

## National Code Sets

HIPAA requires the use of many national standard codes sets in the various transactions. Of primary importance are:

1. HCPCS (Healthcare Common Procedure Coding System)
  - a. Procedure codes and modifiers
  - b. <http://cms.hhs.gov/medicare/hcpcs/default.asp>
2. CPT-4 (Common Procedural Terminology)
  - a. Procedure codes and modifiers
3. ICD-9 (International Classification of Disease)
  - a. Diagnosis Codes
4. Claim Adjustment Reason Codes
5. Place of Service (POS)
6. Claim Status Category Codes (EOB)
7. Claim Remittance Advice Remark Codes
8. Revenue Codes
