

Feedback on 17-P Data and Reports Due May 29, 2015

Background

HHSC recently started sharing a birth record file with MCOs. MCOs are required to use this file to identify reproductive-age Members with a previous preterm birth. MCO must provide outreach to, education to, and care coordination for identified Members as described in this section to prevent preterm births. MCOs are also required to provide a report to HHSC regarding outreach activities.

Information Request

To improve data sharing processes and outcomes related to this initiative, HHSC requests responses to the following questions by Friday May 29, 2015. Please email responses to

HPCS_Quality@HHSC.state.tx.us.

1. What issues has your MCO experienced with validating the information in the file?
2. Has your MCO experienced any challenges and barriers to conducting outreach for the members included in this file? If so, please explain.
3. Do you have any comments or recommendations for improving the information in the data file?
4. Do you have any comments or recommendations for improving outreach requirement and reports?
