

ICD-10 Implementation Readiness Attestation Form

MCOs and DMOs, please ensure that all of your systems, operations and provider communications along with your representatives are ready for the ICD-10 conversion for October 1, 2015. Thank you to the MCOs that have confirmed readiness for ICD-10 and submitted the ICD-10 attestation letter.

For the MCO and DMOs continuing to test for ICD-10 readiness, an extension will be granted for the submission of the attestation letter to **September 1, 2015**. Please inform your Health Plan Management team, if an extension is necessary.

We look forward to a successful transition to ICD-10 for providers, MCOs and HHSC.
