Subject: Information Letter No. 11-53
Dental Coverage

A recently identified systems error to Form H3087, Medical Care Identification, inadvertently deleted the dental coverage indicator for Medicaid residents in Intermediate Care Facilities for Persons with MR or Related Conditions (ICF/MR). This system change only affected the Form H3087 and did not delete the actual dental coverage for the residents.

The Health and Human Services Commission is working to address the issue and expects to resolve it shortly. If you have an ICF/MR resident needing dental coverage, please contact the Texas Medicaid Healthcare Partnership (TMHP) at 1-800-925-9126. TMHP can verify the resident's dental coverage in order to ensure payment. TMHP can also provide information about dental service coverage for these residents.

Sincerely,

[signature on file]
