely with Outreach, Screening, Assessment, and Referral Centers (OSARs) to help individuals with issues related to substance use. Regardless of their ability to pay, Texas residents seeking substance use services and information may qualify for services based on need. Substance use services include Prevention, Intervention, Treatment, and Recovery Support. Substance use program location information can be found at: <http://txdshs.maps.arcgis.com/apps/webappviewer/index.html?id=0ebf2016e9724>

[3cb8aa665b01818cf4c](https://hhs.texas.gov/services/mental-health-substance-use/mental-health-substance-use-resources/outreach-screening-assessment-referral-centers). For a complete list of OSARS, visit <https://hhs.texas.gov/services/mental-health-substance-use/mental-health-substance-use-resources/outreach-screening-assessment-referral-centers> or [Appendix C: Outreach, Screening, Assessment, and Referral Centers](#).

Supportive Housing Rental Assistance: This program provides funding to LMHAs/LBHAs to enhance their ability to provide rental and utility assistance to individuals with mental illness who are homeless, or at imminent risk for becoming homeless; and supportive housing and mental health services to individuals in need.

Crisis Services and Facilities

Across the state, there is a wide array of services available to individuals in crisis. A crisis may be a period of intense difficulty where an individual may be experiencing severe symptoms related to mental illness, be a danger to themselves or others, or feel extremely hopeless. Each LMHA/LBHA operates a crisis hotline to provide support during a crisis. The crisis hotline numbers are provided in the following pages of this guide under each region. The services listed below are in order from least intensive to most intensive treatment options.

Crisis Respite: Crisis respite programs provides short-term, community-based crisis care for individuals who have low-risk of harm to themselves or others, may have some functional impairment and require direct supervision and care, but do not require hospitalization. This is the least intensive, facility-based crisis option. Services occur outside of an individual's home and may be provided for a few hours or days. Many individuals served in these programs have experienced an event causing significant distress and/or housing challenges, or have loved ones/caretakers who are seeking temporary support or supervision for the individual. Facility-based crisis respite services have trained staff on-site 24/7.

Crisis Residential: Crisis residential programs provide up to 14 days of short-term, community-based residential crisis treatment to individuals who may pose some risk of harm to themselves or others, have a severe impairment in their ability to function, and demonstrate a psychiatric crisis that cannot be stabilized in a less intensive setting. This is a more intensive, facility-based crisis option with trained staff on-site 24/7.

Psychiatric Emergency Service Center (PESC): PESC provide immediate access to assessment and a continuum of stabilizing treatment for individuals presenting with behavioral health crises. These units are co-located with licensed hospitals or crisis stabilization units (CSUs) and can manage the most severely ill individuals at all times, including immediate access to emergency medical care.

PESCs must be available to walk-ins and must offer a combination of service types, including extended observation and inpatient hospital services or a CSU.

Extended Observation Unit (EOU): EOUs provide emergency services up to 48 hours to individuals in a psychiatric crisis. Services are provided in a secure and protected, clinically staffed, psychiatrically-supervised environment with immediate access to urgent or emergent medical and psychiatric evaluation and treatment. Individuals seeking treatment in an EOU may pose a moderate to high risk of harm to themselves or others. EOU staff make a determination of whether the individual has stabilized or requires a psychiatric hospitalization prior to the end of the 48-hour period.

Crisis Stabilization Unit (CSU): CSUs provide short-term, residential treatment designed to reduce acute symptoms of mental illness provided in a secure and protected, clinically staffed and psychiatrically supervised treatment environment. Although it is slightly less intensive than a full psychiatric hospitalization, this is one of the most intensive facility-based crisis options.

Residential Treatment Center (RTC): RTCs provide 24-hour care for children younger than 18 years of age and may offer programmatic services such as transitional living or emergency care, or may offer treatment services for emotional disorders or primary medical needs. An RTC is a type of General Residential Operation that serves only children needing treatment services for emotional disorders.

Specialized RTC initiatives implemented through a partnership between HHSC and the Department of Family Protective Services (DFPS) provide an intensive service alternative for children at risk for parental relinquishment of custody due to a lack of mental health resources. Children remain in these facilities an average of six to nine months. Children between 5 and 17 years of age needing this service must be referred by DFPS Child Protective Services (CPS) following a CPS investigation resulting in "no finding" of abuse or neglect by the LAR. LMHAs/LBHAs provide families help to complete the RTC "Common Application" and assessment for eligibility to an RTC.

Waco Center for Youth Residential Treatment Center: This state-operated, psychiatric residential treatment facility located in Waco, Texas, serves youth 13 to 17 years of age with significant or severe emotional difficulties and/or behavioral problems. This facility serves approximately 70 youth from across the state. The applicant's LMHA/LBHAs facilitates the admission application. Contact: Admissions Coordinator 254-745-5399, or Admissions/Aftercare Assistant 254-745-5302

Community Services for Individuals in the Criminal Justice System (Forensic Services)

Many services are available to individuals involved in the criminal justice system. Typically referred to as forensic services, this guide lists the communities that offer community-based services to divert individuals that may be involved in the criminal justice system due to mental illness, as well as the services described below.

Crisis Intervention Response Team (CIRT) Program: The CIRT assists law enforcement officers with behavioral health calls, to evaluate individuals in behavioral health crises in their natural environment and make appropriate referrals for mental health services and thereby, reduce the numbers of individuals that inappropriately end up in jails or emergency rooms. CIRT is located at Tri-County Services covering Liberty, Montgomery, and Walker counties.

Harris County Jail Diversion Program (HCJDP): The HCJDP provides a continuum of services and supports to reduce criminal justice involvement and unwarranted admissions for emergency room services, while increasing enrollment in long-term mental health services.

Home and Community Based-Adult Mental Health Program (HCBS-AMH): See description provided under Community-Based Services.

Interdisciplinary Rapid Response Team: Team of qualified individuals, consisting of clinicians working in tandem with law enforcement, trained to safely and appropriately serve individuals with suspected mental illness or intellectual disability who are experiencing a behavioral health crisis, and when appropriate, divert them from extended involvement in the criminal justice system and connect them to necessary behavioral health and intellectual disability services.

Jail-Based Competency Restoration Program: This program offers mental health services in a jail-based setting to individuals who are deemed incompetent to stand trial. Four LMHAs and one LBHA provide services and supports as an alternative to inpatient treatment for competency restoration at state mental health facilities. These programs can be found in Dallas, Lubbock, Midland, Nueces, and Tarrant counties.

Mental Health Deputies or Officers: Mental Health Deputies/Officers are sheriffs' deputies or law enforcement officers specially trained in crisis intervention that work collaboratively with the community and the crisis response teams of LMHAs/LBHAs. These programs help improve the crisis response system by diverting individuals in need of behavioral health crisis services from hospitals and jails to community-based alternatives that provide effective behavioral health

treatment at less cost than hospitals and jails. These programs can be found in Ector, Hale, Hardin, Howard, Jackson, Jefferson, Llano, McClennan, Midland, Orange, Tom Green, and Victoria counties.

Mental Health Docket: Mental health courts promote accountability by helping individuals understand their public responsibilities and connecting them to services in their communities. Services can include, but are not limited to, case manager screening and assessment, recovery plan development, medication management, psychosocial rehabilitation, skills training, case management, peer support, supported housing, supported employment, and counseling. This type of program is currently operating in Texas Panhandle (Potter and Randall counties) and MHMR of Tarrant County.

Outpatient Competency Restoration (OCR) Program: The OCR program offers mental health services to adults deemed incompetent to stand trial. LMHAs/LBHAs provide services and supports in an individual's home or community, as an alternative to inpatient treatment for competency restoration at state mental health facilities.

TCOOMMI: LMHAs/LBHAs connect juvenile and adult offenders with special needs to a full array of psychiatric and medical services upon their release on probation or parole. The Texas Department of Criminal Justice, county jails, and Texas Juvenile Justice Department institutions refer juvenile or adult offenders to this program. LMHAs/LBHAs also work closely with parole and probation officers to help the individual comply with the court-order, with a particular focus on engaging them in behavioral health treatment. Contact the Texas Department of Criminal Justice – Reentry and Integration Division, TCOOMMI at 512-671-2134.

3. Northern Region of Texas

Betty Hardwick Center (LMHA)

<https://bettyhardwick.org/>

2616 S Clack St., Abilene, TX 79606

Main Phone: 325-690-5100

Crisis Hotline: 800-758-3344

Counties: Callahan, Jones, Shackelford, Stephens, and Taylor

Community-Based Services:

- Supportive Housing Rental Assistance:
Population Served: Adults receiving basic, intensive, or ACT services that are homeless or imminently homeless
Phone: 325-690-5162

Crisis Services and Facilities:

- Crisis Respite Center:
Population Served: Adults 18+ years of age
Address: 2616 S. Clack St., Abilene, TX 79606
Phone: 800-758-3344

Criminal Justice Services:

This community does not have any criminal justice service options funded through HHSC.

Center for Life Resources (LMHA)

<http://cflr.us/wordpress/>

408 Mulberry St., Brownwood, TX 76801

Main Phone: 325-646-9574

Crisis Hotline: 800-458-7788

Counties: Brown, Coleman, Comanche, Eastland, McCulloch, Mills, and San Saba

Community-Based Services:

- Supportive Housing Rental Assistance:

Population Served: Adults receiving basic, intensive, or ACT services that are homeless or imminently homeless

Phone: 325-646-9574.

Crisis Services and Facilities:

- Crisis Respite:

Population Served: Adults 18+ years of age

Address: 1200 3rd St., Brownwood, TX 76801

Phone: 800-458-7788

Criminal Justice Services:

This community does not have any criminal justice service options funded through HHSC.

Central Plains Center (LMHA)

<http://centralplains.org/>

2700 Yonkers, Plainview, TX 79072

Main Phone: 806-293-2636

Crisis Hotline: 800-687-1300

Counties: Bailey, Briscoe, Castro, Floyd, Hale, Lamb, Motley, Parmer, and Swisher

Community-Based Services:

This community does not have any additional community-based services outside of the services available at every LMHA and LBHA identified on page 2 of this guide.

Crisis Services and Facilities:

- Crisis Respite:

Population Served: Adults 18+ years of age

Address: 801 Houston, Plainview, TX 79072 and 2601 Dimmitt Rd.,
Plainview, TX 79072

Phone: 800-687-1300

Criminal Justice Services:

- Mental Health Deputy Program:

Population Served: All ages

Address: 2700 Yonkers, Plainview, TX 79072

Phone: 800-687-1300

Denton County MHMR Center (LMHA)

<http://www.dentonmhmr.org/>

2519 Scripture St., Denton, TX 76201

Main Phone: 940-381-5000

Crisis Hotline: 800-762-0157

County: Denton

Community-Based Services:

- Coordinated Specialty Care

Population Served: Adolescents and adults ages 15 – 30 who have experienced their first episode of psychosis within the past two years.

Website: <https://hhs.texas.gov/services/mental-health-substance-use/adult-mental-health/adult-mental-health-coordinated-specialty-care-first-episode-psychosis>

Appendix C. OSARs

OSARs may be the first point of contact for those seeking substance use services, including prevention, intervention, treatment, and recovery support services. Regardless of ability to pay, Texas residents who are seeking substance use services and information may qualify for services based on need. There are 14 OSARs incorporated into LMHAs/LBHAs across the state.

For immediate and confidential help, 24 hours a day, seven days a week, individuals can call the OSAR in their local area.
