

Attachment A to Attachment 1 to Attachment to Block 7 of CMS Form 179. Therapy Reimbursement Rate Comparisons

*Type of Service (TOS): 1 = Medical Services; C = Home Health Agency

** When the Texas Medicaid rate is based on a different unit of service than the comparison rate, the Texas rate was converted to the comparison unit of service when determining the difference between the Texas rate and the comparison rate and the Texas rate as a percent of the comparison rate. For example, for CORF/ORF 92507, the Texas unit of service is 15 minutes while the comparison unit of service is a visit. To compare the Texas rate to the comparison rate, the Texas rate must be multiplied by a conversion factor of 3.5.

Attachment A to Attachment 1 to Attachment to Block 7 of CMS Form 179. Therapy Reimbursement Rate Comparisons

*Type of Service (TOS): 1 = Medical Services; C = Home Health Agency

** When the Texas Medicaid rate is based on a different unit of service than the comparison rate, the Texas rate was converted to the comparison unit of service when determining the difference between the Texas rate and the comparison rate and the Texas rate as a percent of the comparison rate. For example, for CORF/ORF 92507, the Texas unit of service is 15 minutes while the comparison unit of service is a visit. To compare the Texas rate to the comparison rate, the Texas rate must be multiplied by a conversion factor of 3.5.

Attachment A to Attachment 1 to Attachment to Block 7 of CMS Form 179. Therapy Reimbursement Rate Comparisons

*Type of Service (TOS): 1 = Medical Services; C = Home Health Agency

** When the Texas Medicaid rate is based on a different unit of service than the comparison rate, the Texas rate was converted to the comparison unit of service when determining the difference between the Texas rate and the comparison rate and the Texas rate as a percent of the comparison rate. For example, for CORF/ORF 92507, the Texas unit of service is 15 minutes while the comparison unit of service is a visit. To compare the Texas rate to the comparison rate, the Texas rate must be multiplied by a conversion factor of 3.5.

Attachment A to Attachment 1 to Attachment to Block 7 of CMS Form 179. Therapy Reimbursement Rate Comparisons

*Type of Service (TOS): 1 = Medical Services; C = Home Health Agency

** When the Texas Medicaid rate is based on a different unit of service than the comparison rate, the Texas rate was converted to the comparison unit of service when determining the difference between the Texas rate and the comparison rate and the Texas rate as a percent of the comparison rate. For example, for CORF/ORF 92507, the Texas unit of service is 15 minutes while the comparison unit of service is a visit. To compare the Texas rate to the comparison rate, the Texas rate must be multiplied by a conversion factor of 3.5.

Attachment A to Attachment 1 to Attachment to Block 7 of CMS Form 179. Therapy Reimbursement Rate Comparisons

*Type of Service (TOS): 1 = Medical Services; C = Home Health Agency

** When the Texas Medicaid rate is based on a different unit of service than the comparison rate, the Texas rate was converted to the comparison unit of service when determining the difference between the Texas rate and the comparison rate and the Texas rate as a percent of the comparison rate. For example, for CORF/ORF 92507, the Texas unit of service is 15 minutes while the comparison unit of service is a visit. To compare the Texas rate to the comparison rate, the Texas rate must be multiplied by a conversion factor of 3.5.

Attachment A to Attachment 1 to Attachment to Block 7 of CMS Form 179. Therapy Reimbursement Rate Comparisons

*Type of Service (TOS): 1 = Medical Services; C = Home Health Agency

** When the Texas Medicaid rate is based on a different unit of service than the comparison rate, the Texas rate was converted to the comparison unit of service when determining the difference between the Texas rate and the comparison rate and the Texas rate as a percent of the comparison rate. For example, for CORF/ORF 92507, the Texas unit of service is 15 minutes while the comparison unit of service is a visit. To compare the Texas rate to the comparison rate, the Texas rate must be multiplied by a conversion factor of 3.5.

Descriptive Information							9/30/15 Texas Medicaid Rate**	Conversion Factor	9/30/15 Texas Medicaid Rate Converted to Medicaid Unit of Service	Medicare Rates			Median of 11 Other States' Medicaid Rates Source: Truven Analytics			Median of Texas Commercial Rates Source: Truven Analytics

Attachment A to Attachment 1 to Attachment to Block 7 of CMS Form 179. Therapy Reimbursement Rate Comparisons

*Type of Service (TOS): 1 = Medical Services; C = Home Health Agency

** When the Texas Medicaid rate is based on a different unit of service than the comparison rate, the Texas rate was converted to the comparison unit of service when determining the difference between the Texas rate and the comparison rate and the Texas rate as a percent of the comparison rate. For example, for CORF/ORF 92507, the Texas unit of service is 15 minutes while the comparison unit of service is a visit. To compare the Texas rate to the comparison rate, the Texas rate must be multiplied by a conversion factor of 3.5.

Attachment A to Attachment 1 to Attachment to Block 7 of CMS Form 179. Therapy Reimbursement Rate Comparisons

*Type of Service (TOS): 1 = Medical Services; C = Home Health Agency

** When the Texas Medicaid rate is based on a different unit of service than the comparison rate, the Texas rate was converted to the comparison unit of service when determining the difference between the Texas rate and the comparison rate and the Texas rate as a percent of the comparison rate. For example, for CORF/ORF 92507, the Texas unit of service is 15 minutes while the comparison unit of service is a visit. To compare the Texas rate to the comparison rate, the Texas rate must be multiplied by a conversion factor of 3.5.

Attachment A to Attachment 1 to Attachment to Block 7 of CMS Form 179. Therapy Reimbursement Rate Comparisons

*Type of Service (TOS): 1 = Medical Services; C = Home Health Agency

** When the Texas Medicaid rate is based on a different unit of service than the comparison rate, the Texas rate was converted to the comparison unit of service when determining the difference between the Texas rate and the comparison rate and the Texas rate as a percent of the comparison rate. For example, for CORF/ORF 92507, the Texas unit of service is 15 minutes while the comparison unit of service is a visit. To compare the Texas rate to the comparison rate, the Texas rate must be multiplied by a conversion factor of 3.5.

Attachment A to Attachment 1 to Attachment to Block 7 of CMS Form 179. Therapy Reimbursement Rate Comparisons

*Type of Service (TOS): 1 = Medical Services; C = Home Health Agency

** When the Texas Medicaid rate is based on a different unit of service than the comparison rate, the Texas rate was converted to the comparison unit of service when determining the difference between the Texas rate and the comparison rate and the Texas rate as a percent of the comparison rate. For example, for CORF/ORF 92507, the Texas unit of service is 15 minutes while the comparison unit of service is a visit. To compare the Texas rate to the comparison rate, the Texas rate must be multiplied by a conversion factor of 3.5.
