1. About This Guide

The purpose of this guide is to help people better understand mental health care in Texas. This guide provides basic information regarding the services available across the state and the organizations that can help people get connected to these resources.

The Health and Human Services Commission thanks the Court of Criminal Appeals for providing input to ensure this guide is useful within Texas court and mental health systems.

Local Mental Health Authorities/Local Behavioral Health Authorities:

Every community in Texas is served by a Local Mental Health Authority (LMHA) or Local Behavioral Health Authority (LBHA). LMHAs/LBHAs help people understand what treatment options will address the challenges associated with their mental illness and ultimately achieve recovery. LMHAs/LBHAs provide a wide array of treatment services and support, and also connect people with resources unique to their community.

The map on page 2 helps identify the LMHA/LBHA nearest you. In addition, the Health and Human Services Commission (HHSC) website can help you identify which LMHA/LBHA serves your community. For a complete list of LMHAs and LBHAs visit https://hhs.texas.gov/services/mental-health-substance-use, or review Appendix A: Local Mental Health Authorities and Local Behavioral Health Authorities.

Available Services

People do not have to wait until they are in crisis to receive help. Services are available to assist people in finding employment, finding or keeping safe housing, and getting access to medications when needed. This guide provides a description of such services. We hope this will help you better understand what an LMHA/LBHA does and how these organizations can assist you or someone you know.

For many people, a crisis causes an initial request for help from the mental health system. That is the reason LMHAs/LBHAs have a variety of services to assist people in crisis – even if they are not yet connected with care.

Some services, like the crisis hotlines and Mobile Crisis Outreach Teams (MCOT), are available in every community. Others, such as the various types of crisis facilities, have been developed by communities to meet their local needs and may not exist in every area. This guide will help you understand what options are available where you live. It also provides a description of the services and lists contact information for each provider.

Are there any openings right now?

LMHAs/LBHAs have mental health professionals available 24/7 to help people understand what kind of care they need and how they can receive services. LMHA/LBHA staff know what openings are available and what the best options are if a person has to wait. Some programs are designed for walk-ins. However, LMHAs/LBHAs work with people to ensure they arrive at the right program that has the space and staff available to meet their needs. We encourage people to reach out directly to their LMHA/LBHA when assistance is needed.

Sometimes it is more appropriate to call 9-1-1 or go directly to a hospital. For example, if an individual has hurt himself or herself, calling 9-1-1 for an ambulance or going directly to a hospital for immediate care is the most appropriate means to access services. LMHAs/LBHAs help people make the best choice possible in difficult crisis situations.

How much will services cost?

Services provided by LMHAs/LBHAs are available on a “sliding fee scale,” meaning payment for services may be greatly reduced based on a person’s income. LMHAs/LBHAs also accept most forms of insurance.
Are there options for people who have been arrested?

A number of services are available to people in the criminal justice system. Typically referred to as “forensic services,” this guide lists the communities that offer community-based services to people who are unable to stand trial due to mental illness. LMHAs/LBHAs also collaborate with the Texas Correctional Office on Offenders with Medical or Mental Impairments. Information regarding these specialized services is also provided in this guide.

Services designed for people involved in the criminal justice system are noted by this icon of a gavel.

You may find the following acronyms helpful:

- ACT: Assertive Community Treatment
- CIRT: Crisis Intervention Response Team
- CSU: Crisis Stabilization Unit
- DFPS: Department of Family and Protective Services
- EOU: Extended Observation Units
- HHSC: Health and Human Services Commission
- LMHA: Local Mental Health Authority
- LBHA: Local Behavioral Health Authority
- MCOT: Mobile Crisis Outreach Team
- MHD: Mental Health Deputy
- MHMR: Mental Health and Mental Retardation Center (former term for LMHA)
- OCR: Outpatient Competency Restoration Program
- OSAR: Outreach, Screening, Assessment, and Referral Center
- RTC: Residential Treatment Center
- PESC: Psychiatric Emergency Service Center
- SED: Severe emotional disturbance
- SMI: Severe mental illness
TCOOMMI  Texas Correctional Office on Offenders with Medical or Mental Impairments
2. Types of Services Available

Crisis Services and Facilities

Across the state, there is a wide array of services available to individuals in crisis. A crisis may be a period of intense difficulty where an individual may be experiencing severe symptoms related to mental illness, be a danger to themselves or others, or feel extremely hopeless. In crisis where you or someone you know is in immediate danger, call 9-1-1. The crisis hotline numbers are provided in the following pages under each region. The services listed below are in order from least intensive to most intensive treatment options.

**Crisis Hotline:** Provides information, support, referrals, screening, and intervention services 24/7.

**Mobile Crisis Outreach Teams (MCOT):** Provides immediate response to the location where a psychiatric crisis is occurring. MCOT is available 24/7 and mental health professionals respond to calls from the home, school, street, or clinic.

**Crisis Intervention, Relapse Prevention, and Follow-Up:** Provides services to individuals who are not in imminent danger of harm to self or others, but require additional assistance to avoid reoccurrence of the crisis event. Mental health professionals respond to crises to reduce symptoms and prevent admission of an individual to a more restrictive environment.

**Crisis Respite:** Provides short-term, community-based crisis care for individuals who have low-risk of harm to themselves or others, but may have some functional impairment. This is the least intensive, facility-based crisis option. Services occur outside of a person’s home and may be provided for a few hours or a few days. Many people served in these programs have experienced an event causing significant distress, are having housing challenges, or have loved ones/caretakers who are seeking temporary support or supervision for the individual. Facility-based crisis respite services have trained staff on-site 24/7.

**Crisis Residential:** Provides up to 14 days of short-term, community-based residential, crisis treatment for individuals who may pose some risk of harm to themselves or others, have a severe impairment in their ability to function, and demonstrate a psychiatric crisis that cannot be stabilized in a less intensive setting. This is a more intensive, facility-based crisis option with trained staff on-site 24/7.

**Psychiatric Emergency Service Center (PESC):** Provides a combination of facility-based crisis care services, such as those listed above. PESCs must be
available for walk-ins and provide immediate access to assessment, triage and a continuum of stabilizing treatment for individuals experiencing a behavioral health crisis. PESCs are staffed by medical personnel and mental health professionals and provide care 24/7.

**Extended Observation Unit (EOU):** Provides emergency services for up to 48 hours to individuals in psychiatric crisis. Services are provided in a secure and protected, clinically staffed, psychiatrically supervised environment with immediate access to urgent or emergent medical and psychiatric evaluation and treatment. Individuals seeking treatment in an EOU may pose a moderate to high-risk of harm to themselves or others. A determination of whether the individual has stabilized or requires a psychiatric hospitalization is made prior to the end of the 48-hour period.

**Crisis Stabilization Unit (CSU):** Provides short-term, residential treatment to reduce acute symptoms of mental illness. Although it is slightly less intensive than a full psychiatric hospitalization, this is one of the most intensive facility-based crisis options.

**Rapid Crisis Stabilization Bed:** Provides very brief stays in licensed psychiatric hospitals to relieve acute symptoms and restore an individual’s ability to function in a less restrictive setting.

**Residential Treatment Center (RTC):** Provides 24-hour care for children younger than 18 years of age and may offer programmatic services such as transitional living or emergency care, or may offer treatment services for emotional disorders or primary medical needs. An RTC is a type of General Residential Operation that serves only children needing treatment services for emotional disorders.

Specialized RTC initiative implemented through a partnership between HHSC and DFPS provides an intensive service alternative for children/youth at risk for parental relinquishment of custody due to a lack of mental health resources. Youth reside in these facilities an average of six to nine months. Children between 5 and 17 years of age needing this service must be referred by DFPS Child Protective Services (CPS) following a CPS investigation resulting in “no finding” of abuse or neglect by the parent/guardian. LMHAs/LBHAs provide families help to complete the RTC “Common Application” and assessment for eligibility to an RTC.

**Waco Center for Youth Residential Treatment Center:** A state-operated, psychiatric residential treatment facility that serves adolescents 13 to 17 years of age with significant or severe emotional difficulties and/or behavioral problems. This is a unique facility that serves approximately 70 youth from across the state and is located in Waco. Applications for the Waco Center for Youth are facilitated by the respective LMHA/LBHA.
Contact: Admissions Coordinator 254-745-5399, or Admissions/Aftercare Assistant 254-745-5302.

**Outpatient Services**

Across the state of Texas, there are core services provided by LMHA and LBHA providers to help you or someone you know get better. Some services and programs may be provided by other service providers. LMHAs and LBHAs are able to provide referrals to these programs as well.

**Access to Benefits:** When an individual is enrolled in services at the LMHA or LBHA, the benefits specialist may assist the individual in applying for Supplemental Security Income (SSI) or Supplemental Security Disability Income (SSDI).

**Assertive Community Treatment (ACT):** An evidence-based practice provided by the LMHAs and LBHAs that is specifically designed for adults who have difficulty avoiding repeated admissions or long stays in inpatient psychiatric facilities. ACT provides a full array of intensive, in-home services and utilizes person-centered recovery planning to help these individuals achieve stability and facilitate community living.

**Case Management:** Case managers employed by LMHAs and LBHAs help adults, children, or caregivers obtain needed services, such as employment, medication, and substance use disorder treatment.

**Counseling (Cognitive Behavioral Therapy and Cognitive Processing Therapy):** Individual, family, and group therapy works to reduce or eliminate an individual’s symptoms of mental illness and increase the individual’s ability to perform normal, daily activities. This evidence-based practice is frequently recommended for people with diagnoses of major depression or post-traumatic stress disorder.

**Home and Community Based-Adult Mental Health Program (HCBS-AMH):** The HCBS-AMH program is designed to serve adults age 18 and older who have a diagnosis of a serious mental illness and require a very intense level of support to be successful in the community. An individual meets this criteria if the individual: (a) resided in an inpatient psychiatric hospital for three or more years (cumulative or consecutive) during the five years prior to enrollment (including days of forensic inpatient commitments); (b) was arrested four or more times and experienced a severe psychiatric crisis during the three years prior to enrollment; or had fifteen or more emergency department visits and experienced a severe psychiatric crisis during the three years prior to enrollment. Additionally, an individual must be eligible for Medicaid and meet specific functional criteria to receive HCBS-AMH services. The HCBS-AMH program has funds available to serve a small number of
indigent individuals, who are not eligible for Medicaid and have resided in an inpatient psychiatric hospital for three or more years. The HCBS-AMH program provides an array of services, appropriate to each individual’s needs, to enable individuals to live and experience recovery in his or her community. Individuals can be referred to the program through their LMHA or LBHA. For more information on the services available through HCBS-AMH and where the program is available, visit https://hhs.texas.gov/services/mental-health-substance-use.

**Medication and Medication Training:** Physicians (and people who assist physicians, such as nurse practitioners and physician assistants) assess whether medications would help adults and children address symptoms, achieve stability, and ultimately recover. Physicians also work with treatment teams to provide education and guidance about these medications and their possible side effects.

**Peer Services and Supports:** Peer providers share their experience related to recovery; act as a model of hope and resilience to others; provide education, training, and interventions within the recovery process; and promote integration with community resources. Peer providers have experienced mental illness, which makes them uniquely able to promote wellness, recovery, and an independent life in the community. Peer support is available at the LMHA and LBHA as part of the HCBS-AMH program.

**Permanent Supported Employment:** This evidence-based practice is available at the LMHA and LBHA and builds upon rehabilitation services and works to help people choose, obtain, and maintain employment in regular community jobs.

**Permanent Supportive Housing:** This evidence-based practice is available at the LMHAs and LBHAs and builds upon case management and rehabilitation services to help people choose, obtain, and maintain regular, long-term integrated housing. This service is available to all who demonstrate housing needs.

**Rehabilitation and Skills Training:** This training provides evidence-based intervention services as part of the overall treatment planning process to facilitate recovery.

**Substance Use Disorder Services:** LMHAs and LBHAs work closely with OSARs to help people with issues related to substance use. Regardless of their ability to pay, Texas residents seeking substance use disorder services and information may qualify for services based on need. For a complete list of OSARS, visit https://hhs.texas.gov/services/mental-health-substance-use, or Appendix B: Outreach, Screening, Assessment, and Referral Centers.

**Projects for Assistance in Transitions from Homelessness (PATH):** The PATH program is a federal grant that funds services for people with serious mental illness
experiencing homelessness. Supported activities include screening and diagnostic treatment, community mental health services, substance use treatment, case management services, supportive and supervisory services in residential settings, referrals for primary healthcare, job training, educational services, and housing. PATH services are for eligible individuals with serious mental illnesses and those with co-occurring substance use disorders who are experiencing homelessness or are at imminent risk of homelessness. The primary objective is to provide outreach to these individuals, and connect them with mainstream services. There are currently 16 PATH providers in the State of Texas, covering 15 geographic locations. PATH also serves individuals involved in the criminal justice system who meet eligibility criteria.

**Youth Empowerment Services (YES):** The YES program serves youth 3 through 18 years of age by providing services in a child’s home and local community to children who would otherwise need an institutional level of care or whose parents would turn to out-of-home placement due to the child/youth’s serious emotional disturbance (SED). Individuals must be eligible for Medicaid and meet specific requirements to receive services. Parental income is not included in financial eligibility determinations for Medicaid when the youth is determined eligible for YES. Services are available statewide. The process for enrollment begins when the legally authorized representative for the youth calls the Inquiry Line at the LMHA or LBHA. For a list of the number for the Inquiry Line by county and more information about YES, visit [https://hhs.texas.gov/services/mental-health-substance-use/childrens-mental-health/yes-waiver](https://hhs.texas.gov/services/mental-health-substance-use/childrens-mental-health/yes-waiver)

**Services for People in the Criminal Justice System (Forensic Services)**

A number of services are available to people involved in the criminal justice system. Typically referred to as forensic services, this guide lists the communities that offer community-based services to people who are unable to stand trial due to mental illness. LMHAs and LBHAs also partner with TCOOMMI. Information regarding these specialized services is also provided in this guide.

**Crisis Intervention Response Team (CIRT) Program:** The CIRT assists law enforcement officers with behavioral health calls, evaluate persons in behavioral health crises in their natural environment and make appropriate referrals for mental health services, thereby, reducing the numbers of individuals that inappropriately end up in the jails or emergency rooms. CIRT is located at Tri-County Services covering Liberty, Montgomery, and Walker counties.
**Harris County Jail Diversion Program (HCJDP):** The Harris County Jail Diversion Program (HCJDP) provides a continuum of services and supports to reduce criminal justice involvement and unwarranted admissions for emergency room services, while increasing enrollment in long-term mental health services.

**Home and Community Based-Adult Mental Health Program (HCBS-AMH):** The HCBS-AMH program is designed to serve adults age 18 and older who have a diagnosis of a serious mental illness and require a very intense level of support to be successful in the community. An individual meets this criteria if the individual: (a) resided in an inpatient psychiatric hospital for three or more years (cumulative or consecutive) during the five years prior to enrollment (including days of forensic inpatient commitments); (b) was arrested four or more times and experienced a severe psychiatric crisis during the three years prior to enrollment; or had fifteen or more emergency department visits and experienced a severe psychiatric crisis during the three years prior to enrollment. Additionally, an individual must be eligible for Medicaid and meet specific functional criteria to receive HCBS-AMH services. The HCBS-AMH program has funds available to serve a small number of indigent individuals, who are not eligible for Medicaid and have resided in an inpatient psychiatric hospital for three or more years. The HCBS-AMH program provides an array of services, appropriate to each individual’s needs, to enable individuals to live and experience recovery in his or her community. Individuals can be referred to the program through their LMHA or LBHA. For more information on the services available through HCBS-AMH and where the program is available, visit [https://hhs.texas.gov/services/mental-health-substance-use](https://hhs.texas.gov/services/mental-health-substance-use).

**Mental Health Deputy (MHD) Program:** Mental Health Deputies are officers specially trained in crisis intervention that works collaboratively with the community and the crisis response teams of LMHAs and LBHAs. MHD programs help improve the crisis response system by diverting individuals in need of behavioral health crisis services from hospitals and jails to community-based alternatives that provide effective behavioral health treatment at less cost than hospitals and jails.

**Mental Health Docket:** Mental health courts promote accountability by helping individuals understand their public responsibilities and connecting them with services in their communities. Services can include but are not limited to case manager screening and assessment, recovery plan development, medication management, psychosocial rehabilitation, skills training, case management, peer support, supported housing, supported employment, and counseling. The program currently provided by the Texas Panhandle serving Potter and Randall counties.
**Outpatient Competency Restoration Program:** Provided through an LMHA or LBHA this program offers a full array of mental health services to adults deemed incompetent to stand trial. This program also provides services and supports in a person’s home or community and is created as an alternative to inpatient treatment for competency restoration at state mental health facilities.

**Texas Correctional Office on Offenders with Medical or Mental Impairments Programs (TCOOMMI):** LMHA and LBHA providers connect juvenile and adult offenders with special needs to a full array of psychiatric and medical services upon their release on probation or parole. The Texas Department of Criminal Justice, county jails, and Texas Juvenile Justice Department institutions refer juvenile or adult offenders to this program. LMHA and LBHA providers also work closely with parole and probation officers to help the person comply with the conditions of his or her release, with a particular focus on engaging them in behavioral health treatment.

Appendix B. Outreach, Screening, Assessment, and Referral Centers (OSARs)

Substance Use Disorder Intervention and Treatment

Outreach, Screening, Assessment and Referral Centers (OSARs) may be the first point of contact for those seeking substance use disorder treatment services. Regardless of ability to pay, Texas residents who are seeking substance use disorder services and information may qualify for services based on need. There are 14 OSARs that are now located at select LMHAs/LBHAs in all 11 Health and Human Service regions.

For immediate and confidential help, 24 hours a day, seven days a week please call the LMHA, LBHA, or OSAR in your region. (Note: Counties served by each LMHA/LBHA/OSAR are listed below the contact information for each.)

You may also call or contact 2-1-1 Texas. Dial 2-1-1 or call 877-541-7905.

List of all LMHAs/LBHAs/OSARs in Texas
