## **Hospital Utilization - 2008**

### **Notes:**

Hospitals were selected from analyses conducted by the Texas Comptroller of Public Accounts and the Texas Organization of Rural & Community Hospitals.

Utilization data from the 2008 Annual Survey of Hospitals conducted by:  
American Hospital Association  
Texas Hospital Association  
Texas Department of State Health Services

Population estimates from Texas State Data Center, Institute for Demographic and Socioeconomic Research,  
The University of Texas at San Antonio  
2000-2007 Migration Scenario - Feb 2009

Metrics were chosen from AHA annual reports and determined to be standard measures of utilization

### **Average Utilization for Texas Rural Hospitals:**

Staffed Beds = 32

Inpatient Admissions / 1,000 Persons = 63

Inpatient Days / 1,000 Persons = 240

Hospital Outpatient Visits / 1,000 Persons = 2,705

Emergency Department Visits / 1,000 Persons = 396

\*Percent of Bed Days Occupied = 28.9%

\* Measure not included in AHA reports
