

## ICD-10 Website Request

The Health and Human Services Commission (HHSC) will be creating an HHSC International Classification of Disease 10 (ICD-10) webpage to assist providers with the upcoming transition from ICD-9 to ICD-10. HHSC would like to provide each managed care organization (MCO) and dental maintenance organization (DMO) the opportunity to include a link to their ICD-10 webpage on the HHSC ICD-10 webpage.

If your MCO or DMO has an ICD-10 webpage, please send your links and any questions that you may have to Laura Blanke at [Laura.Blanke@hhsc.state.tx.us](mailto:Laura.Blanke@hhsc.state.tx.us) by close of business July 17, 2015, with a copy to your health plan management team.
